

# Sustainable Humanosphere

BULLETIN OF  
RESEARCH INSTITUTE FOR SUSTAINABLE HUMANOSPHERE  
KYOTO UNIVERSITY

No. 15

September 2019

PUBLISHED BY  
RESEARCH INSTITUTE FOR SUSTAINABLE HUMANOSPHERE  
KYOTO UNIVERSITY  
UJI, KYOTO 611-0011, JAPAN

‘Sustainable Humanosphere’ is a serial publication issued annually by the Research Institute for Sustainable Humanosphere (RISH) of Kyoto University, which aims to provide a report on the ongoing research at our Institute along with new research field of sustainable humanosphere. This journal will be distributed free of charge and prefers to exchange similar articles with scientific institutions and libraries throughout the world. All communications concerning ‘Sustainable Humanosphere’ should be addressed to Research Institute for Sustainable Humanosphere (RISH), Kyoto University, Gokasho, Uji 611-0011, Japan.

#### Editorial Board

Kei'ichi Baba

Rika Kusakabe

Hajime Sorimachi

Chin-Cheng Yang

Yoshimasa Kishimoto

Takafumi Nakagawa

Mayu Takeda

Hirotsugu Koijsma

Naoki Shinohara

Suyako Tazuru

# CONTENTS

## Note

- Biological and molecular characterization of Citrus tatter leaf virus in Taiwan ..... 1  
Chun-Yi Lin

## Recent research activities

- Visualization of cellulose molecules in synthesis with time-resolved SAXS ..... 5  
Tomoya Imai, Hirotaka Tajima, and Paavo A. Penttilä
- Screening and identification of useful enzymes from biphenyl/PCB-degrading bacteria  
that metabolize lignin-derived aromatic compounds ..... 6  
Takahito Watanabe
- Structure, biosynthesis, and bioengineering of lignocellulose and phenylpropanoid metabolites  
for future biorefinery ..... 7  
Toshiaki Umezawa, Yuki Tobimatsu, Shiro Suzuki, and Masaomi Yamamura
- Discovery of a cadmium transporter for phytoremediation ..... 8  
Kazufumi Yazaki and Akifumi Sugiyama
- Mie–Raman lidar techniques using the UV laser for profiling atmospheric constituents  
in the atmospheric boundary layer ..... 9  
Masanori Yabuki
- A proposal for satellite observation of the whole atmosphere  
– superconducting submillimeter-wave limb-emission sounder (SMILES-2) ..... 10  
Masato Shiotani
- International Equatorial Atmosphere School 2019 ..... 11  
Tatsuhiko Yokoyama and Mamoru Yamamoto
- Modification of fibrous material by radiation technique ..... 12  
Satoko Okubayashi
- Joint force to battle the red imported fire ants in Japan:  
a multi-institution collaborative framework supported by the Ministry of the Environment ..... 13  
Chin-Cheng Scotty Yang

|  |    |
|--|----|
| Cellulose nanofiber-based hydrogels with improved mechanical properties . . . . .                            | 14 |
| Yang Xianpeng, Kentaro Abe, and Hiroyuki Yano  |    |
| Evaluation of NO <sub>2</sub> sorption ability of cedar wood . . . . .                                       | 15 |
| Miyuki Nakagawa, Kenji Umemura, and Kozo Kanayama  |    |
| Lateral Performance of the frame with upper mud wall<br>in Japanese traditional residential houses . . . . . | 16 |
| Hiroshi Isoda and Zherui Li  |    |
| Relaxation effects in the scent of <i>Lilium japonicum</i> . . . . .   | 17 |
| Aya Yanagawa   |    |
| Simulations and modeling of geospace environment . . . . .   | 18 |
| Yoshiharu Omura and Yusuke Ebihara   |    |
| Development of microwave irradiation applicators for sustainable chemistry . . . . .                         | 19 |
| Tomohiko Mitani, Naoki Shinohara, Junji Miyakoshi,<br>Shin Koyama, and Yohei Ishikawa                        |    |
| Novel space environment monitor, instrument, and space mission concepts . . . . .                            | 20 |
| Hirotsugu Kojima and Yoshikatsu Ueda   |    |
| <b>Prize</b> . . . . .   | 21 |

**Abstracts (Ph.D. thesis)**

|   |    |
|---|----|
| Generation of transgenic rice with altered lignin composition and<br>comparative characterization of their biomass utilization properties . . . . .                 | 24 |
| Yuri Takeda   |    |
| Characteristics of tropical tropopause and stratospheric gravity waves<br>analyzed using high resolution temperature profiles from GNSS radio occultation . . . . . | 26 |
| Noersomadi  |    |
| Study on miniaturization of plasma wave measurement system . . . . .  | 28 |
| Takahiro Zushi  |    |

## Abstracts (Master thesis)

|   |    |
|---|----|
| Research on the morphosis of gravitropic bending using a model plant . . . . .  | 30 |
| Nanako Matsunaga  |    |
| Bioethanol production process incorporating expression<br>of laccase bearing lignin-binding peptide . . . . .   | 31 |
| Kento Masuda  |    |
| Production of antiviral compounds from sugarcane bagasse by microwave reactions . . . . .   | 32 |
| Chihiro Kimura  |    |
| Characterization of <i>O</i> -methyltransferases involved in antitumor lignan biosynthesis<br>in <i>Anthriscus sylvestris</i> . . . . .                 | 33 |
| Keisuke Kobayashi   |    |
| Characterization of geranyl diphosphate synthase from <i>Lithospermum erythrorhizon</i> . . . . .   | 34 |
| Hayato Ueoka  |    |
| Purine permiases of <i>Coffea canephora</i> , CcPUP1 and CcPUP5, are involved<br>in the uptake of adenine . . . . .                                     | 35 |
| Hirobumi Kakegawa   |    |
| Analysis of dynamics and function of daidzein in the soybean rhizosphere . . . . .  | 36 |
| Fuki Okutani  |    |
| Establishment of virus-induced gene silencing method in <i>Lithospermum erythrorhizon</i> ,<br>a model plant for plant specialized metabolism . . . . . | 37 |
| Natsumi Isaka   |    |
| A study on the detailed boundary layer structure calculated by the Large Eddy Simulation<br>in the real meteorological condition . . . . .              | 38 |
| Naohiro Iwamoto   |    |
| Development of high-range resolution lidar for observing aerosol spatial distributions<br>including near ranges . . . . .                               | 39 |
| Fumiya Kitafuji   |    |
| Functionalization of cellulose nanofiber sheet surface by imprinting method . . . . .   | 40 |
| Kumi Sato   |    |

|   |    |
|---|----|
| Biom mineralization by using cellulose nanofiber gel .....                                    | 41 |
| Akihiro Matsushita  |    |
| Nanocomposite materials from acrylic resin latex and cellulose nanofibers .....               | 42 |
| Tairi Miyake  |    |
| Semi-defibrat ion of wood as pretreatment for wood flow forming                               |    |
| – The effect of semi-defibrat ion on penetrability of wood .....                              | 43 |
| Rin Matsumoto   |    |
| Pretreatment for wood flow forming  |    |
| – Temporal variability of solution distribut ion in impregnated wood under conditioning ..... | 44 |
| Masaya Nagai  |    |
| Estimat ion of relat ive displacem ent of wooden buildings calculated from accelerat ion      |    |
| using wavelet transform .....   | 45 |
| Hiroto Yamamoto   |    |
| Structural performanc e of steel frame with CLT shear wall .....                              | 46 |
| Kazumi Kanazawa   |    |
| Seismic performanc e of wooden houses required for continuous use                             |    |
| after major earthquak es .....  | 47 |
| Kotaro Sumida   |    |
| Study of geomagnetically induced current using 3D FDTD method .....                           | 48 |
| Kazuki Kurisu   |    |
| Simulation study on the growth of whistler mode chorus wave                                   |    |
| in the magnetosphere in disturb ed conditions .....   | 49 |
| Takuya Ikeda  |    |
| Development of microwav e power transfer system with high efficiency                          |    |
| for drone applicat ion .....  | 50 |
| Nobuyuki Takabayashi  |    |
| Development of a compact microwav e rectifier with the multilayer substrate filter .....      | 51 |
| Kouta Okazaki   |    |
| Study on Beltrami field in microwav es .....  | 52 |
| Ryo Mochizuki   |    |

|  |           |
|--|-----------|
| Study on thrust performance evaluation of magneto plasma sail with magnetic nozzle . . . . .                   | 53        |
| Tatsumasa Hagiwara   |           |
| Study on the integration of waveform capture-type plasma wave receivers . . . . .                              | 54        |
| Shunsuke Kamata  |           |
| Study on the improvement of the identification techniques for space debris orbits<br>by the MU radar . . . . . | 55        |
| Takuya Torii   |           |
| Study on the accuracy improvement of 3D shape estimation of space debris . . . . .                             | 56        |
| Takuto Ueno  |           |
| <b>Publication</b> . . . . .   | <b>57</b> |
