

令和3年度 京都大学化学研究所 スーパーコンピュータシステム 利用報告書

Interplay between planktonic interactions and climate change

京都大学 化学研究所 化学生命科学研究領域 Liu Wenwen

研究成果概要

From last November, I was allowed to use the supercomputer. By using supercomputer, I started to solve some bioinformatic questions, such as read the base sequence data of KEGG genome and count or sort them by different ways. Finally, I used the supercomputer solving M1 questions.
