目 次

| | |
|--|----|
| 1. Comparison of tests with same Bahadur efficiency..... | 1 |
| J. K. Ghosh Indian Statistical Institute and University of Missouri | |
| Tapas K. Chandra Presidency College | |
| 2. On approximate sufficiency | 42 |
| Tokitake Kusama Waseda University | |
| 3. Rank tests for the k-sample problem..... | 47 |
| Shingo Shirahata Osaka University | |
| 4. A property of higher order asymptotically sufficient statistics | 52 |
| Takeru Suzuki Waseda University | |

5. Notes on the almost measurability59
(A preliminary report)

Hirokichi Kudō

Kwansei Gakuin University

6. Minimality of pairwise sufficient σ -fields.....65

J. K. Ghosh

Indian Statistical Institute

and

University of Arizona

7. Smallestness and minimality of pairwise sufficient
subfields82

Haruki Morimoto

Osaka City University
