RIGHT:
Evaluation of Intercellular Communication of Human Prostatic Epithelium ...............................................................K. Kihara et al. 201
Fundamental Studies of Targeting Cancer Chemotherapy Against Choriocarcinoma —Application of Liposome— ......................S. Tadera et al. 209
Clinical Studies on Urinary Tissue Polypeptide Antigen (TPA): Problems and Improvement in Determination ....................M. Yoshida et al. 217
Surgical Resection for Pulmonary Metastasis from Genitourinary Cancers .................................................................S. Nakagawa et al. 225
Sequential Combination Chemotherapy Consisting of Vincristine, Peplomycin, Methotrexate, Cis-Diammine-Dichloroplatinum (II) and Adriamycin for Urothelial Cancer ...........................................T. Konami et al. 231
A Clinical Survey of Renal Pelvic and Ureteral Tumors Associated with Bladder Tumor ..................................................H. Matsuki et al. 239
Effect of Intravesical Instillation of Antitumor Drugs for the Development on N-Butyl-N-(4-Hydroxybutyl) Nitrosamine-induced Bladder Tumors in Rats .....................................................T. Suzuki et al. 247
Local Immunotherapy with Streptococcal Preperation, OK-432 in Superficial Bladder Tumors, and Common Antigens Between OK-432 and the Tumor ..............................................................T. Fujioka et al. 253
Studies of Progressive Factors of Stage A Prostatic Cancer ............................................................Y. Higaki and K. Imamura 265
Changes in Tumor Markers Following Cryosurgery of Prostate Carcinoma ..........................................................Y. Higaki and K. Imamura 265
A Clinical Study of Prostatic Carcinoma ..................................................H. Hashimoto et al. 271
Urease Activity of Bacteria in Urine .................................................................Y. Arai et al. 277
Clinical Statistics on the Patients Operated at the Department of Urology, Kinki University Hospital During Three Years from 1984 to 1986 .................................................................T. Kurita et al. 283
A Case of Ipsilateral Pelvic Transitional Cell Carcinoma and Renal Cell Carcinoma .................................................................T. Araki et al. 291
A Case of Emphysematous Pyelonephritis combined with Xanthogranulomatous Pyelonephritis ........................................A. Moriya et al. 295
Retroperitoneal Germ Cell Tumors with High Level of Serum and Urine hCG in an Adult: A Case Report ...............................Y. Nakajima et al. 301
The Retroperitoneal Liposarcoma: A Case Report ..............................Y. Ohyabu et al. 307
Two Cases of Ureteral Endometriosis ..............................................T. Watanabe et al. 315
Report of Two Cases of Long Ureteral Polyps and Review of Literature .................................................................S. Takamura et al. 323
Two Cases of Ectopic Ureterocele in Female Adults Diagnosed by the Growth of Stones in the Cele ———H. Hayashida et al.— 329

Complete Remission of Brain Metastasis of Bladder Cancer Treated by M-VAC Therapy ———S. Nakagawa et al.— 333

Transitional Cell Carcinoma of the Urinary Bladder in Adolescence:

Report of a Case ———C.J. Kim et al.— 337

Localized Amyloidosis of Urinary Bladder: A Case Report——O. Miyake et al.— 343

A Case of Herniation of Bladder ———Y. Sai et al.— 349

Four Cases of Sperm Invasion ———S. Yamaguchi et al.— 353

Intrascrotal Sclerosing Lipogranuloma:

A Case Report ———A. Iwakawa and K. Hamano— 357

Primary Hyperparathyroidism in a Child with Parathyroid Crisis

—Review of 24 Cases Reported in Japan— ———K. Matsumiya et al.— 361

4 Cases of Paraquat Poisoning ———T. Hamaguchi et al.— 367

Clinical Studies with a New Non-Ionic Contrast Medium

—Iohexol (Omnipaque®)-in Patients Sensitive to Ionic Contrast Medium ———H. Fuse et al.— 371

Clinical Studies on Ceftriaxone in Complicated Urinary Tract Infections ———K. Yamakawa et al.— 377
