泌尿器科紀要 1986年3月号
A Study About the Cause of Urolithiasis in Upper Urinary Tract  
- Clinical Study of the Risk Factors of the Formation of the Stones of Upper Urinary Tract- .......................................................... M. Nonomura et al.  311

Detection of the Urinary Polyamine by a New Enzymatic Differential Assay  
(I) Fundamental Study on a New Enzymatic Differential Assay—S. Sakai et al.  327

Detection of the Urinary Polyamine by a New Enzymatic Differential Assay  
(II) Comparison with Conventional Method........................................ S. Sakai et al.  337

Detection of the Urinary Polyamine by a New Enzymatic Differential Assay  
(III) Studies on Urinary Polyamines in Patients with Genitourinary Malignant Diseases ..................................................... S. Sakai et al.  343

Oxalate Loading Test for Outpatients with Calcium Oxalate Stones .......... M. Kato  351

Uroflowmetrical Analysis of Normal Adults by Male Uroflow Diagnostic Interpretation ......................................................... M. Mizunaga et al.  361

Acute Change of Urinary NAG Activity Following CDDP  
Administration........................................................................ K. Yoshida et al.  369

Chemotherapy of Renal Cell Carcinoma  
2. Combination of Chemotherapy Using ACNU and VBL—M. Kobayashi et al.  375

Histochemical Studies on Bladder Tumors .................................................. H. Ito  385

Staging Pelvic Lymphadenectomy for Carcinoma of the Prostate:  
Review of 23 Cases ......................................................................... Y. Arai et al.  401

Experience of Transurethral Prostatic Resection by Mauermayer  
Method ......................................................................................... Y. Mori et al.  407

Silicone Pig-tail Catheter for Upper Urinary Tract ............................... H. Washida et al.  413

A Clinical Observation of Aged Patients Receiving Urologic Surgery  
................................................................................................. S. Tokunaga et al.  423

Clinical Effect of Prostaglandin F₂α on Postoperative Bowel Movement in Transurethral and Transretroperitoneal Urologic Surgery ........................................ S. Sakashita et al.  433

Combined Treatment of 8 MHz Radiofrequency Hyperthermia and Irradiation in a Patient with Mediastinal Metastasis of Renal Cancer—K. Nakajima et al.  441

A Case of Complete Remission of Distant Metastasis of Renalpelvic Tumor by Combination Chemotherapy with Mitomycin, Cyclophosphamide and 5-Fluorouracil—K. Tashiro et al.  449

A Case of Primary Ureteral Carcinoma in the Duplicated Renal Pelvis and Ureter Diagnosed by Transurethral Uretero-Renoscopy—Y. Banya et al.  454

A Case of Prostatic Leiomyosarcoma ...................................................... S. Tadera et al.  462

Prostatic Carcinoma with Metastasis to the Testicle:  
A Case Report—S. Takahashi et al.  468

A Case of Torsion of the Undescended Testicle .................................. T. Koide et al.  473

Clinical Effect of Allylestrenol on Benign Prostatic Hypertrophy—A. Tajima et al.  477

Clinical Effects of Allylestrenol on Prostatic Hypertrophy—K. Kohri et al.  486

Phase I Study with LH-RH Agonist, ICI 118630 .................................. M. Usami et al.  493

Editor: Prof. Osamu YOSHIDA, M. D.
Department of Urology, Faculty of Medicine
Kyoto University, Kyoto Japan 606
