### ADVERTISEMENT

The advertisement features the AIP Advances logo with a stylized orange and yellow circular graphic. Below the logo, the text "Special Topic Section: PHYSICS OF CANCER" is displayed in large, bold, white letters. At the bottom, the question "Why cancer? Why physics?" is posed in white, followed by a blue button labeled "View Articles Now". The background is a green and yellow abstract design.

## Erratum: “A procedure to determine the optimum imaging parameters for atomic/molecular resolution frequency modulation atomic force microscopy” [Rev. Sci. Instrum. 81, 093701 (2010)]

Yoshihiro Hosokawa,<sup>1</sup> Kei Kobayashi,<sup>2</sup> Noriaki Oyabu,<sup>1</sup> Kazumi Matsushige,<sup>1</sup> and Hirotumi Yamada<sup>1,a)</sup>

<sup>1</sup>Department of Electronic Science and Engineering, Kyoto University, Katsura, Kyoto 615-8510, Japan

<sup>2</sup>Office of Society-Academia Collaboration for Innovation, Kyoto University, Katsura, Kyoto 615-8520, Japan

(Received 16 November 2010; accepted 22 November 2010; published online 27 January 2011)

[doi:10.1063/1.3527911]

Equation (2) in the original article<sup>1</sup> was incorrect. The correct equation should read

$$\delta f(k, A) = \sqrt{\frac{f_0 k_B T B}{\pi k Q A^2} + \frac{2n_{ds}^2 B^3}{3A^2}}. \quad (2)$$

This correction does not affect any other contents of the original article.
