### Memory

In Memoriam Professor Shuichi TASAKI (1958-2010) .....	Pierre Gaspard .....	272
To the memory of Professor Shuichi Tasaki .....	Takeyuki Hida .....	284
My memory of Prof, Shuichi Tasaki .....	Tamiki Komatsuzaki .....	286
田崎秀一さんの思い出 / My Recollection of Shuichi .....	Izumi Ojima .....	291
Appointment of Visit .....	Keiji Saito .....	298
Sharing the same dream .....	Ichiro Terasaki .....	300
Time's Arrow Viewed from Chaos .....	Mikito Toda .....	307

### Academic Papers

Foundations of earthquake statistics in view of non-stationary chaos theory .....	Yoji Aizawa .....	309
Weighted Detailed Balance and Local KMS Condition for Non-Equilibrium Stationary States .....	L. Accardi, F. Fagnola and R. Quezada .....	318
Statistical properties of $r$ -adic processes and their connections to families of popular fractal curves .....	J. R. Dorfman and Thomas Gilbert .....	357
Is entanglement quantum? .....	Paolo Facchi and Saverio Pascazio .....	370
From the multibaker map to the fluctuation theorem for currents .....	Pierre Gaspard and David Andrieux .....	377
On Lambda transformation approach to the theory of irreversibility .....	F. Gómez-Cubillo and Z. Suchanecki .....	398
Boundary element method and isospectrality in quantum billiards .....	Takahisa Harayama and Akira Shudo .....	414

On the general property of correlation ... Gen Kimura and Shuichi Tasaki .....	421
Slow Decay of Correlations in Non-hyperbolic Dynamical Systems ..... Tomoshige Miyaguchi .....	429
Relaxation to equilibrium in macroscopic quantum systems ..... Takaaki Monnai .....	440
Gaussian, exponential and power-law decays and their time ranges ..... Hiromichi Nakazato .....	450
The quantum Bernoulli map .....	Gonzalo Ordonez and Yingyue Boretz ..... 456
Anomalous behavior of singularities of solution on stable and/or unstable manifolds ..... Kin'ya Takahashi .....	477
Quantum statistical mechanics in infinitely extended systems ..... Shuichi Tasaki, Shigeru Ajisaka and Felipe Barra .....	483
Understandings of Transport Phenomena in Multi-Dimensional Dynamical Systems (高次元力学系における輸送現象の理解の広がり) ..... Hiroshi Teramoto, Mikito Toda and Tamiki Komatsuzaki .....	547
Universal Characteristics of Time-irreversibility in Quantum Normal Diffusion ..... Hiroaki S. Yamada and Kensuke S. Ikeda .....	560
Canonical Ensemble of Noninteracting Bosonic Atoms and Interference of Bose-Einstein Condensates .....	Kazuya Yuasa ..... 585
