## CONTENTS

Nos. 1/2 (March 1986)

### Article

1. **Hirayama, A.:** Taxonomic studies of the shallow water gammaridean Amphipoda of west Kyushu, Japan. VI. Lysianassidae (*Orchomene*), *Megaluropus* family group, Melitidae (*Cottesloe*, *Jerbarnia*, *Maera*, *Ceradocus*, *Eriopisella*, *Dulichella*). ..... 1
2. **Izawa, K.:** On the development of parasitic Copepoda, III. *Taeniacanthus lagocephali* Pearse (Cyclopoida: Taeniacanthidae). ..... 37
3. **Byrnes, T.:** A new species of *Parapetulus* (Copepoda: Caligidae) parasitic on the samson fish, *Seriola hippos* from Australia and its similarity with *Caligus spinosus*. ..... 55
4. **Itô, T.:** Three types of "nauplius y" (Maxillopoda: Facetotecta) from the North Pacific. ..... 63
5. **Araga, C., & T. Yoshino:** A new species of deep-dwelling razor-fish from Japan. ..... 75

Nos. 3/6 (November 1986)

6. **Izawa, K.:** On the development of parasitic Copepoda. IV. Ten species of poecilostome cyclopoids, belonging to Taeniacanthidae, Tegobomolochidae, Lichomolgidae, Mycolidae, and Chondracanthidae. .... 81
7. **Baldari, F., & V. Cottarelli:** A new species of the genus *Paralaeophontodes* (Crustacea: Copepoda: Harpacticoida) from interstitial waters of Mindoro Island (The Philippines). ..... 163
8. **Byrnes, T.:** Six species of *Lamellodiscus* (Monogenea: Diplectanidae) collected from Australian bream (*Acanthopagrus* spp.). ..... 169
9. **Nakamura, H.:** Chromosomes of Archaeogastropoda (Mollusca: Prosobranchia), with some remarks on their cytotaxonomy and phylogeny. .... 191
10. **Miura, T.:** Japanese polychaetes of the genera *Eunice* and *Euniphysa*: Taxonomy and branchial distribution patterns. .... 269
11. **Wada, K.:** Burrow usurpation and duration of surface activity in *Scopimera globosa* (Crustacea: Brachyura: Ocypodidae). ..... 327
12. **Itô, T.:** A new species of "cypris y" (Crustacea: Maxillopoda) from the North Pacific. .... 333
