GEOPHYSICAL INSTITUTE  
KYOTO UNIVERSITY  
KYOTO, JAPAN

## CONTENTS

Michihiro YASUHARA : On the Year-to-year Change of Geomagnetic Daily Variation Field .....	1
Hiroo MURATA : Seasonal Variation in the D-Component of Sq Near the Dip-Equator .....	9
Toshio OGAWA, Yoshikazu TANAKA and Michihiro YASUHARA : Diurnal Variations of Resonant Frequencies in the Earth-Ionosphere Cavity.....	15
Tomio ASAI : On the Spacing of Convective Cloud Bands .....	21
Tomio ASAI and Isao NAKASUJI : A Numerical Investigation of Hydrodynamic Instability of a Shear Flow in a Thermally Unstable Fluid Layer...	31
Yasushi MITSUTA : Application of Sonic Anemometer-Thermometer to the Studies of Vertical Eddy Transport Processes in the Atmospheric Boundary Layers .....	45
Yuji SANO and Yasushi MITSUTA : Dynamic Response of the Hygrometer Using Fine Thermocouple Psychrometer.....	61
Kyōzō KIKKAWA and Yūki YUSA : Distributions of Temperature in an Underground Structure Altered by Hydrothermal Conditions .....	71
Akira KUBOTERA, Norihiko SUMITOMO, Hirokazu TAZIMA and Sadakatu IZUTUYA : A Gravity Survey on Aso Caldera Kyushu District, Japan (II) .....	83
Izuo OZAWA : Observations of the Crustal Strains at the Time of Earthquakes Around Kyoto City .....	91
