CONTENTS

Yanagi, T.; Dispersion due to the residual flow in the hydraulic model.	1
Oonishi, Y. and N. Imasato; A note on the water exchange between the South and the North basins of Lake Biwa.	11
Sakai, A.; Geometrical conditions for deformation and fracture related to the earthquakes (1).	21
Ozawa, I.; Pattern of tidal deformation on the earth.	29
Ozawa, I.; Supposition of distribution of earthquake disaster by setting seismic fault.	39
Shimada, M.; The effect of repeated loading on the generated pressure in a girdle high pressure apparatus.	49
Yukutake, H. and M. Shimada; Measurement of thermal diffusivity of KCl at pressures up to 35 kbar and temperatures up to 820°K.	59
Report	
Inoue, T. and T. Cho; Storm-time variations of electron concentration in the equatorial topside ionosphere.	69
<i>List of Publications</i>	75
