OF THE
COLLEGE OF SCIENCE

KYOTO IMPERIAL UNIVERSITY

SERIES A

VOL. XII

1929

KYOTO

CONTENTS OF VOLUME XII

	PAGE
Osamu Masaki —Studies in Photographic Sensitivity, Part I. The Effect of Heat on the Sensitivity Curve of Photographic Plates	1
Osamu Masaki —Studies in Photographic Sensitivity, Part II. On the Sensitivity of Photographic Plate at Various Temperatures	13
Masayoshi Ishibashi —Quantitative Analysis of Phosphoric Acid, Part I. Determination as Magnesium Pyrophosphate ...	23
Masayoshi Ishibashi —Quantitative Analysis of Phosphoric Acid, Part II. New Gravimetric and Volumetric Methods... ..	39
Masayoshi Ishibashi —Quantitative Analysis of Phosphoric Acid, Part III. Determination as Zinc Ammonium Phosphate ...	49
Hatsumi Katagishi, Yoshinobu Ginbayashi and Motooki Matsui —The Anodic Behaviour of Substituted Acetic Acids, Part I. Diphenylacetic Acid	57
Kaoru Matsumiya and Hisakazu Nataka —Organic Compounds of Arsenic, VI. Electrolytic Reduction of some Aryl-Arsinic Acids	63
Goro Shima —On the Electrolytic Reduction of Aldehydes, Part V. Cinnamic Aldehyde	69
Goro Shima —On the Electrolytic Reduction of Aldehydes, Part VI. Complete Reduction of the Carbonyl Group	73
Hajime Kotô —On the Reflection of the Ultra-Violet Rays from Metallic Surfaces in Relation to their Micro-Structures ...	81
Shuyo Ito —A Simple Method of obtaining a Single-Crystal of Zinc with Approximately any Desired Orientation of its Principal Axis	97
Osamu Masaki —Studies in Photographic Sensitivity, Part III. Sensitizing Action of Previous Exposure to a Dim Light... ..	107
Osamu Masaki —Studies in Photographic Sensitivity, Part IV. Desensitizing Action of Previous Fogging by X-Rays	117

Osamu Masaki —Studies in Photographic Sensitivity, Part V. Effect of Heat on the Absorption Spectrum and Photoelectric Conductivity of Silver Bromide, and their Relation to the Photographic Action... ..	127
Masayoshi Ishibashi —Quantitative Analysis of Phosphoric Acid, Part IV. Gravimetric and Valumetric Determination as Ammonium Phosphomolybdate	135
Otozo Funakoshi —A Sensitive Reaction of Cuprous Ion	155
Buntaro Fujita —Crystal-Faces developed by etching Metallic Crystals of Aluminium and Zinc	159
Takeo Fujiwara —Tensile Strength and Fracture of Rolled Strips of Molybdenum... ..	165
Daidzi Iitsuka —On the Effect of mixing Small Quantities of Cobalt with Brass	179
Jinzo Tsutsumi —An Examination of the Micro-Crystals of Calcium Carbonate in Molluscan Shells by Means of X-Rays, Part III	199
Usaburo Yoshida and Shogo Tsuboi —Examination of Ice-Crystals by X-Rays... ..	203
Shogo Tsuboi —On the Fibrous Structure in Metals deposited through Difference in Electrolytic Solutional Pressures, Part II... ..	209
Tatsumi Terada —“The Reversal-Like Phenomena” of the Discharge-Figures impressed on Photographic Plates	217
Shogo Tsuboi —On the Favourable Direction of Growth of Some Metal-Crystals	223
Masaharu Tasaki —Ueber das ternäre System Cu-Sn-Sb	227
Setsuzo Takeyama —A Method of determining the Direction of the Axis of a Fibrous Arrangement of Micro-Crystals	257
Yoshio Fukami —The Arrangement of the Micro-Crystals in Compressed Single-Crystal-Plates of Aluminium... ..	261
T. Nomitsu, R. Kamimoto and Y. Toyohara —On the Adsorption of a NaCl-Solution by Sand	265
Kawan-ichi Asagoe —Classification of the Spectral Lines of Cl, Br and I... ..	275
Goro Shima —On the Electrolytic Reduction of Ketones, Part I. Reduction of α,β -Unsaturated Ketones... ..	327
Kiōchiro Ogura —Electrolytic Reduction of Nitriles, Part I	339

	PAGE
Hidemaru Itomi —The Electrolytic Reduction of O-Nitrobenzene Azophenol 343	343
Shuzo Ueno —On the Ternary Silver Alloys, I: The System of Silver, Copper and Zinc 347	347
Kenzo Tanaka —The Orientation of Single-Crystals of Tin 375	375

INDEX OF AUTHORS TO VOLUME XII

	PAGE
Asagoe, K. —Classification of the Spectral Lines of Cl, Br and I... ..	275
Fujita, B. —Crystal-Faces developed by etching Metallic Crystals of Aluminium and Zinc	159
Fujiwara, T. —Tensile Strength and Fracture of Rolled Strips of Molybdenum ...	165
Fukami, Y. —The Arrangement of the Micro-Crystals in Compressed Single-Crystal-Plates of Aluminium... ..	261
Funakoshi, O. —A Sensitive Reaction of Cuprous Ion	155
Ginbayashi, Y. (See Katagishi, H. , Ginbayashi, Y. and Matsui, M.)... ..	57
Iitsuka, D. —On the Effect of mixing Small Quantities of Cobalt with Brass	179
Ishibashi, M. —Quantitative Analysis of Phosphoric Acid, Part I. Determination as Magnesium Pyrophosphate	23
Ishibashi, M. —Quantitative Analysis of Phosphoric Acid, Part II. New Gravimetric and Volumetric Methods... ..	39
Isibashi, M. —Quantitative Analysis of Phosphoric Acid, Part III. Determination as Zinc Ammonium Phosphate	49
Ishibashi, M. —Quantitative Analysis of Phosphoric Acid, Part IV. Gravimetric and Volumetric Determination as Ammonium Phosphomolybdate... ..	135
Ito, S. —A Simple Method of obtaining a Single-Crystal of Zinc with Approximately any Desired Orientation of its Principal Axis	97
Itomi, H. —The Electrolytic Reduction of O-Nitrobenzene Azophenol	343
Kamimoto, R. (See Nomitsu, T. , Kamimoto, R. and Toyohara, Y.)	265
Katagishi, H. , Ginbayashi, Y. and Matsui, M. —The Anodic Behaviour of Substituted Acetic Acids, Part I. Diphenylacetic Acid	57
Kotô, H. —On the Reflection of the Ultra-Violet Rays from Metallic Surfaces in Relation to their Micro-Structures	81
Masaki, O. —Studies in Photographic Sensitivity, Part I. The Effect of Heat on the Sensitivity Curve of Photographic Plates	1
Masaki, O. —Studies in Photographic Sensitivity, Part II. On the Sensitivity of Photographic Plates at Various Temperatures	13
Masaki, O. —Studies in Photographic Sensitivity, Part III. Sensitizing Action of Previous Exposure to a Dim Light	107
Masaki, O. —Studies in Photographic Sensitivity, Part IV. Desensitizing Action of Previous Fogging by X-Rays... ..	117
Masaki, O. —Studies in Photographic Sensitivity, Part V. Effect of Heat on the Absorption Spectrum and Photoelectric Conductivity of Silver Bromide, and their Relation to the Photographic Action	127
Matsui, M. (See Katagishi, H. , Ginbayashi, Y. and Matsui, M.)... ..	57

	PAGE
Matsumiya, K. and Nakata, H. —Organic Compounds of Arsinic, VI. Electrolytic Reduction of Some Aryl-Arsinic Acids... ..	63
Nakata, H. (See Matsumiya, K. and Nakata, H.)	63
Nomitsu, T., Kamimoto, R. and Toyohara, Y. —On the Adsorption of a NaCl-Solution by Sand	265
Ogura, K. —Electrolytic Reduction of Nitriles, Part I	339
Shima, G. —On the Electrolytic Reduction of Aldehydes, Part V. Cinnamic Aldehyde... ..	69
Shima, G. —On the Electrolytic Reduction of Aldehydes, Part VI. Complete Reduction of the Carbonyl Group	73
Shima, G. —On the Electrolytic Reduction of Ketones, Part I. Reduction of α,β -Unsaturated Ketones... ..	327
Takeyama, S. —A Method of determining the Direction of the Axis of a Fibrous Arrangement of Micro-Crystals	257
Tanaka, K. —The Orientation of Single-Crystals of Tin	379
Tasaki, M. —Ueber das ternäre System Cu-Sn-Sb	227
Terada, T. —“The Reversal-Like Phenomena” of the Discharge-Figures impressed on Photographic Plates	217
Toyohara, Y. (See Nomitsu, T., Kamimoto, R. and Toyohara, Y.)	265
Tsuboi, S. (See Yoshida, U. and Tsuboi, S.)	203
Tsuboi, S. —On the Fibrous Structure in Metals deposited through Difference in Electrolytic Solutional Pressures, Part II	209
Tsuboi, S. —On the Favourable Direction of Growth of Some Metal-Crystals	223
Tsutsumi, J. —An Examination of the Micro-Crystals of Calcium Carbonate in Molluscan Shells by Means of X-Rays, Part III	199
Ueno, S. —On the Ternary Silver Alloys, 1. The System of Silver, Copper and Zinc... ..	347
Yoshida, U. and Tsuboi, S. —Examination of Ice-Crystals by X-Rays... ..	203

INDEX OF SUBJECTS TO VOLUME XII

	PAGE
Absorption Spectrum and Photoelectric Conductivity of Silver Bromide, and their Relation to the Photographic Action. Studies in Photographic Sensitivity, Part V. Effects of Heat on the, (<i>Masaki</i>)	127
Acetic Acids, The Anodic Behaviour of Substituted, Part I. Diphenylacetic Acid (<i>Katagishi, Ginbayashi</i> and <i>Matsui</i>)	57
Adsorption of a NaCl-Solution by Sand, On the, (<i>Nomitsu, Kamimoto</i> and <i>Toyohara</i>)...	265
Aldehydes, On the Electrolytic Reduction of, Part V. Cinnamic Aldehyde (<i>Shima</i>)...	69
Aldehydes, On the Electrolytic Reduction of, Part VI. Complete Reduction of the Carbonyl Group (<i>Shima</i>)... ..	73
Alloys, On the Ternary Silver, I. The System of Silver, Copper and Zinc (<i>Ueno</i>) ...	347
Aluminium and Zinc, Crystal-Faces developed by etching Metallic Crystals of, (<i>Fujita</i>)...	159
Aluminium, The Arrangement of the-Micro-Crystals in Compressed Single-Crystal-Plates of, (<i>Fukami</i>)	261
Ammonium Phosphomolybdate. Quantitative Analysis of Phosphoric Acid, Part IV. Gravimetric and Volumetric Determination as, (<i>Ishibashi</i>)	135
Anodic Behaviour, the, of Substituted Acetic Acids, Part I. Diphenylacetic Acid (<i>Katagishi, Ginbayashi</i> and <i>Matsui</i>)	57
Arsenic, Organic Compounds of, VI. Electrolytic Reduction of Some Aryl-Arsinic Acids (<i>Matsumiya</i> and <i>Nakata</i>)	63
Aryl-Arsinic Acids. Organic Compounds of Arsenic, VI. Electrolytic Reduction of Some, (<i>Matsumiya</i> and <i>Nakata</i>)	63
Axis of a Fibrous Arrangement of Micro-Crystals, A Method of determining the Direction of the, (<i>Takeyama</i>)	257
Br and I, Classification of the Spectral Lines of Cl, (<i>Asagoe</i>)... ..	275
Brass, On the Effect of mixing Small Quantities of Cobalt with, (<i>Iitsuka</i>)	179
Calcium Carbonate in Molluscan Shells by Means of X-Rays, Part III. An Examination of the Micro-Crystals of, (<i>Tsutsumi</i>)	199
Carbonyl Group. On the Electrolytic Reduction of Aldehydes, Part VI. Complete Reduction of the, (<i>Shima</i>)	73
Cinnamic Aldehyde. On the Electrolytic Reduction of Aldehydes, Part V., (<i>Shima</i>) ...	69
Cl, Br and I, Classification of the Spectral Lines of, (<i>Asagoe</i>)... ..	275
Cobalt with Brass, On the Effect of mixing Small Quantities of, (<i>Iitsuka</i>)	179
Compressed Single-Crystal-Plates of Aluminium, The Arrangement of the Micro-Crystals in, (<i>Fukami</i>)	261
Copper and Zinc, On the Ternary Silver Alloys, I. The System of Silver, (<i>Ueno</i>) ...	347
Crystal of Zinc with Approximately any Desired Orientation of its Principal Axis. A Simple Method of obtaining a Single-, (<i>Ito</i>)	97
Crystal-Faces developed by etching Metallic Crystals of Aluminium and Zinc (<i>Fujita</i>) ...	159
Crystals of Aluminium and Zinc, Crystal-Faces developed by etching Metallic, (<i>Fujita</i>)...	159

	PAGE
Crystals by X-Rays, Examination of Ice-, (<i>Yoshida</i> and <i>Tsuboi</i>)	203
Crystals, On the Favourable Direction of Growth of Some Metal-(<i>Tsuboi</i>)	223
Crystal-Plates of Aluminium, The Arrangement of the Micro-Crystals in Compressed Single-, (<i>Fukami</i>)	261
Crystals of Tin, The Orientation of Single-, (<i>Tanaka</i>)... ..	375
Cu-Sn-Sb, Ueber das ternäre System, (<i>Tasaki</i>)	227
Cuprous Ion, A Sensitive Reaction of, (<i>Funakoshi</i>)	155
Desensitizing Action of Previous Fogging by X-Rays. Studies in Photographic Sensitivity, Part IV., (<i>Masaki</i>)	117
Dim Light, Studies in Photographic Sensitivity, Part III. Sensitizing Action of Previous Exposure to α , (<i>Masaki</i>)	107
Diphenylacetic Acid. The Anodic Behaviour of Substituted Acetic Acids, Part I., (<i>Katagishi</i> , <i>Ginbayashi</i> and <i>Matsui</i>)	57
Discharge-Figures impressed on Photographic Plates, "The Reversal-Like Phenomena" of the, (<i>Terada</i>)... ..	217
Electrolytic Reduction of Some Aryl-Arsinic Acids. Organic Compounds of Arsenic VI., (<i>Matsumiya</i> and <i>Nakata</i>)... ..	63
Electrolytic Reduction of Aldehydes, On the, Part V. Cinnamic Aldehyde (<i>Shima</i>) ...	69
Electrolytic Reduction of Aldehydes, On the, Part VI. Complete Reduction of the Carbonyl Group (<i>Shima</i>)	73
Electrolytic Reduction of Ketones, On the, Part I. Reduction of α,β -Unsaturated Ketones (<i>Shima</i>)	327
Electrolytic Reduction of Nitriles, Part I (<i>Ogumi</i>)	339
Electrolytic Reduction of O-Nitrobenzene Azophenol, The, (<i>Itomi</i>)	343
Electrolytic Solutional Pressures, Part II. On the Fibrous Structure in Metals deposited through Difference in, (<i>Tsuboi</i>)	209
Fibrous Arrangement of Micro-Crystals, A Method of determining the Direction of the Axis of α , (<i>Takeyama</i>)	257
Fibrous Structure in Metals deposited through Difference in Electrolytic Solutional Pressures, Part II. On the, (<i>Tsuboi</i>)	209
Fracture of Rolled Strips of Molybdenum, Tensile Strength and, (<i>Fujiwara</i>)	165
Gravimetric and Volumetric Methods, Quantitative Analysis of Phosphoric Acid, Part II. New, (<i>Ishibashi</i>)	39
Gravimetric and Volumetric Determination as Ammonium Phosphomolybdate. Quanti- tative Analysis of Phosphoric Acid, Part IV., (<i>Ishibashi</i>)... ..	135
Growth of Some Metal-Crystals, On the Favourable Direction of, (<i>Tsuboi</i>)	223
Heat, Studies in Photographic Sensitivity, Part I. The Effect of, on the Sensitivity Curve of Photographic Plates (<i>Masaki</i>)	1
Heat on the Absorption Spectrum and Photoelectric Conductivity of Silver Bromide, and their Relation to the Photographic Action. Studies in Photographic Sensitivity, Part V. Effects of (<i>Masaki</i>)... ..	127
I, Classification of the Spectral Lines of Cl, Br and, (<i>Asagoe</i>)	275
Ice-Crystals by X-Rays, Examination of, (<i>Yoshida</i> and <i>Tsuboi</i>)... ..	203
Ion, A Sensitive Reaction of Cuprous, (<i>Funakoshi</i>)	155
Ketones, On the Electrolytic Reduction of, Part I. Reduction of α,β -Unsaturated Ketones (<i>Shima</i>)	372
Magnesium Pyrophosphate, Quantitative Analysis of Phosphoric Acid, Part I. Deter- mination as, (<i>Ishibashi</i>)	23

	PAGE
Metal-Crystals, On the Favourable Direction of Growth of Some, (<i>Tsuboi</i>)	223
Metallic Crystals of Aluminium and Zinc, Crystal-Faces developed by etching, (<i>Fujita</i>)...	159
Metallic Surfaces in Relation to their Micro-Structures. On the Reflection of the Ultra-Violet Rays from, (<i>Kotô</i>)... ..	81
Metals deposited through Difference in Electrolytic Solutional Pressures, Part II. On the Fibrous Structure in, (<i>Tsuboi</i>)... ..	209
Micro-Crystals of Calcium Carbonate in Molluscan Shells by Means of X-Rays, Part III. An Examination of the, (<i>Tsutsumi</i>)	199
Micro-Crystals, A Method of determining the Direction of the Axis of a Fibrous Arrangement of, (<i>Takeyama</i>)	257
Micro-Crystals in Compressed Single-Crystal-Plates of Aluminium, The Arrangement of the, (<i>Fukami</i>)	261
Micro-Structures. On the Reflection of the Ultra-Violet Rays from Metallic Surfaces in Relation to their, (<i>Kotô</i>)	81
Molluscan Shells by Means of X-Rays, Part III. An Examination of the Micro-Crystals of Calcium Carbonate in, (<i>Tsutsumi</i>)	199
Molybdenum, Tensile Strength and Fracture of Rolled Strips of, (<i>Fujiwara</i>)	165
NaCl-Solution by Sand, On the Adsorption of a, (<i>Nomitsu, Kanimoto and Toyohara</i>)...	265
Nitriles, Electrolytic Reduction of, Part I (<i>Ogura</i>)	339
Nitrobenzene Azophenol, The Electrolytic Reduction of O-, (<i>Itomi</i>)	343
Organic Compounds of Arsenic, VI. Electrolytic Reduction of Some Aryl-Arsinic Acids (<i>Matsumiya and Nakata</i>)	63
Phosphoric Acid, Quantitative Analysis of, Part I. Determination as Magnesium Pyrophosphate (<i>Ishibashi</i>)... ..	23
Phosphoric Acid, Quantitative Analysis of, Part II. New Gravimetric and Volumetric Methods (<i>Ishibashi</i>)	39
Phosphoric Acid, Quantitative Analysis of, Part III. Determination as Zinc Ammonium Phosphate (<i>Ishibashi</i>)	49
Phosphoric Acid, Quantitative Analysis of, Part IV. Gravimetric and Volumetric Determination as Ammonium Phosphomolybdate (<i>Ishibashi</i>)	135
Photoelectric Conductivity of Silver Bromide, and their Relation to the Photographic Action. Studies in Photographic Sensitivity, Part V. Effects of Heat on the Absorption Spectrum and, (<i>Masaki</i>)	127
Photographic Action. Studies in Photographic Sensitivity, Part V. Effects of Heat on the Absorption Spectrum and Photoelectric Conductivity of Silver Bromide, and their Relation to the, (<i>Masaki</i>)	127
Photographic Plates, Studies in Photographic Sensitivity, Part I. The Effect of Heat on the Sensitivity Curve of (<i>Masaki</i>)	1
Photographic Plates at Various Temperatures, Studies in Photographic Sensitivity, Part II. On the Sensitivity of, (<i>Masaki</i>)	13
Photographic Plates, "The Reversal-Like Phenomena" of the Discharge-Figures impressed on, (<i>Teraki</i>)	217
Photographic Sensitivity, Studies in, Part I. The Effect of Heat on the Sensitivity Curve of Photographic Plates (<i>Masaki</i>)... ..	1
Photographic Sensitivity, Studies in, Part II. On the Sensitivity of Photographic Plates at Various Temperatures (<i>Masaki</i>)... ..	13
Photographic Sensitivity, Studies in, Part III. Sensitizing Action of Previous Exposure to a Dim Light (<i>Masaki</i>)	107

	PAGE
Photographic Sensitivity, Studies in, Part IV. Desensitizing Action of Previous Fogging by X-Rays (<i>Masaki</i>)... .. .	117
Photographic Sensitivity, Studies in, Part V. Effects of Heat on the Absorption Spectrum and Photoelectric Conductivity of Silver Bromide, and their Relation to the Photographic Action (<i>Masaki</i>)	127
Previous Exposure to a Dim Light. Studies in Photographic Sensitivity, Part III. Sensitizing Action of, (<i>Masaki</i>)	107
Previous Fogging by X-Rays. Studies in Photographic Sensitivity, Part IV. Desensitizing Action of, (<i>Masaki</i>)	117
Principal Axis. A Simple Method of obtaining a Single-Crystal of Zinc with Approximately any Desired Orientation of its, (<i>Ito</i>)	97
Quantitative Analysis of Phosphoric Acid, Part I. Determination as Magnesium Pyrophosphate (<i>Ishibashi</i>)	23
Quantitative Analysis of Phosphoric Acid, Part II. New Gravimetric and Volumetric Methods (<i>Ishibashi</i>)	39
Quantitative Analysis of Phosphoric Acid, Part III. Determination as Zinc Ammonium Phosphate (<i>Ishibashi</i>)	49
Quantitative Analysis of Phosphoric Acid, Part IV. Gravimetric and Volumetric Determination as Ammonium Phosphomolybdate (<i>Ishibashi</i>)	135
Reaction of Cuprous Ion, A Sensitive, (<i>Fanakoshi</i>)	155
Reduction of the Carbonyl Group. On the Electrolytic Reduction of Aldehyde, Part VI. Complete, (<i>Shima</i>)	73
Reduction of α,β -Unsaturated Ketones. On the Electrolytic Reduction of Ketones, Part I., (<i>Shima</i>)... .. .	327
Reduction of Nitriles, Electrolytic, Part I (<i>Ogura</i>)	339
Reduction, The Electrolytic, of o-Nitrobenzene Azophenol, (<i>Itoni</i>)... .. .	343
Reflection of the Ultra-Violet Rays from Metallic Surfaces in Relation to their Micro-Structures. On the, (<i>Kotô</i>)	81
Reversal-Like Phenomena" of the Discharge-Figures impressed on Photographic Plates. "The, (<i>Terada</i>)	217
Rolled Strips of Molybdenum, Tensile Strength and Fracture of, (<i>Fujiwara</i>)	265
Sand, On the Adsorption of a NaCl-Solution by, (<i>Nomitsu, Kanimoto and Toyohara</i>)... .. .	265
Sb, Ueber das ternäre System Cu-Sn-, (<i>Tasaki</i>)	227
Sensitivity Curve of Photographic Plates, Studies in Photographic Sensitivity, Part I. The Effect of Heat on the, (<i>Masaki</i>)	1
Sensitivity of Photographic Plates at Various Temperatures, Studies in Photographic Sensitivity, Part II. On the, (<i>Masaki</i>)... .. .	13
Sensitizing Action of Previous Exposure to a Dim Light. Studies in Photographic Sensitivity, Part III., (<i>Masaki</i>)	107
Silver, Copper and Zinc, On the Ternary Silver Alloys, I. The System of, (<i>Ueno</i>)	347
Silver Bromide, and their Relation to the Photographic Action. Studies in Photographic Sensitivity, Part V. Effects of Heat on the Absorption Spectrum and Photoelectric Conductivity of, (<i>Masaki</i>)... .. .	127
Single-Crystal of Zinc with Approximately and Desired Orientation of its Principal Axis. A Simple Method of obtaining a, (<i>Ito</i>)	97
Single-Crystal-Plates of Aluminium, The Arrangement of the Micro-Crystals in Compressed, (<i>Fukami</i>)	261
Single-Crystals of Tin, The Orientation of, (<i>Tanaka</i>)	375

	PAGE
Sn-Sb, Ueber das ternäre System Cu-, (<i>Tasaki</i>)	227
Solutional Pressures, Part II. On the Fibrous Structure in Metals deposited through Difference in Electrolytic, (<i>Tsuboi</i>)	209
Spectral Lines of Cl, Br and I, Classification of the, (<i>Asagoe</i>)... .. .	275
Tensile Strength and Fracture of Rolled Strips of Molybdenum (<i>Fujiwara</i>)	165
Ternäre System Cu-Sn-Sb, Ueber das, (<i>Tasaki</i>)	227
Ternary Silver Alloys, On the, I. The System of Silver, Copper and Zinc (<i>Ueno</i>) ...	347
Tin, The Orientation of Single-Crystals of, (<i>Tanaka</i>)	375
Ultra-Violet Rays from Metallic Surfaces in Relation to their Micro-Structures. On the Reflection of the, (<i>Kotô</i>)... .. .	81
Volumetric Methods. Quantitative Analysis of Phosphoric Acid, Part II. New Gravimetric and, (<i>Ishibashi</i>)	39
Volumetric Determination as Ammonium Phosphomolybdate. Quantitative Analysis of Phosphoric Acid, Part IV. Gravimetric and, (<i>Ishibashi</i>)... .. .	135
X-Rays. Studies in Photographic Sensitivity, Part IV. Desensitizing Action of Previous Fogging by, (<i>Masaki</i>)	117
X-Rays, Part III. An Examination of the Micro-Crystals of Calcium Carbonate in Molluscan Shells by Means of, (<i>Tsutsumi</i>)	199
X-Rays, Examination of Ice-Crystals by, (<i>Yoshida</i> and <i>Tsuboi</i>)... .. .	203
Zinc Ammonium Phosphate. Quantitative Analysis of Phosphoric Acid, Part III. Deter- mination as, (<i>Ishibashi</i>)	49
Zinc with Approximately any Desired Orientation of its Principal Axis. A Simple Method of obtaining a Single-Crystal of, (<i>Ito</i>)	97
Zinc, Crystal-Faces developed by etching Metallic Crystals of Aluminium and, (<i>Fujita</i>)...	159
Zinc, On the Ternary Silver Alloys, I. The System of Silver, Copper and, (<i>Ueno</i>)	347
