CONTENTS

Studies on Situs Inversus Viscerum in Amphibia V. Production of S. I. V. following the Replacement of the Presumptive Mesoderm By Hiroshi TAKAYA	133
On Two Interesting Species of Epizoic Barnacle <i>Acasta</i> from Japan By Huzio UTINOMI.....	139
Studies on the Insect Metamorphosis III. Activity of the Brain in the Post Embryonic Development of Lepidopterans By Mamori ICHIKAWA, Kanji YASHIKA and Junko NISHITSUTSUI.....	145
Differential Oxidation of Dyes in the Developing Embryos of Amphibia By Nobusige IKUSHIMA.....	151
Rôle of the Mesoderm in the Differentiation of Endodermal Organs By Tokindo Setsu OKADA.....	157
Experimental Study on the Phenomenon of So-called "Pre-adaptation" in <i>Drosophila melanogaster</i> By Shizue YANAGISHIMA, Syuiti MORI, Wataru OHSAWA, Koji MATSUTANI and Hiroko TSUKUDA	163
Observational and Experimental Studies of Meiosis with Special Reference to the Bouquet Stage VII. Viscosity Change of Cytoplasm in Spore Mother Cells undergoing Meiosis By Tosisuke HIRAOKA	171
Leaf Temperatures under Natural Environments (Microclimatic Study V) By Ken-ichi TAKASU.....	179
Studies on the Physiological Effect of Gibberellin 1. On the Differential Activity between Gibberellin and Auxin By Jiro KATO	189
A Histochemical Study of Wound Periderm Formation By Sango BABA	195
A Phenomenon in the Early Stage of Pollination in <i>Secale cereale</i> ; the Stigma Reaction By Kazuo KATO	199
Effect of 2, 3, 5-Triiodobenzoic Acid on the Growth of Lateral Bud and on Tropism of Petiole By Gentaro KUSE	200
