CONTENT

Role of the Neural Tissue in the Differentiation of Notochord from the Uninvaginated Part of Dorsal Blastopore Lip of <i>Triturus</i>-Gastrula	
By Ken-ichi KATO	165
Studies on Melanin Formation in Animals	
II. The Acceleration of Tyrosine Oxidation by Copper-Ammine Complex	
By Masaru KATO and Zen-ichi YOSHIDA	171
Studies on the Japanese Trechinae (VI) (Coleoptera, Harpalidae)	
By Shun-Ichi UÉNO	179
Studies on the Physiological Effect of Gibberellin	
III. Effects of pH and Enzyme Inhibitors on GB action	
By Jiro KATO	219
Studies on the Adaptation of Yeast to Copper	
XVI. Effect of Copper on Amino Acid Pool	
By Tetsuo MURAYAMA	225
Studies on the Adaptation of Yeast to Copper	
XVII. Copper-Binding Nitrogenous Substances of the Copper-Resistant Substrain	
By Nobuo NAIKI.....	235
Studies on the Adaptation of Yeast to Copper	
XVIII. Copper-Binding Sulfur Substances of the Copper-Resistant Substrain	
By Nobuo NAIKI.....	243
