

MEMOIRS
OF THE
COLLEGE OF SCIENCE

UNIVERSITY OF KYOTO

SERIES B

VOL. XXVII

1960 ~ 1961

KYOTO

PUBLISHED BY
THE UNIVERSITY OF KYOTO

DATES OF ISSUE

VOL. XXVII, No. 1 — July 25, 1960

VOL. XXVII, No. 2 — November 20, 1960

VOL. XXVII, No. 3 — February, 5, 1961

CONTENTS

No. 1

	Page
Art. 1. Studies on the Neurosecretory System in Apterygota. I. Histological Observation on the Corpus Allatum and Neurosecretory Cells in <i>Ctenolepisma</i> . By Kanji YASHIKA.	1
Art. 2. Studies on the Insect Metamorphosis. VII. Effect of the Brain Hormone to the Isolated Abdomen of the Eri-Silkworm, <i>Philosamia cynthia ricini</i> . By Mamori ICHIKAWA and Junko NISHITSUTSUJI-UWO.	9
Art. 3. Studies on the Tyrosinase System in Lepidopterous Insects. II. Reducing Power of the Body Fluid of <i>Philosamia cynthia ricini</i> . By Minoru HARADA.	17
Art. 4. Studies on the Tyrosinase System in Lepidopterous Insects. III. Effects of SH Reagents on the Melanosis of the Body Fluid of <i>Samia cynthia</i> and <i>Bombyx mori</i> . By Minoru HARADA.	25
Art. 5. Histochemical Study on the Appearance of Aminopeptidase in the Limb Regeneration of <i>Triturus pyrrhogaster</i> . By Takuma SAITO. ...	31
Art. 6. A New Species-Group of the Genus <i>Rakantrechus</i> (Coleoptera, Harpalidae). By Shun-Ichi UÉNO.	37
Art. 7. A New <i>Paratrechiana</i> from Eastern Kyushu, Japan (Coleoptera, Harpalidae). By Shun-Ichi UÉNO.	45
Art. 8. A New Blind Trechid found in a Lava Cave of Japan. By Shun-Ichi UÉNO.	49
Art. 9. The Skull of <i>Regulus regulus</i> , with Some Remarks on the Taxonomic Status of Regulidae. By Hiroyuki MORIOKA.	59
Art. 10. Histochemical Studies of Wound Periderm Formation. V. Changes in Respiratory Activity of Wounded Tissues. By Sango BABA.	65
Art. 11. New or Interesting Species of <i>Marsupella</i> in Japan. By Naofumi KITAGAWA.	75

No. 2

Art. 1. Studies on the Neurosecretory System in Apterygota. II. Development of the Corpus Allatum in <i>Ctenolepisma</i> and its Juvenile Action	
--	--

	on the <i>Philosamia</i> -Pupa. By Kanji YASHIKA.	83
Art. 2.	Studies on the Tyrosinase System in Lepidopterous Insects. V. Tyrosinase Activity of the Body Fluid in Various Concentrations of Saline or Sucrose Solution. By Minoru HARADA.	89
Art. 3.	Study on a Freshwater Goby, <i>Rhinogobius similis</i> GILL, with a Proposition on the Relationships between Land-Locking and Speciation of Some Freshwater Gobies in Japan. By Nobuhiko MIZUNO.	97
Art. 4.	Description of a New Freshwater Goby from Japan. By Nobuhiko MIZUNO.	117
Art. 5.	A Synopsis of the Genus <i>Kusumia</i> (Coleoptera, Harpalidae). By Shun-Ichi UÉNO.	121
Art. 6.	Alpine Trechids from Hokkaido, Japan. I. The Japanese Representative of the Subgenus <i>Trechus</i> . By Shun-Ichi UÉNO.	133
Art. 7.	Alpine Trechids from Hokkaido, Japan. II. A New Type of Trechina found on the Hidaka Mountain Range. By Shun-Ichi UÉNO.	139
Art. 8.	Some Remarkable Changes in the Plankton of Lake Biwa in Recent Years. By Ken-ichiro NEGORO.	145
Art. 9.	Histochemical Studies of Wound Periderm Formation. VI. Changes in Ascorbic Acid Content and Ascorbic Acid Oxidase Activity. By Sango BABA.	151

No. 3

Art. 1.	Permische Fusuliniden aus dem Atetsu-Plateau Südwestjapans. Teil 1. Fusulininae und Schwagerininae. Von Yasuo NOGAMI.	159
Art. 2.	Early and Middle Triassic Pelecypod-fossils from the Maizuru Zone, Southwest Japan. By Keiji NAKAZAWA.	249
Art. 3.	Studies on Sandstones in the Maizuru Zone, Southwest Japan II. Graded Bedding and Mineral Composition of Sandstones of the Maizuru Group. By Tsunemasa SHIKI.	293
Art. 4.	Brachiopoda Fossils from the Permian Maizuru Group. By Daikichiro SHIMIZU.	309

AUTHOR INDEX

	Page
BABA, S. Histochemical Studies of Wound Periderm Formation. V. Changes in Respiratory Activity of Wounded Tissues.	65
BABA, S. Histochemical Studies of Wound Periderm Formation. VI. Changes in Ascorbic Acid Content and Ascorbic Acid Oxidase Activity.....	151
HARADA, M. Studies on the Tyrosinase System in Lepidopterous Insects. II. Reducing Power of the Body Fluid of <i>Philosamia cynthia ricini</i>	17
HARADA, M. Studies on the Tyrosinase System in Lepidopterous Insects. III. Effects of SH Reagents on the Melanosis of the Body Fluid of <i>Samia cynthia</i> and <i>Bombyx mori</i>	25
HARADA, M. Studies on the Tyrosinase System in Lepidopterous Insects. V. Tyrosinase Activity of the Body Fluid in Various Concentrations of Saline or Sucrose Solution.	89
ICHIKAWA, M. and J. NISHITSUTSUJI-UWO. Studies on the Insect Metamorphosis. VII. Effect of the Brain Hormone to the Isolated Abdomen of the Eri-Silkworm, <i>Philosamia cynthia ricini</i>	9
KITAGAWA, N. New or Interesting Species of <i>Marsupella</i> in Japan.	75
MIZUNO, N. Study on a Freshwater Goby, <i>Rhinogobius similis</i> GILL, with a Proposition on the Relationships between Land-Locking and Speciation of Some Freshwater Gobies in Japan.	97
MIZUNO, N. Description of a New Freshwater Goby from Japan.	117
MORIOKA, H. The Skull of <i>Regulus regulus</i> , with Some Remarks on the Taxonomic Status of Regulidae.	59
NAKAZAWA, K. Early and Middle Triassic Pelecypod-fossils from the Maizuru Zone, Southwest Japan.	249
NEGORO, K. Some Remarkable Changes in the Plankton of Lake Biwa in Recent Years.	145
NISHITSUTSUJI-UWO, J. See ICHIKAWA, M.	
NOGAMI, Y. Permische Fusuliniden aus dem Atetsu-Plateau Südwestjapans. Teil 1. Fusulininae und Schwagerininae.	159
SAITO, T. Histochemical Study on the Appearance of Aminopeptidase in the	

Limb Regeneration of <i>Triturus pyrrhogaster</i>	31
SHIKI, T. Studies on Sandstones in the Maizuru Zone, Southwest Japan II. Graded Bedding and Mineral Composition of Sandstones of the Maizuru Group.	293
SHIMIZU, D. Brachiopod Fossils from the Permian Maizuru Group.	309
UÉNO, S. A New Species-Group of the Genus <i>Rakantrachus</i> (Coleoptera, Harpalidae).	37
UÉNO, S. A New <i>Paratrechiana</i> from Eastern Kyushu, Japan (Coleoptera, Harpalidae).	45
UÉNO, S. A New Blind Trechid found in a Lava Cave of Japan.	49
UÉNO, S. A Synopsis of the Genus <i>Kusumia</i> (Coleoptera, Harpalidae).	121
UÉNO, S. Alpine Trechids from Hokkaido, Japan. I. The Japanese Representa- tive of the Subgenus <i>Trechus</i>	133
UÉNO, S. Alpine Trechids from Hokkaido, Japan. II. A New Type of Tre- china found on the Hidaka Mountain Range.	139
YASHIKA, K. Studies on the Neurosecretory System in Apterygota. I. His- tological Observation on the Corpus Allatum and Neurosecretory Cells in <i>Ctenolepisma</i>	1
YASHIKA, K. Studies on the Neurosecretory System in Apterygota. II. De- velopment of the Corpus Allatum in <i>Ctenolepisma</i> and its Juvenile Action on the <i>Philosamia</i> -Pupa.	83
