Last Gems of the *Foucauldian Studies* Project:  
Lectures by Judith Butler and Maurizio Lazzarato

The papers presented here are the final two products of *Foucauldian Studies*, the research project directed by Professor Yoshiyuki Koizumi (Ritsumeikan University) from 2017 to 2021 at the Jinbunken (Institute for Research in the Humanities). Both papers were originally lectures, each organized for a different occasion by project member Professor Yoshiyuki Sato (Tsukuba University), whom we warmly thank for their publication in this issue of ZINBUN.
