

**MEMOIRS
OF THE
FACULTY OF ENGINEERING
KYOTO UNIVERSITY**

VOLUME XIII

1951

Published by the University.
KYOTO, JAPAN.

CONTENTS

No. 1	PAGE
Effect of Strain Rate on the Plastic Deformation in Aluminium Single Crystals.	Hideo NISHIMURA and Jin-ichi TAKAMURA 1
On the Characteristics of Air-Bearing.	Tokio SASAKI and Haruo MORI 21
On the $\frac{1}{3}$ Sub-harmonic Resonance of the System with Non-linear Restoring Force.	Toshio NISHIHARA, Yoshikazu SAWARAGI and Yukio OKADA 29
Simultaneous Heat and Mass Transfer.	Tokurō MIZUSHINA and Masamoto NAKAJIMA 40
A Note on Thermocouple Anemometer.	Suekichi KAWATA 49
No. 2	
On the Yielding of Steel Under Bending Moment.	Toshio NISHIHARA and Shūji TAIRA 55
The Effects of the Pickling Process on the Amount of Hydrogen Occluded in Steel Plate for Porcelain Enamel.	Ikutarō SAWAI and Megumi TASHIRO 70
A Dynamical Consideration on Earthquake Damages of Bridge Piers. (First Report)	Ichirō KONISHI and Hisao GOTŌ 77
No. 3	
On the Rate of Combustion of Coke Briquettes in the Fuel Bed.	Ikutarō SAWAI, Masanaga KUNUGI and Hiroshi JINNO 95
A New Theory upon the Fluorescence and Chemical Constitution of Organic Compounds.	Ryōhei ODA and Zen-ichi YOSHIDA 108

On the Solution of Ventilation Networks.	Yoshio HIRAMATSU and Yukitoshi OKA	123
On the Yielding of Twist Steel Bar.	Toshio NISHIHARA and Shūji TAIRA	128
Theory of Flow on Road Surface.	Yūichi IWAGAKI	139

No. 4

Heat Transfer by Natural Convection in Laminar Boundary Layer on Vertical Flat Wall.	Sugao SUGAWARA and Itaru MICHİYOSHI	149
Momentum Equations of the Boundary Layer and their Application to the Turbulent Boundary Layer..	Busuke HUDIMOTO	162
A Brief Note on the Laminar Sub-Layer of the Tur- bulent Boundary Layer.	Busuke HUDIMOTO	174
Forced Oscillations with Nonlinear Restoring Force. ...	Chihiro HAYASHI	180
The Observation of the Precipitation Process by Elec- tronmicroscope. I. Barium Sulfate.	Shinzō OKADA, Makoto KAWANE and Saburō MAGARI.	198
On the Electron Microscopic Structure of the Gra- phitic and Temper Carbon in Cast Iron.	Hiroshi SAWAMURA	209
