

**MEMOIRS
OF THE
FACULTY OF ENGINEERING
KYOTO UNIVERSITY**

VOLUME XIV

1952

Published by the University.
KYOTO, JAPAN.

CONTENTS

No. 1	PAGE
On the Solution of Circular Plate of Non-uniform Thickness.Masao NARUOKA	1
Characteristics of a Thermocouple Anemometer.....Suekichi KAWATA Yoshirō ŌMORI and Kōichi NISHIMURA	12
Heat Transfer on the Surface of a Flat Plate in the Forced Flow.Sugao SUGAWARA and Takashi SATŌ	21
On the Vaporization and Combustion Properties of Gasoline Spray.....Fujio NAGAO and Syun'iti OHIGASHI	38
The Current Distribution in an Electrolytic Cell. ...Shinzō OKADA Shirō YOSHIZAWA and Fumio HINE	63
No. 2	
New Gray Cast Iron with Eutectic Graphite Structure "S-H Cast Iron" and its Mechanical Properties.....Hiroshi SAWAMURA.....	77
On the Rollwave-Trains Appearing in the Water Flow on a Steep Slope Surface.Tōjirō ISHIHARA Yūichi IWAGAKI and Yasuo ISHIHARA	83
Stability Investigation of the Non-linear Periodic Oscillations.....Chihiro HAYASHI	92
Equilibria of Liquid Pig Iron of the System Fe- C-Si and Slags of the System $\text{SiO}_2\text{-CaO-Al}_2\text{O}_3$ under One Atmospheric Pressure of Carbon Monoxide.Hiroshi SAWAMURA and Jun SAWAMURA	103

	PAGE
Flame Development and Combustion Pressure in the Gasoline Injection Engine.....Fujio NAGAO and Syun'iti OHIGASHI	112
 No. 3	
An Investigation of the Equilibrium Diagram of Fe-As-C System.Hiroshi SAWAMURA and Toshisada MORI	129
On the Removal of Copper from Pyrites Cinder and the Roasting of Pyrites.....Kiyokado NISHIHARA and Yoshio KONDŌ	145
Performance and Combustion in Gasoline Injec- tion Engine.Fujio NAGAO and Syun'iti OHIGASHI	168
 No. 4	
Formänderung der hyperbolischen Paraboloidschale....Shizuo BAN	181
General Survey of Organic Reactions and Some New Reactions.Ryohei ODA	195
Subharmonic Oscillations in Non-linear System.....Chihiro HAYASHI	206
A Field Determination of Permeability.Shin-ichirō MATSUO and Kōichi AKAI	225
On the Flexibility of Wire Ropes.....Einosuke MIKUMO and Toshio AIDA	235
The Effects of Impurities in Electrolysis of Sodium Chloride Solution by Mercury Process....Shinzō OKADA and Shirō YOSHIKAWA	243
