Memoirs of the
FACULTY OF ENGINEERING
KYOTO UNIVERSITY

VOLUME XXXIV

1972

Published by
KYOTO UNIVERSITY
KYOTO, JAPAN

CONTENTS

PART 1 PAGE

Rate of Heat Transfer between a Fluidized Bed and the Tube Wall at Higher Temperature ..... Zenjiro ASAKI, Takao NAGASE, Yasuhiro AWAKURA, Isao NAKANO, Yasuhiro FUKUNAKA and Yoshio KONDO 1

The Spread of Yield Zone from a Penny-Shaped Crack ..... Masayuki TOYA 11

Stresses in Isotropic and Anisotropic Beams Having Holes ..... Ken-ichi HIRASHIMA 27

Applications of Fourier Series Technique to Inverse Laplace Transform ..... Satoshi ICHIKAWA and Akira KISHIMA 53

On the Probability Distribution of the Number of Crossings of a Certain Response Level in Random Vibration ..... Hiroyuki KAMEDA 68

Preparation of $GaAs_{1-x}P_x$ Compounds from the Melt under Controlled Vapour Pressures ..... Kozo OSAMURA and Yotaro MURAKAMI 84

Dynamic Characteristics of a DC Motor Controlled by Single-Phase Half-Wave Thyristor Rectifier Circuit ... Tsuguo ANDŌ and Jūrō UMOTO 103

Fatigue Deformation Preceding Fracture under Combined Cyclic and Steady Loads ..... Minoru KAWAMOTO and Toshinobu SHIBATA 125

Pressure Dependence of Viscosity of Polar Gases ..... Takashi SATO, Tatsuo MINAMIYAMA, Junzo YATA and Takeharu OKA 135

Calculation of Matrix Element of Electrostatic Interaction between p^4l and p^4l' for the Different Couplings Keishi ISHII 149

PART 2

Chain Conformations of Polypeptide Copolymers ..... Akio NAKAJIMA, Seiji TANAKA and Toshio HAYASHI 163

Monte Carlo Calculation of Neutrons Transmitted through Matter ..... Hideo HIRAYAMA and Takashi NAKAMURA 187

Identification and Prediction for the Long Range Runoff Systems ..... Tojiro ISHIHARA, Takuma TAKASAO and Shuichi IKEBUCHI 201

PAGE

A New Circle Criterion for the Stability of Nonlinear Control System ..... Minoru HATADA and Michiyoshi KUWAHARA ... 221

A Study on the Residual Stress Produced by Metal Cutting ..... Keiji OKUSHIMA and Yoshiaki KAKINO 234

Collisional-Radiative Coefficients and Population Coefficients of Hydrogen Plasma ..... Takashi FUJIMOTO, Ikuto SUGIYAMA and Kuniya FUKUDA 249

PART 3

Mutual Interaction between Collectors and Frothers in Flotation ..... Shigeru MUKAI, Takahide WAKAMATSU and Katsuyuki TAKAHASHI ... 279

A Method for Construction of Suboptimal Nonlinear Regulators ..... Nobuo SANNOMIYA 289

Flow Pattern and Switching Mechanism in a Wall Attachment Type Fluid Amplifier ..... Yosuke KAWANO, Hiroshi MAEDA and Toshikazu MORI 301

Back-scattering Energy Spectra near the Critical Angle for Proton Channeling ..... Kazuho SONE and Fumio FUKUZAWA 315

Transmission of Fast Protons through Si Single Crystal ... Kazuho SONE and Fumio FUKUZAWA 325

PART 4

Generalized Hypo-Elasticity with Thermal Influence I. Constitutive Equations ..... Tatsuo TOKUOKA 333

Generalized Hypo-Elasticity with Thermal Influence II. Failure Criteria and Failure Slips ..... Tatsuo TOKUOKA 339

Mean Particle Diameter in an Analysis of a Particulate Process ..... Hiroaki MASUDA and Koichi IINOYA 344

Some Contributions to Optimization of Faraday MHD Generator Duct ..... Jūrō UMOTO and Masaharu YOSHIDA 359

Cutting Dynamics Associated with Vibration Normal to Cut Surface ..... Tetsutaro HOSHI and Tadashi TAKEMURA 373

A Pseudo Shock Theory of Pressure Depression in Externally Pressurized Circular Thrust Gas Bearings ... Haruo MORI and Kiyotaka MURAKAMI 393

Some Considerations on the State Equations of Linear Active Networks and the Network Topology ..... Takao OZAWA and Tanzo NITTA 413

Errata: Transmission of Fast Protons through Si Single Crystals, Kazuho Sone and Fumio Fukuzawa (Memoirs of the Fuculty of Engineering, Kyoto Univ., 34. Part 3, 325 (1972))

(i) Photos. : Turn upside down Photos. 1 and 4. And then interchange 1 and 5 labels.

(ii) The expression "$E_A=S_A d=\cdots\cdots$, $E_P=\cdots\cdots$, $E_R=\cdots\cdots$" on page 328 (i. e., the seventh line from the top) should read "$\Delta E_A=\cdots\cdots$, $\Delta E_P=\cdots\cdots$, $\Delta E_R=\cdots\cdots$"
