

## Appendix 1

### List of patent code and titles of 11,139 patent families.

Patent Code	Title (in English)
WO2013182869	FEEDER UNIT, A FEEDER MODULE COMPRISING A PLURALITY OF FEEDER UNITS, AND METHOD FOR DISCHARGING A CONSTANT MASS FLOW OF ONE OR MORE POWDERS INTO A RECEIVING CONTAINER
WO1998038906	DEVICE AND METHOD FOR DETERMINING ANALYTE LEVELS
WO2009140095	PUSHING A USER INTERFACE TO A REMOTE DEVICE
WO2007120812	SYSTEMS, DEVICES AND METHODS FOR FLUID PUMPING, HEAT EXCHANGE, THERMAL SENSING, AND CONDUCTIVITY SENSING
WO2012088478	AN ERGONOMIC HEAD MOUNTED DISPLAY DEVICE AND OPTICAL SYSTEM
WO1999014998	METHOD FOR PREVENTING AND TREATING HEARING LOSS USING SENSORINEUROTROPHIC COMPOUNDS
WO2015150276	A MODULAR INSULATION FLUID HANDLING SYSTEM
WO2017173401	DATA PROCESSING SYSTEMS AND METHODS FOR OPERATIONALIZING PRIVACY COMPLIANCE AND ASSESSING THE RISK OF VARIOUS RESPECTIVE PRIVACY CAMPAIGNS
WO2001078854	CARD SHUFFLING DEVICE
WO2007058780	ELECTRICAL STIMULATION TREATMENT OF BRONCHIAL CONSTRICTION
WO2007134830	MOBILITY MANAGEMENT METHOD FOR MOBILE TERMINALS IN A CELLULAR WIRELESS COMMUNICATION SYSTEM, AND EQUIPMENT FOR IMPLEMENTING THE METHOD
WO2006116718	PHARMA-INFORMATICS SYSTEM
WO2001096986	SYSTEM FOR MONITORING HEALTH, WELLNESS AND FITNESS
WO2001088828	DISTRIBUTED REMOTE ASSET AND MEDICATION MANAGEMENT DRUG DELIVERY SYSTEM
WO2008094141	SYSTEM, APPARATUS AND METHOD FOR EXTRACTING IMAGE CROSS-SECTIONS OF AN OBJECT FROM RECEIVED ELECTROMAGNETIC RADIATION
WO2014122628	THIRD PARTY APPLICATION COMMUNICATION API
WO2016090343	BACTERIA ENGINEERED TO TREAT DISEASES ASSOCIATED WITH HYPERAMMONEMIA
WO2009094666	CRYOAGGREGATE FILTRATION FOR THE TREATMENT OF CARDIOMYOPATHY AND OTHER AUTOIMMUNE DISEASES
WO2007136905	PUMP SYSTEM WITH CALIBRATION CURVE
WO2007117001	INSECTICIDAL OVICIDAL COMPOSITION AND METHOD OF INSECT KILLING AND EGG KILLING
WO2006105098	BODY PARAMETER DETECTING SENSOR AND METHOD FOR DETECTING BODY PARAMETERS
WO2017075543	RAPID PREDICTIVE ANALYSIS OF VERY LARGE DATA SETS USING THE DISTRIBUTED COMPUTATIONAL GRAPH
WO2006047182	METHOD AND APPARATUS FOR DETERMINING AN ANALYTE CONCENTRATION IN A SAMPLE HAVING INTERFERENT

WO2012037118	NANOPOROUS METAL MULTIPLE ELECTRODE ARRAY AND METHOD OF MAKING SAME
WO2013063515	WIDEBAND SONAR WITH PULSE COMPRESSION
WO2005066097	ALUMINA-YTTRIA PARTICLES AND METHODS OF MAKING THE SAME
WO2007115094	METHOD AND SYSTEM FOR POWERING AN ELECTRONIC DEVICE
WO2012061635	MEDICAL DEVICE PACKAGING WITH CHARGING INTERFACE
WO2007023276	REMOVAL OF MAGNETIC PARTICLES FROM A FLUID
WO2007145937	PATIENT SPECIFIC KNEE ALIGNMENT GUIDE AND ASSOCIATED METHOD
WO2015048182	INTERACTIVE PROCESSING OF ECG DATA
WO2005029406	HIGH QUALITY AND HIGH PERFORMANCE THREE-DIMENSIONAL GRAPHICS ARCHITECTURE FOR PORTABLE HANDHELD DEVICES
WO2013126579	CONDITIONING SYSTEM FOR NUTRITIONAL SUBSTANCES
WO2018148342	COMPRESSED OPEN FLOW ASSAY AND USE
WO2003099353	AUTOMATED DIALYSIS SYSTEM
WO2012027726	PORTABLE WIRELESS MOBILE DEVICE MOTION CAPTURE AND ANALYSIS SYSTEM AND METHOD
WO2005015330	SYSTEM AND METHOD FOR THE IDENTIFICATION OF AUTOMATION COMPONENTS
WO2012143489	DRIVE UNIT, METHOD FOR PROVIDING POWER, AND USE OF A DRIVE UNIT
WO2013112949	TREATMENT OF CIRCADIAN RHYTHM DISORDERS
WO2020051439	PASSIVE HEADER MODULE FOR A MODULAR ENERGY SYSTEM
WO2001018629	SYSTEM AND METHOD FOR SERVICING ELECTRONIC TRANSACTIONS
WO2013119270	BIRD SPIKE WITH PLASTIC BASE AND METAL PRONGS
WO2012097112	WIRELESS RELAY MODULE FOR REMOTE MONITORING SYSTEMS
WO2007137187	SYSTEM AND METHOD FOR DETERMINING INDIVIDUALIZED MEDICAL INTERVENTION FOR A DISEASE STATE
WO1994004071	APPARATUS FOR THE DIAGNOSIS OF SLEEP APNEA
WO2010124034	PROCESSING PHYSIOLOGICAL SENSOR DATA USING A PHYSIOLOGICAL MODEL COMBINED WITH A PROBABILISTIC PROCESSOR
WO2017131693	COMPOSITIONS FOR LED LIGHT CONVERSIONS
WO2018130938	QUANTUM-DOT SPECTROMETERS FOR USE IN BIOMEDICAL DEVICES AND METHODS OF USE
WO2013074576	METHODS AND SYSTEMS FOR SUBCUTANEOUS TREATMENTS
WO2012103519	NEURAL STIMULATOR SYSTEM
WO2006083625	MULTI-PHASIC SIGNAL FOR STIMULATION BY AN IMPLANTABLE MEDICAL DEVICE
WO2009046227	MODULAR POINT-OF-CARE DEVICES AND USES THEREOF
WO2019032763	AUTOMATED CLINICAL DOCUMENTATION SYSTEM AND METHOD
WO2010099335	SELF-POWERED ANALYTE SENSOR

WO2007081947	DRUG STORAGE AND DISPENSING DEVICES AND SYSTEMS COMPRISING THE SAME
WO2012051628	METHOD AND APPARATUS FOR DETECTING SEIZURES
WO2010114618	FILTER MEDIA SUITABLE FOR HYDRAULIC APPLICATIONS
WO2010078168	ACOUSTIC SENSOR ASSEMBLY
WO2019036730	MODULAR DOSING ASSEMBLY OF MEDICAL SUBSTANCES
WO2019227062	SYSTEMS AND METHODS FOR GENERATING PERFORMANCE PROFILES OF NODES
WO2011146497	OPHTHALMIC LENS DISINFECTING BASE
WO2019245848	MIXED-REALITY SURGICAL SYSTEM WITH PHYSICAL MARKERS FOR REGISTRATION OF VIRTUAL MODELS
WO2004012545	SLIPPER INSERT, SLIPPER, AND METHOD FOR MANUFACTURING A SLIPPER
WO2003060462	METHOD AND SYSTEM FOR EXAMINING TISSUE ACCORDING TO THE DIELECTRIC PROPERTIES THEREOF
WO2012148781	MULTIMODAL DIALYSIS SYSTEM
WO2014089083	MEDICAMENT STORAGE, DISPENSING, AND ADMINISTRATION SYSTEM AND METHOD
WO2003103765	SYSTEM FOR CARDIAC RESUSCITATION
WO2009036256	INJECTABLE PHYSIOLOGICAL MONITORING SYSTEM
WO2012061804	METHOD AND SYSTEM FOR AUTOMATED PERSONAL TRAINING
WO2001084209	FULLY AUTOMATIC RAPID MICROSCOPE SLIDE SCANNER
WO2010027968	HYBRID TERRAIN-ADAPTIVE LOWER-EXTREMITY SYSTEMS
WO2010111363	PATIENT MOVEMENT DETECTION SYSTEM AND METHOD
WO2016001921	METHOD AND DEVICE FOR VAPORIZATION AND INHALATION OF ISOLATED SUBSTANCES
WO2007038793	SYSTEM, METHOD AND APPARATUS FOR APPLYING AIR PRESSURE ON A PORTION OF THE BODY OF AN INDIVIDUAL
WO2007068002	MULTIPLE RADIO FREQUENCY NETWORK NODE RFID TAG
WO2019006119	JOINING DATA WITHIN A RECONFIGURABLE FABRIC
WO2012112300	SYSTEM AND METHOD FOR RESPONDING TO DRIVER BEHAVIOR
WO2015099890	METHODS AND SYSTEMS FOR MANAGING SHIPMENT OF AN ITEM USING A WIRELESS NODE NETWORK
WO2017014981	SYSTEM AND METHOD FOR GLUCOSE MONITORING
WO2014138804	A HUMIDIFIER RESERVOIR
WO2012021900	DEVICES AND METHODS FOR RESPIRATORY VARIATION MONITORING BY MEASUREMENT OF RESPIRATORY VOLUMES, MOTION AND VARIABILITY
WO2006105269	LOCATION DETECTION SYSTEM FOR A PATIENT HANDLING DEVICE
WO2007137026	USE OF ELECTRICAL STIMULATION OF THE LOWER ESOPHAGEAL SPHINCTER TO MODULATE LOWER ESOPHAGEAL SPHINCTER PRESSURE
WO2016089792	ASSET HEALTH SCORES AND USES THEREOF
WO2016209759	APPARATUS, SYSTEM, AND METHOD FOR A RECIPROCATING TREATMENT DEVICE
WO2008082441	DISPLAY INSERTS, OVERLAYS, AND GRAPHICAL USER INTERFACES FOR MULTIMEDIA SYSTEMS

WO2008086311	SYSTEM, DEVICE AND METHOD FOR DERMAL IMAGING
WO2009139892	CLINICIAN PROGRAMMER SYSTEM INTERFACE FOR MONITORING PATIENT PROGRESS
WO2018069789	SYSTEMS AND METHODS TO DETECT STRESS, ALLERGY AND THERMAL ASYMMETRY
WO2019025481	REDUCTION OF PLAY OF A WORM GEAR OF AN ELECTROMECHANICAL POWER STEERING SYSTEM BY MEANS OF A BIMETAL SPRING
WO2001058533	BALANCED STACKABLE DUMBBELL SYSTEM
WO2007127359	SYSTEM AND METHOD FOR PROCESSING A MULTIPLE PRESCRIPTION ORDER
WO2009146119	SYSTEM FOR OPTIMIZING A PATIENT'S INSULIN DOSAGE REGIMEN
WO2012009696	OPHTHALMIC DRUG DELIVERY
WO2014197575	SYSTEM AND METHOD FOR PREDICTING A CRITERIA OF INTEREST
WO2013158809	SMARTPHONE-CONTROLLED ACTIVE CONFIGURATION OF FOOTWEAR INCLUDING WITH CONCAVELY ROUNDED SOLES
WO2017027431	HERBICIDAL COMPOSITIONS
WO2006121510	POINT-OF-CARE FLUIDIC SYSTEMS AND USES THEREOF
WO2012031052	MEDICAL INFORMATION NAVIGATION ENGINE (MINE) SYSTEM
WO2013149129	PURIFICATION OF GLUCOSE CONCENTRATION SIGNAL IN AN IMPLANTABLE FLUORESCENCE BASED GLUCOSE SENSOR
WO2010098912	LIGHT-GUIDING DEVICES AND MONITORING DEVICES INCORPORATING SAME
WO2012061438	WEARABLE DEVICE ASSEMBLY HAVING ATHLETIC FUNCTIONALITY
WO2016137186	PASSING DEVICE, VALVE, CONTAINING APPARATUS HAVING SAME, CONTENTS MOVING APPARATUS AND CONTENTS APPARATUS
WO2016172355	COMPOUNDING DEVICE, SYSTEM, KIT, SOFTWARE, AND METHOD
WO2010065836	ATHLETIC PERFORMANCE MONITORING SYSTEMS AND METHODS IN A TEAM SPORTS ENVIRONMENT
WO2013180961	NMR QUANTIFICATION OF TMAO
WO2016149416	METHODS AND SYSTEMS FOR DIAGNOSING AND TREATING HEALTH AILMENTS
WO2017179693	BIOLOGICAL INFORMATION ANALYSIS DEVICE, BIOLOGICAL INFORMATION ANALYSIS SYSTEM, PROGRAM, AND BIOLOGICAL INFORMATION ANALYSIS METHOD
WO2018075132	A CLOSED-LOOP MODEL-BASED CONTROLLER FOR ACCELERATING MEMORY AND SKILL ACQUISITION
WO2010072386	STRUCTURED TESTING METHOD FOR DIAGNOSTIC OR THERAPY SUPPORT OF A PATIENT WITH A CHRONIC DISEASE AND DEVICES THEREOF
WO2011084483	UNDERWATER ACOUSTIC NAVIGATION SYSTEMS AND METHODS
WO2014097636	DISPOSABLE DIAPER PRODUCTION METHOD AND PRODUCTION DEVICE

WO2014160614	METHOD, APPARATUS, AND SYSTEM FOR EXPRESSION AND QUANTIFICATION OF HUMAN BREAST MILK
WO2019132167	3-DIMENSIONAL ELASTIC MODEL RENDERING METHOD AND DEVICE, AND PROGRAM
WO2004094966	METHODS AND SYSTEMS FOR STATIC MULTIMODE MULTIPLEX SPECTROSCOPY
WO2008008899	METHODS AND SYSTEMS FOR COMPLIANCE CONFIRMATION AND INCENTIVES
WO2015127056	SMART WEARABLE DEVICES AND METHODS WITH POWER CONSUMPTION AND NETWORK LOAD OPTIMIZATION
WO2009140438	COMMERCE AND SERVICES IN A FEMTOCELL NETWORK
WO2011149534	BAMBAM: PARALLEL COMPARATIVE ANALYSIS OF HIGH-THROUGHPUT SEQUENCING DATA
WO2015187793	DRUG DELIVERY SYSTEM AND METHOD OF USE
WO2015084353	PRESENTATION OF PHYSIOLOGICAL DATA
WO2020261045	MECHANISMS FOR PROPER ANVIL ATTACHMENT SURGICAL STAPLING HEAD ASSEMBLY
WO2008051939	SYSTEMS AND METHODS FOR MEDICAL DATA INTERCHANGE
WO2011085405	SPORTS TIMING SYSTEM (STS) INTEGRATED COMMUNICATION SYSTEM AND METHOD
WO2016137809	SURGICAL APPARATUS CONFIGURED TO TRACK AN END-OF-LIFE PARAMETER
WO2005071133	VACUUM DEPOSITION METHOD AND SEALED-TYPE EVAPORATION SOURCE APPARATUS FOR VACUUM DEPOSITION
WO2009052452	VIRTUAL DISPERSIVE ROUTING
WO2018231762	SYSTEMS AND METHODS FOR IDENTIFYING CANCER TREATMENTS FROM NORMALIZED BIOMARKER SCORES
WO2019032987	PARESTHESIA-FREE SPINAL CORD STIMULATION SYSTEM
WO2011071835	SYSTEM AND METHOD OF IDENTIFYING TAGGED ARTICLES
WO2015006033	PROVIDING A PHARMACOKINETIC DRUG DOSING REGIME
WO2016030521	COMPLIANCE-ASSISTING MODULE FOR AN INHALER
WO2012112900	SELECTING AND CORRELATING PHYSICAL ACTIVITY DATA WITH IMAGE DATE
WO2013110001	DIAGNOSTIC SYSTEM FOR DETECTION OF FLUID CHANGES
WO2012068564	CONFIGURABLE PATIENT MONITORING SYSTEM
WO2002061457	METHODS FOR PHYSIOLOGICAL MONITORING, TRAINING, EXERCISE AND REGULATION
WO2011003811	STABILIZED IMMUNOGLOBULIN CONSTANT DOMAINS
WO2016123648	FRAMEWORKS, DEVICES AND METHODOLOGIES CONFIGURED TO ENABLE DELIVERY OF INTERACTIVE SKILLS TRAINING CONTENT, INCLUDING CONTENT WITH MULTIPLE SELECTABLE EXPERT KNOWLEDGE VARIATIONS
WO2014035570	SAFEGUARDING MEASURES FOR A CLOSED-LOOP INSULIN INFUSION SYSTEM
WO2017044505	MULTIPLE ELECTRONIC CONTROL DEVICES
WO2001045014	METHOD AND APPARATUS FOR PATIENT MONITORING WITH WIRELESS INTERNET CONNECTIVITY
WO2015102804	MANAGEMENT OF COMMUNITY WI-FI NETWORK

WO2015107681	INFORMATION PROCESSING SYSTEM, INFORMATION PROCESSING SERVER, INFORMATION PROCESSING PROGRAM, AND INFORMATION PROVIDING METHOD
WO2016138176	SYSTEMS AND METHODS FOR ENABLING APPETITE MODULATION AND/OR IMPROVING DIETARY COMPLIANCE USING AN ELECTRO-DERMAL PATCH
WO2009013736	MANUALLY OPERABLE PORTABLE INFUSION DEVICE
WO2012166656	COLLECTION OF CLINICAL DATA FOR GRAPHICAL REPRESENTATION AND ANALYSIS
WO2013177465	PHENOTYPIC INTEGRATED SOCIAL SEARCH DATABASE AND METHOD
WO2014041032	WEARABLE COMMUNICATION PLATFORM
WO2015035256	DEVICES, SYSTEMS, METHODS AND KITS FOR RECEIVING A SWAB
WO2015164377	SYRINGE ADAPTER WITH COMPOUND MOTION DISENGAGEMENT
WO2016081752	ATHLETIC BAND WITH REMOVABLE MODULE
WO2019222678	SYSTEMS AND METHODS FOR DETERMINING FLOW PARAMETERS OF ADMINISTERED FLUID FROM RADIOEMBOLIZATION DELIVERY DEVICE
WO2008088511	TELEMETRIC APPARATUS FOR HEALTH AND ENVIRONMENTAL MONITORING
WO2011119335	METHOD AND APPARATUS FOR DETERMINING GVF (GAS VOLUME FRACTION) FOR AERATED FLUIDS AND LIQUIDS IN FLOTATION TANKS, COLUMNS, DRUMS, TUBES, VATS
WO2015059306	PATIENT CARE SYSTEM REPORTING ADHERENCE TO TREATMENT REGIMEN
WO2016142780	SYSTEMS, APPARATUS AND METHODS FOR SENSING FETAL ACTIVITY
WO2017147347	MOBILITY DEVICE CONTROL SYSTEM
WO2017192767	DROPLET DELIVERY DEVICE FOR DELIVERY OF FLUIDS TO THE PULMONARY SYSTEM AND METHODS OF USE
WO2008030850	CONNECTING CONSUMERS WITH SERVICE PROVIDERS
WO2013165558	SURGICAL GUIDES FROM SCANNED IMPLANT DATA
WO2017218989	IMPAIRMENT DETECTION SYSTEM AND METHOD
WO2009155452	A COMPUTATIONAL METHOD FOR DESIGN AND MANUFACTURE OF ELECTROCHEMICAL SYSTEMS
WO2011109753	WAVELENGTH BEAM COMBINING BASED PUMP / PULSED LASERS
WO2012021507	MONITORING FITNESS USING A MOBILE DEVICE
WO2012050969	AUTOMATED HEALTH DATA ACQUISITION, PROCESSING AND COMMUNICATION SYSTEM
WO2014210450	DEVICES, SYSTEMS AND METHODS FOR LOCALLY MEASURING BIOLOGICAL CONDUIT AND/OR LESION COMPLIANCE, OPPOSITION FORCE AND INNER DIAMETER OF A BIOLOGICAL CONDUIT
WO2015116371	INSULIN MANAGEMENT
WO2015148979	COMPOSITONS AND METHODS RELATED TO DIAGNOSIS OF PROSTATE CANCER

WO2009120909	METHODS AND SYSTEMS FOR ASSESSING CLINICAL OUTCOMES
WO2013082436	INTELLIGENT ACTIVITY MONITORING
WO2015109254	APPARATUS, METHODS AND ARTICLES FOR FOUR DIMENSIONAL (4D) FLOW MAGNETIC RESONANCE IMAGING
WO2015142410	SYSTEMS AND METHODS FOR CREATING FINGERPRINTS OF ENCRYPTION DEVICES
WO2011097487	INFUSION PUMP APPARATUS, METHOD AND SYSTEM
WO2019118531	THERAPY ASSIST INFORMATION AND/OR TRACKING DEVICE AND RELATED METHODS AND SYSTEMS
WO2012134556	MEDICAL KIOSK AND METHOD OF USE
WO2017004184	HOME AUTOMATION SYSTEM INCLUDING DEVICE SIGNATURE PAIRING AND RELATED METHODS
WO2009120543	OPTICAL COHERENCE TOMOGRAPHY DEVICE, METHOD, AND SYSTEM
WO2013103811	SLIT-ROBO SIGNALING FOR DIAGNOSIS AND TREATMENT OF KIDNEY DISEASE
WO2014197003	SYSTEMS AND METHODS FOR PEDAL REVASCULARIZATION ASSESSMENT
WO2008121371	EFFECTIVE LOW-PROFILE HEALTH MONITORING OR THE LIKE
WO2011011462	ADJUSTABLE CONNECTOR AND DEAD SPACE REDUCTION
WO2013067223	VENTILATOR AND MEDICAL DEVICE AND METHOD
WO2014105631	REMOTE MONITORING OF ANALYTE MEASUREMENTS
WO2008030484	ATHLETIC PERFORMANCE SENSING AND/OR TRACKING SYSTEMS AND METHODS
WO2011049886	INTEGRATED HEALTH DATA CAPTURE AND ANALYSIS SYSTEM
WO2011056260	IMPROVED VIBRATING DENTAL DEVICES
WO2012051278	MEDICAL DEVICE
WO2013043157	PHYSIOLOGICAL SIGNAL DENOISING
WO2013116242	SENSORS, INTERFACES AND SENSOR SYSTEMS FOR DATA COLLECTION AND INTEGRATED REMOTE MONITORING OF CONDITIONS AT OR NEAR BODY SURFACES
WO2013134179	METHODS AND APPARATUSES FOR PREDICTING RISK OF PROSTATE CANCER AND PROSTATE GLAND VOLUME
WO2013187937	AUTOMATIC DIGITAL CURATION AND TAGGING OF ACTION VIDEOS
WO2003069431	SYSTEM AND METHOD FOR FACILITATING CANDIDATE AND SUBJECT PARTICIPATION IN CLINICAL TRIAL STUDIES
WO2010005877	INGESTIBLE EVENT MARKER DATA FRAMEWORK
WO2011047200	SYSTEMS AND METHODS FOR CONVERTING AND DELIVERING MEDICAL IMAGES TO MOBILE DEVICES AND REMOTE COMMUNICATIONS SYSTEMS
WO2013150039	SYSTEMS AND METHODS FOR DISEASE KNOWLEDGE MODELING AND CLINICAL DECISION SUPPORT
WO2015035367	METHODS AND SYSTEMS FOR ANALYSIS OF ORGAN TRANSPLANTATION
WO2015188156	METHODS AND SYSTEMS FOR GATHERING HUMAN BIOLOGICAL SIGNALS AND CONTROLLING A BED DEVICE

WO2016040947	HYPOVOLEMIA/HYPERVOLEMIA DETECTION USING PERIPHERAL INTRAVENOUS WAVEFORM ANALYSIS (PIVA) AND APPLICATIONS OF SAME
WO2016048918	SECURITY AND ACCOUNTING INFRASTRUCTURE, AND ASSOCIATED CUTANEOUS INFORMATION DEVICE AND METHOD
WO2016154230	SYSTEMS AND METHODS FOR MONITORING AN ORTHOPEDIC IMPLANT AND REHABILITATION
WO2003075744	OPTIMIZING IMPLANTED MEDICAL DEVICE PERFORMANCE
WO2017136226	METHOD AND SYSTEM FOR ON-DEMAND CUSTOMIZED SERVICES
WO2020041237	BRAIN OPERATING SYSTEM
WO2020142706	Market Layer Price Queue Map Routing in Transportation Capacity and Space
WO2007051171	INTRAOCULAR LENS ADAPTED FOR ACCOMMODATION VIA ELECTRICAL SIGNALS
WO2014145074	FUNCTIONAL DESICCANTS
WO2016066637	METHOD FOR MONITORING AN ORTHODONTIC TREATMENT
WO2018236974	DENTAL IMPRESSION KIT AND METHODS THEREFOR
WO2019210090	RECORD ABLATION PROCEDURE RESULTS IN A DISTRIBUTED LEDGER
WO2002078512	BLOOD GLUCOSE TRACKING APPARATUS AND METHODS
WO2011028383	MONITORING AND TRACKING ATHLETIC ACTIVITY
WO2012103525	INTERFACING WITH A MOBILE TELEPRESENCE ROBOT
WO2015031472	DEVICES, SYSTEMS, AND METHODS FOR ADHERENCE MONITORING AND DEVICES, SYSTEMS, AND METHODS FOR MONITORING USE OF CONSUMABLE DISPENSERS
WO2015116794	SYSTEM AND METHOD FOR ASSURING PATIENT MEDICATION AND FLUID DELIVERY AT THE CLINICAL POINT OF USE
WO2016090260	INHALATION MONITORING SYSTEM AND METHOD
WO2016107607	SYSTEM AND METHOD FOR HEALTH MONITORING
WO2017087642	SCALE-BASED PARAMETER ACQUISITION METHODS AND APPARATUSES
WO2007041295	COMPANION ROBOT FOR PERSONAL INTERACTION
WO2009049254	SYSTEMS AND METHODS FOR STORING, ANALYZING, AND RETRIEVING MEDICAL DATA
WO2010135638	METHODS FOR REDUCING FALSE HYPOGLYCEMIA ALARM OCCURRENCE
WO2013055828	MANAGING HEALTHCARE SERVICES
WO2014159420	SYSTEM AND METHOD FOR PERITONEAL DIALYSIS EXCHANGES HAVING REUSABLE ENERGIZING UNIT
WO2015073376	METHOD AND APPARATUS FOR ENHANCED PERSONAL CARE
WO2015148614	SYSTEM AND METHOD FOR MULTI-TENANT HEALTHCARE RELATIONSHIP MANAGEMENT
WO2017072250	AN AUTOMATIC METHOD TO DELINEATE OR CATEGORIZE AN ELECTROCARDIOGRAM
WO2007150004	VERIFICATION OF EXTRACTED DATA
WO2010093707	SYSTEMS AND METHODS FOR VISUALIZATION OF DATA ANALYSIS

WO2011011114	PHARMACEUTICAL PACKAGING AND METHOD FOR DELIVERY OF SAME
WO2013182218	BREATHING APPARATUS AND METHOD FOR USER INTERACTION THEREWITH
WO2014116628	MEDICAL REHAB LIFT SYSTEM AND METHOD WITH HORIZONTAL AND VERTICAL FORCE SENSING AND MOTION CONTROL
WO2019177769	USER INTERFACES FOR HEALTH MONITORING
WO2007145687	METHOD AND APPARATUS FOR SECURE ACCESS PAYMENT AND IDENTIFICATION
WO2009049276	PERSONALIZED MANAGEMENT AND MONITORING OF MEDICAL CONDITIONS
WO2012166860	METHOD AND SYSTEM FOR TUNING OF MOVEMENT DISORDER THERAPY DEVICES
WO2013140785	APPARATUS, SYSTEM AND METHOD FOR ANALYZING DISEASE SAMPLE
WO2014197443	MOTION SENSOR AND ANALYSIS
WO2018031714	SYSTEMS AND METHODS FOR PATIENT FLUID MANAGEMENT
WO2009086182	ARTICULAR INJECTION SYSTEM
WO2013029032	EPISODIC SOCIAL NETWORKS
WO2013061280	FLUID TEMPERATURE AND FLOW SENSOR APPARATUS AND SYSTEM FOR CARDIOVASCULAR AND OTHER MEDICAL APPLICATIONS
WO2015054156	CLINICAL OUTCOME TRACKING AND ANALYSIS
WO2016064905	POSTURE IMPROVEMENT DEVICE, SYSTEM, AND METHOD
WO2016090235	A SYSTEM AND APPARATUS FOR OPTIMIZING HYDRATION AND FOR THE CONTEXTUAL DISPENSING OF ADDITIVES
WO2019067783	PRODUCTION AND CONTROL OF CINEMATIC CONTENT RESPONSIVE TO USER EMOTIONAL STATE
WO2009059013	MANAGING MEDICATIONS AT THE BEDSIDE
WO2010120917	EXPANDING THE DYNAMIC RANGE OF A TEST STRIP
WO2012173744	GOLF IMPACT ANALYSIS SYSTEMS AND RELATED METHODS
WO2016160478	EAR STIMULATION METHOD AND SYSTEM
WO2017055867	METHOD, APPARATUS AND SYSTEM FOR SECURELY TRANSFERRING BIOLOGICAL INFORMATION
WO2018087162	INTEGRATED OPERATING ROOM LIGHTING AND PATIENT WARMING SYSTEM - DESIGN AND COMPONENTS
WO2018132723	INSULIN DELIVERY METHODS, SYSTEMS AND DEVICES
WO2018150239	INTERACTIVE AND ADAPTIVE LEARNING AND NEUROCOGNITIVE DISORDER DIAGNOSIS SYSTEMS USING FACE TRACKING AND EMOTION DETECTION WITH ASSOCIATED METHODS
WO2020204972	IMPROVED CALIBRATION ACCURACY METHOD FOR CREATININE/CREATINE SENSORS
WO2008103827	SYSTEM AND METHOD FOR PROVIDING TREATMENT RECOMMENDATIONS BASED ON MODELS
WO2009088739	CONFIGURATION FOR CQI REPORTING IN LTE
WO2010011356	SYSTEMS AND METHODS OF TREATING, DIAGNOSING AND PREDICTING THE OCCURRENCE OF A MEDICAL CONDITION

WO2011018460	APPARATUS AND METHOD FOR PROCESSING GLYCEMIC DATA
WO2013056160	MEDICAL MONITORING HUB
WO2013062937	ENHANCING DIAGNOSIS OF DISORDER THROUGH ARTIFICIAL INTELLIGENCE AND MOBILE HEALTH TECHNOLOGIES WITHOUT COMPROMISING ACCURACY
WO2014039567	SYSTEMS, DEVICES AND METHODS FOR CONTINUOUS HEART RATE MONITORING AND INTERPRETATION
WO2014190083	SYSTEMS AND METHODS FOR PROVIDING ON-LINE SERVICES
WO2015021280	ACTIVITY RECOGNITION WITH ACTIVITY REMINDERS
WO2015027196	METHOD AND SYSTEM TO CREATE CUSTOM PRODUCTS
WO2015089484	METHODS AND SYSTEMS FOR ARRHYTHMIA TRACKING AND SCORING
WO2016078709	HEARING AID USER ACCOUNT MANAGEMENT
WO2016141029	ACCESS CONTROL FOR ENCRYPTED DATA IN MACHINE-READABLE IDENTIFIERS
WO2016181315	CONTACT QUALITY ASSESSMENT BY DIELECTRIC PROPERTY ANALYSIS
WO2017136059	USING CELL-FREE DNA FRAGMENT SIZE TO DETERMINE COPY NUMBER VARIATIONS
WO2018229504	BREAST PUMP SYSTEM
WO2019162164	METHOD FOR ALIGNING A THREE-DIMENSIONAL MODEL OF A DENTITION OF A PATIENT TO AN IMAGE OF THE FACE OF THE PATIENT
WO2020028257	DEEP LEARNING TECHNIQUES FOR MAGNETIC RESONANCE IMAGE RECONSTRUCTION
WO2006053005	SYSTEM AND METHOD FOR PREVENTING WRONG-SITE SURGERIES
WO2011011454	SYSTEMS AND METHODS FOR COLLECTION, ORGANIZATION AND DISPLAY OF EMS INFORMATION
WO2013162750	SYSTEMS AND METHODS FOR MONITORING FERTILITY USING A PORTABLE ELECTRONIC DEVICE
WO2015026969	SYSTEMS, METHODS, AND DEVICES FOR ASSESSING MICROBIOTA OF SKIN
WO2015171667	PORTABLE DEVICE WITH MULTIPLE INTEGRATED SENSORS FOR VITAL SIGNS SCANNING
WO2016081624	AUTOMATIC IDENTIFICATION AND MAPPING OF CONSUMER ELECTRONIC DEVICES TO PORTS ON AN HDMI SWITCH
WO2016154271	DYNAMIC PROPRIOCEPTION
WO2016183198	DISTRIBUTED SYSTEM ARCHITECTURE FOR CONTINUOUS GLUCOSE MONITORING
WO2017027673	DEVICES, SYSTEM AND METHOD TO CONTROL THE DELIVERY OF ORAL MEDICATIONS
WO2017146363	SENSOR ASSISTED DEPRESSION DETECTION
WO2012006524	WEARABLE MEDICAL TREATMENT DEVICE
WO2012040674	PROVIDING ANSWERS TO QUESTIONS INCLUDING ASSEMBLING ANSWERS FROM MULTIPLE DOCUMENT SEGMENTS
WO2012125863	NEUROSTIMULATION SYSTEM FOR DEFINING A GENERALIZED IDEAL MULTIPOLE CONFIGURATION

WO2013176758	CLINICAL WORKFLOWS UTILIZING AUTONOMOUS AND SEMI-AUTONOMOUS TELEMEDICINE DEVICES
WO2013184226	HYPERSPECTRAL IMAGE PROCESSING VIA A COMPUTER NETWORK
WO2014008056	SCALABLE BIO-ELEMENT ANALYSIS
WO2014210323	ASSET TAG APPARATUS AND RELATED METHODS
WO2016037091	SYSTEM FOR MONITORING HEALTH RELATED INFORMATION FOR INDIVIDUALS
WO2016055290	INFORMATION PROVIDER SYSTEM
WO2016064592	PHARMACEUTICAL AND BIOLOGICAL AGENT DESKTOP DISPENSING SYSTEMS HAVING BIOMETRIC DATA ACQUISITION AND MONITORING CAPABILITIES
WO2016118527	SYSTEMS AND METHODS FOR RESPONSE PREDICTION TO CHEMOTHERAPY IN HIGH GRADE BLADDER CANCER
WO2017015509	PREDICTING IMMUNE RESPONSE
WO2017196576	SYSTEM AND METHOD FOR DISEASE RISK ASSESSMENT AND TREATMENT
WO2018140373	A DRUG MONITORING TOOL
WO2019226654	SYSTEMS AND METHODS FOR OPTIMIZATION OF PLASMA COLLECTION VOLUMES
WO2020172414	SYSTEMS AND METHODS FOR ANALYSIS OF SURGICAL VIDEOS
WO2011014704	INFUSION PUMP SYSTEM WITH DISPOSABLE CARTRIDGE HAVING PRESSURE VENTING AND PRESSURE FEEDBACK
WO2011050065	GENERATION AND DATA MANAGEMENT OF A MEDICAL STUDY USING INSTRUMENTS IN AN INTEGRATED MEDIA AND MEDICAL SYSTEM
WO2012064956	SYSTEMS AND METHODS FOR TIME-BASED ATHLETIC ACTIVITY MEASUREMENT AND DISPLAY
WO2012154286	DEVICES, SYSTEMS, AND METHODS ASSOCIATED WITH ANALYTE MONITORING DEVICES AND DEVICES INCORPORATING THE SAME
WO2013169294	UTILITY MODULE SYSTEM
WO2014142468	METHOD OF PROVIDING COPY IMAGE AND ULTRASOUND APPARATUS THEREFOR
WO2014182982	TIME-VARYING CHEST COMPRESSIONS
WO2014210603	SYSTEMS AND METHOD FOR EVALUATING AND SELECTING A HEALTHCARE PROFESSIONAL
WO2015084793	FLIGHT TIME

WO2020028382	MULTI-MODAL, MULTI-RESOLUTION DEEP LEARNING NEURAL NETWORKS FOR SEGMENTATION, OUTCOMES PREDICTION AND LONGITUDINAL RESPONSE MONITORING TO IMMUNOTHERAPY AND RADIOTHERAPY
WO2020031070	SURGICAL ASSISTIVE DEVICE FOR PROVIDING ASSISTANCE IN SURGERY OF ANATOMICAL PORTIONS OF INTERNAL ORGAN AFFECTED BY INTRAOPERATIVE SHIFT
WO2020032804	A MEDICAL ALARM RELAY DEVICE FOR THE INCAPACITATED
WO2020033217	METHOD OF EVALUATING AND VISUALIZING FIT OF AN APPLICATOR
WO2020037226	VAPOR DOSING PLATFORM FOR VAPORIZATION CARTRIDGES
WO2020037308	PATIENT-SPECIFIC SURGICAL METHOD AND SYSTEM
WO2020038873	DATA-DRIVEN ESTIMATION OF PREDICTIVE DIGITAL TWIN MODELS FROM MEDICAL DATA
WO2020039428	MACHINE CLASSIFICATION OF SIGNIFICANT PSYCHOPHYSIOLOGICAL RESPONSE
WO2020039813	HEALTH MANAGEMENT ASSISTANCE DEVICE, HEALTH MANAGEMENT ASSISTANCE METHOD, HEALTH MANAGEMENT ASSISTANCE TERMINAL, AND PROGRAM
WO2020039827	HEALTH MANAGEMENT DEVICE, HEALTH MANAGEMENT METHOD AND PROGRAM
WO2020039828	HEALTH MANAGEMENT DEVICE, HEALTH MANAGEMENT METHOD AND PROGRAM
WO2020041555	MULTIFACTORICAL, MACHINE-LEARNING BASED PRIORITIZATION FRAMEWORK FOR OPTIMIZING PATIENT PLACEMENT
WO2020042943	SYSTEM AND METHOD FOR DETERMINING A TARGET POINT FOR A NEEDLE BIOPSY
WO2020043734	SYSTEMS AND METHODS FOR PROVIDING CONTAINER BASED MEDICATION DOSE GUIDANCE TO TREAT DIABETES
WO2020043922	RETROSPECTIVE HORIZON BASED INSULIN DOSE PREDICTION
WO2020045702	COMPUTER PROGRAM AND TERMINAL FOR PROVIDING URINALYSIS USING COLORIMETRY TABLE
WO2020046660	PATIENT MONITORING SYSTEM FOR DETERMINING MOVEMENT ACTIVITY
WO2020047051	ROBOTIC ASSISTED LIGAMENT GRAFT PLACEMENT AND TENSIONING
WO2020047669	HEALTH MONITORING SYSTEM HAVING PORTABLE HEALTH MONITORING DEVICES AND METHOD THEREFOR
WO2020050109	DISPLAY DEVICE, INFORMATION TERMINAL, PERSONAL INFORMATION PROTECTION METHOD, PROGRAM, AND RECORDING MEDIUM WHEREON PROGRAM IS RECORDED
WO2020051559	SYSTEMS AND METHODS FOR MICROBIOME ANALYSIS
WO2020053133	SYNCHRONIZING PHYSIOLOGICAL MEASUREMENT DATA STREAMS
WO2020055434	METHOD AND SYSTEM FOR AUTOMATICALLY TRACKING AND MANAGING INVENTORY OF SURGICAL TOOLS IN OPERATING ROOMS

WO2020055435	MACHINE-LEARNING-BASED VISUAL-HAPTIC FEEDBACK SYSTEM FOR ROBOTIC SURGICAL PLATFORMS
WO2020058077	SECURE CONTROLLING OF DIALYSIS APPARATUSES
WO2020058078	SECURE INPUT ON A CONTROL COMPONENT FOR A DIALYSIS DEVICE
WO2020058944	SYSTEM AND METHOD FOR DISTRIBUTING REVENUE AMONG USERS BASED ON QUANTIFIED AND QUALIFIED EMOTIONAL DATA
WO2020059641	EVALUATION SUPPORT SYSTEM AND EVALUATION SUPPORT METHOD FOR SUPPORTING EVALUATION OF STATE OF CIRCULATORY SYSTEM
WO2020061222	EQUID WEARABLE DEVICE, PERFORMANCE ANALYTICS SYSTEM AND METHODS THEREOF
WO2020064668	SYSTEM AND METHOD FOR DELIVERING SENSORY STIMULATION DURING SLEEP BASED ON DEMOGRAPHIC INFORMATION
WO2020064681	SYSTEM FOR ENHANCING DATA QUALITY OF DISPENSE DATA SETS
WO2020064736	CONTROLLING LIGHT EXPOSURE FOR CIRCADIAN PHASE MANAGEMENT
WO2020068189	INSULIN INFUSION DEVICE WITH CONFIGURABLE TARGET BLOOD GLUCOSE VALUE FOR AUTOMATIC BASAL INSULIN DELIVERY OPERATION
WO2020068555	METHOD AND SYSTEM FOR FACILITATING THE TRANSITION BETWEEN A CONSCIOUS AND UNCONSCIOUS STATE
WO2020068681	360 VR VOLUMETRIC MEDIA EDITOR
WO2020068866	SYSTEMS AND METHODS FOR CONVERTING HUMAN INTERACTIONS TO POPULATE AN ELECTRONIC FORM
WO2020070505	DEVICE INTEROPERATION
WO2020072915	USE OF NEUROMUSCULAR SIGNALS TO PROVIDE ENHANCED INTERACTIONS WITH PHYSICAL OBJECTS IN AN AUGMENTED REALITY ENVIRONMENT
WO2020074191	HEALTHCARE NETWORK
WO2020076731	PROTECTION AND SKIN DAMAGE DETECTION DEVICES AND SYSTEM
WO2020081652	AUGMENTED REALITY IN A MATERIAL PROCESSING SYSTEM
WO2020083585	METHOD FOR INITIATING A DATA TRANSFER FROM AN IMPLANTABLE MEDICAL DEVICE
WO2020086833	SYSTEM AND METHODS FOR REMOTELY MONITORING LEAN MUSCLE MASS
WO2020087187	PORTABLE ELECTROCHEMICAL-SENSOR SYSTEM FOR ANALYZING USER HEALTH CONDITIONS AND METHOD THEREOF
WO2020094277	HYPERSURFACE RECONSTRUCTION OF MICROSCOPE VIEW
WO2020094814	SYSTEMS AND METHODS FOR DISTRIBUTED LEDGER MANAGEMENT OF NUCLEAR MEDICINE PRODUCTS
WO2020101186	METHOD, ELECTRONIC DEVICE, AND STORAGE MEDIUM FOR PROVIDING RECOMMENDATION SERVICE

WO2020102442	METHODS AND SYSTEMS FOR GENERATING DEPTH PROFILES
WO2020102544	REAL-TIME MOTION MONITORING USING DEEP NEURAL NETWORK
WO2020109863	SLEEP APNEA TREATMENT APPARATUS AND METHOD
WO2020118122	DEVICE AND METHOD FOR MEASUREMENT OF GLYCATED HEMOGLOBIN (A1C)
WO2020119930	DETERMINATION AND VISUALIZATION OF DAMAGE TO AN ANATOMICAL JOINT
WO2020123514	SYSTEM AND METHOD FOR MONITORING ENGAGEMENT
WO2020123696	PROVIDING PERSONALIZED HEALTH CARE INFORMATION AND TREATMENT RECOMMENDATIONS
WO2020124073	A DIGITAL THERAPEUTIC COMPONENT TO OPTIMIZE INDUCTION OF BUPRENORPHINE-CONTAINING PRODUCTS
WO2020130691	ELECTRONIC DEVICE AND METHOD FOR PROVIDING INFORMATION THEREOF
WO2020131356	IMPLANTABLE MEDICAL DEVICE WITH SECURE CONNECTION TO AN EXTERNAL INSTRUMENT
WO2020131527	AUTOMATED METHOD AND SYSTEM FOR GENERATING PERSONALIZED DIETARY AND HEALTH ADVICE OR RECOMMENDATIONS FOR INDIVIDUAL USERS
WO2020132151	CANCER TISSUE SOURCE OF ORIGIN PREDICTION WITH MULTI-TIER ANALYSIS OF SMALL VARIANTS IN CELL-FREE DNA SAMPLES
WO2020132358	EYE-TRACKING IMAGE VIEWER FOR DIGITAL PATHOLOGY
WO2020132481	SYSTEMS AND METHODS FOR HEALTH CARE COMMUNICATION
WO2020133765	FITNESS MANAGEMENT METHOD, DEVICE, AND COMPUTER READABLE STORAGE MEDIUM
WO2020139652	SYSTEM AND METHOD FOR ASSOCIATING ANIMAL BEHAVIORS WITH ANIMAL HEALTH
WO2020139890	DEVICE AND METHOD FOR SELECTIVE APPLICATION OF TOPICAL COMPOSITION USING DYNAMIC THRESHOLD VALUES
WO2020142270	SYSTEMS, APPARATUSES AND METHODS FOR MEDICAL DEVICE COMMUNICATION WITH ONE OR MORE REMOTE DEVICES
WO2020148701	BLOCKCHAIN-BASED HEALTHCARE SECURITY AND INTEROPERABILITY
WO2020152239	MOBILE DEVICE FOR TREATMENT OF ITCHING, HAVING AN INTERFACE
WO2020167733	INFUSION SYSTEMS AND RELATED PERSONALIZED BOLUSING METHODS
WO2020193929	INTERACTIVE SYSTEMS AND METHODS
WO2020211592	DIABETES RISK EARLY-WARNING SYSTEM

US20210177338	MATERNAL-FETAL SEPSIS INDICATOR
US20210179338	Portable, Reusable Medication Dispensing Assembly which has Communication Capability to Improve Medication Adherence

US20210183480	Biometric Authentication for Access to Medical Information on a Distributed Ledger
US20210183502	SYSTEM AND METHOD FOR PROVIDING NOTIFICATIONS TO A USER BASED UPON THE LOCATION OF THE USER
US20210183512	SYSTEMS, APPARATUS, AND METHODS TO MONITOR PATIENTS AND VALIDATE MENTAL ILLNESS DIAGNOSES
US20210193296	Enabling The Use Of Multiple Picture Archiving Communication Systems By One Or More Facilities On A Shared Domain
US20210193316	DETERMINING ENGAGEMENT LEVEL OF AN INDIVIDUAL DURING COMMUNICATION
US20210200941	FRAMEWORK FOR GENERATING A TIMELINE TO MAINTAIN CONTEXT ACROSS VARIOUS DISPLAY DEVICE SIZES
US20210202064	METHODS AND SYSTEMS FOR INFORMING PRODUCT DECISIONS
US20210202095	DECISION SUPPORT APPLICATION FOR PCOS
US20210202112	INTEGRATED HEALTH CONTENT FRAMEWORK
US20210233627	CONNECTIVITY PLATFORM TO ACCESS PERSONALIZED LABORATORY DIAGNOSTICS AND RESULTS
US9167991	Portable monitoring devices and methods of operating same
US9042596	Willpower watch (TM)—a wearable food consumption monitor
US9108098	Methods and apparatus for virtual competition
US10168669	Timeline user interface
US8786875	Systems and methods for printing a document from a mobile communication device
US7366522	Method and system for location tracking
US10019744	Multi-dimensional behavior device ID
US10668180	Apparatus and method for sterilizing medical devices
US7477285	Non-intrusive data transmission network for use in an enterprise facility and method for implementing
US9144680	System and method of establishing a protocol for providing electrical stimulation with a stimulation system to treat a patient
US9415610	System and method for forming hydrophobic structures in a porous substrate
US8033959	Portable fitness monitoring systems, and applications thereof
US8360904	Sports electronic training system with sport ball, and applications thereof
US7539532	Cuffless blood pressure monitoring appliance
US9225789	Automated mobile positional social media method and system
US7146260	Method and apparatus for dynamic configuration of multiprocessor system
US9569589	System, medical item including RFID chip, data collection engine, server and method for capturing medical data
US7789742	Smart golf club multiplayer system for the internet
US9139199	Methods for dense parking of remotely controlled or autonomous vehicles
US9610476	Smart sport device
US8493822	Methods, systems, and program products for controlling the playback of music
US9508141	Non-touch optical detection of vital signs

US9669227	Systems, methods, and devices for generating arbitrary stimulation waveforms
US8878669	Method and system for monitoring intoxication
US10042181	Ametropia treatment tracking methods and system
US7420472	Patient monitoring apparatus
US9257054	Sport ball athletic activity monitoring methods and systems
US10354218	System and method for iPS cell bank using internet technology
US8239030	Transcranial stimulation device and method based on electrophysiological testing
US8281370	Managing secure sharing of private information across security domains
US10261991	Method and system for imposing a dynamic sentiment vector to an electronic message
US10867085	Systems and methods for overlaying and integrating computer aided design (CAD) drawings with fluid models
US9141759	Group performance monitoring system and method
US10333980	Personal device network for user identification and authentication
US10591590	Control algorithm for wireless sensor to estimate and calculate environmental parameters
US9367800	Ancestry painting with local ancestry inference
US9974487	Heart rate detection module, and detection and denoising method thereof
US10468134	Medical imaging apparatus for displaying portions of x-ray images and method for displaying medical image
US7464040	Apparatus and method for processing and/or for providing healthcare information and/or healthcare-related information
US9533228	Systems and methods for fitness and video games
US9904455	Method and apparatus for changing user interface based on user motion information
US9352207	Action detection and activity classification
US8206246	System and method for improving a basketball player's shooting
US9198622	Virtual avatar using biometric feedback
US9289150	Non-invasive method and system for characterizing cardiovascular systems
US9558520	System and method for geocoded insurance processing using mobile devices
US9998286	Hardware blockchain consensus operating procedure enforcement
US10153994	Systems and methods for automated and centralized real-time event detection and communication
US10361004	Method for obtaining skin care information, method for sharing skin care information, and electronic apparatus therefor
US10560135	Health, wellness and activity monitor
US10849713	Method and apparatus to account for transponder tagged objects used during clinical procedures, employing a trocar
US10878220	Methods and systems for assigning locations to devices
US7181617	Remote virtual medical diagnostic imaging viewer
US9079315	Banking automation using autonomous robot
US9141726	Computerized systems and methods for providing mobile-device updates of electronic health records
US9235332	Interfaces for predictive models

US9798860	Methods and systems for remotely determining levels of healthcare interventions
US10049595	Athletic performance and technique monitoring
US10447573	Method and system for aggregating diagnostic analyzer related information
US10516938	System and method for assessing speaker spatial orientation
US10529088	Automatically determining orientation and position of medically invasive devices via image processing
US10872354	System and method for personalized preference optimization
US11051641	Smart bottle
US7028049	Standing order database search system and method for internet and internet application
US7953614	Smart placement rules
US8680408	Electronic scale for measuring weight using two measurements and a processor therefor
US8976062	Portable biometric monitoring devices having location sensors
US9092559	Drug delivery system with open architectural framework
US9897565	System and method for optimizing insulin dosages for diabetic subjects
US10251597	Health tracking device
US10290071	Universal caregiver interface
US10362980	Method for predicting arousal level and arousal level prediction apparatus
US10642958	Suggestion engine
US10685576	Augmented reality systems based on a dynamic feedback-based ecosystem and multivariate causation system
US10783546	Color and symbol coded display on a digital badge for communicating permission to approach and activate further digital content interaction
US10854335	Computer aided medical method and medical system for medical prediction
US8224034	Biometrics system, biologic information storage, and portable device
US8620682	Smart clinical care room
US8675920	Fall detection and reporting technology
US8712120	Rules-based approach to transferring and/or viewing medical images
US9424397	Sports monitoring system using GPS with location beacon correction
US9430506	Enterprise migration planning information repository
US9510790	Method for measuring biological signal and wearable electronic device for the same
US9743883	Exercise feedback provision apparatus and method
US9767257	Group performance monitoring system and method
US9977866	Search engine systems for matching medical providers and patients
US10149958	Systems and methods for computer assisted operation
US10169749	Systems and methods for tracking and adjustment of electronic transaction processing results
US10313290	System and method for communicating electronic health information
US10506954	Mobile automated health sensing system, method and device
US10607724	Information processing apparatus and method for clinical laboratory management
US8135450	Noninvasive glucose sensing methods and systems

US8508757	Printing from a handheld device via a remote server
US8797331	Information processing apparatus, system, and method thereof
US8798367	Optical imager and method for correlating a medication package with a patient
US8961371	Systems and methods for enabling exercise equipment to communicate with a network
US9066680	System for determining confidence in respiratory rate measurements
US9075906	Medical support system including medical equipment case
US9345948	System for providing a coach with live training data of an athlete as the athlete is training
US9400872	Metrics assessment system for health, fitness and lifestyle behavioral management
US9566411	Computer system for determining a state of mind and providing a sensory-type antidote to a subject
US9665689	Medication assurance system and method
US9881136	Methods and systems for managing patient treatment compliance
US9928341	Systems and methods for providing comprehensive care for stoma patients
US10088816	Cognitive plant clinic
US10143405	Wearable performance monitoring, analysis, and feedback systems and methods
US10383602	Apparatus and method for visualizing anatomical elements in a medical image
US10387782	Information processing apparatus and storage medium
US10555127	Method and system for determining a direction of movement of an object
US10582189	System and method for generating composite images
US10721333	Integrated system for producing procedural data change sets communicated to multiple client devices
US10736600	X-ray imaging detector with independently sleepable processors
US10799189	Systems and methods to deliver point of care alerts for radiological findings
US8464046	Emergency medical data access system and associated methods
US8612146	Accelerometer-aided gyroscope
US8690578	Mobile computing weight, diet, nutrition, and exercise tracking system with enhanced feedback and data acquisition functionality
US8781852	Systems and methods for creating a form for receiving data relating to a health care incident
US8810408	Medication management and reporting technology
US8948341	Radiation therapy techniques using targeted wave superposition, magnetic field direction and real-time sensory feedback
US9013299	System and method for locating a patient
US9144381	Mobile self-management compliance and notification method, system and computer program product
US9203814	Providing notifications to authorized users
US9378334	Medical pump providing customizable programming permissions
US9408561	Activity analysis, fall detection and risk assessment systems and methods
US9468807	Systems, applications, and methods for exercise workout generation

US9539155	Control system for patient support apparatus
US9579457	Method, apparatus and system for automatic treatment of pain
US9619618	Systems and methods for credit-based usage of surgical instruments and components thereof
US9659159	Sleep data chain of custody
US9760674	Systems and methods for generating orthotic device models from user-based data capture
US9870451	Dynamic management, assembly, and presentation of web-based content
US9968840	Method and apparatus to provide haptic and visual feedback of skier foot motion and forces transmitted to the ski boot
US9984205	Cloud-based clinical information systems and methods of use
US10089441	System-wide probabilistic alerting and activation
US10152609	Personally identifiable information (PII) disclosure detection
US10448848	Apparatus and method for measuring bioinformation
US10596072	Medication dispensing system
US10599986	Auxiliary analysis system using expert information and method thereof
US10657224	Monitoring and treatment dosage prediction system
US10722775	Robotic training systems and methods
US10821227	Intravenous drip real-time monitoring system and method
US11017530	Apparatus and method for analyzing cephalometric image
US11026572	Ophthalmic examination system and ophthalmic examination management server
US7617137	Surgical suite radio frequency identification methods and systems
US7624027	Method and system for automated medical records processing
US8478698	Methods and systems for employing artificial intelligence in automated orthodontic diagnosis and treatment planning
US8643669	Measurement and testing system
US8844057	Analyte data retriever
US9092964	Real-time event communication and management system, method and computer program product
US9215075	System and method for secure relayed communications from an implantable medical device
US9355123	Fast recognition algorithm processing, systems and methods
US9489494	Recommendation engine
US9536106	System and method for the display of restricted information on private displays
US9566877	Technology and methods of on-board vehicle occupant accurate weighing by a simplified weighing apparatus based on weighing moderator and its applications in on-board occupant weighing systems
US9610016	Wireless health monitoring in the setting of X-ray, magnetic resonance imaging and other sources of electromagnetic interference
US9621684	Method and arrangement for monitoring physiological data
US9642131	Event-based responder dispatch
US9730648	Methods, systems, and devices for monitoring and displaying medical parameters for a patient
US9814438	Methods and apparatus for performing dynamic respiratory classification and tracking

US9842139	Metadata-driven program code generation for clinical data analysis
US9875560	Graphical display of physiological parameters on patient monitors
US9916649	Method to determine impaired ability to operate a motor vehicle
US9943754	System, method and apparatus for collecting and utilizing big data for online gameplay
US9956469	Tennis racket sensor system and coaching device
US10121274	Medical image processing system, medical image processing apparatus, control method thereof, and recording medium
US10179246	Wearable cardioverter defibrillator (WCD) system using security NFC tag for uploading configuration data
US10181360	Report links
US10250403	Dynamic control of smart home using wearable device
US10267670	Meal lifecycle management system
US10300334	Athletic training optimization
US10314534	Wearable device adaptively controllable based on bioinformation, system including the same, and operating method thereof
US10346590	Prescription storage and retrieval system
US10357342	Digital dental examination and documentation
US10559386	Methods and systems for an artificial intelligence support network for vibrant constitutional guidance
US10560272	Bio-information data providing method, bio-information data storing method and bio-information data transferring system based on multiple blockchains
US10573408	Dynamic forms
US10585917	Real time data tracking, analytics data warehousing, and front end reporting system
US10588560	Systems and methods for facilitating exercise monitoring with real-time heart rate monitoring and motion analysis
US10588825	Pill compliance device and monitoring system
US10629300	Geographic selection system based on resource allocation and distribution
US10691828	Method for securing access to a relation
US10699664	Image display system and method of transforming display panels of mobile devices into being compatible with medical images display standard
US10707773	Energy acquisition and power supply system
US10734112	Method and apparatus for transmitting data from several respirators
US10736509	Dual frequency control for a physiologic monitor
US10754979	Information management terminal device
US10762989	Systems and methods for generating automated graphical user interfaces for real-time facility capacity management
US10772595	Method and apparatus for displaying medical image
US10777316	Method for tracking consumption of supplements by a user
US10861603	Proactive image-based infusion device delivery adjustments
US10891015	Information processing apparatus, information processing method, and computer program
US10909216	Virtual mental health platform
US10973413	Advanced compression garments and systems

US10980490	Method and apparatus for evaluating physiological aging level
US11024142	Event detector for issuing a notification responsive to occurrence of an event
US11055799	Information processing method and recording medium
US11080852	Method and system of analyzing medical images
US7248688	Virtual physician office systems and methods
US8332238	Integrated payment and explanation of benefits presentation method for healthcare providers
US8884752	Medication usage monitoring and reminding device and method
US8996432	Intelligent apparatus for providing personalized configuration of wheelchair tilt and recline
US9177110	Automated report generation
US9183356	Method and apparatus for providing biometric information
US9344686	Method, system and apparatus for transcribing information using wearable technology
US9364394	Compounder apparatus
US9474695	Medication compliance alert device
US9474935	All-in-one smart console for exercise machine
US9483611	Protective HDL particle number evaluations
US9495604	Intelligent management of computerized advanced processing
US9532723	Mobile terminal and controlling method thereof
US9563268	Heart rate control based upon media content selection
US9629566	Methods and systems to determine multi-parameter managed alarm hierarchy during patient monitoring
US9749450	Smartphone
US9798725	Variance detection between heterogeneous multimedia files from heterogeneous computer systems
US9820658	Systems and methods for providing interoperability among healthcare devices
US9830423	Virtual communication platform for healthcare
US9839356	Systems and methods for communicating data
US9883365	Mobile terminal
US9899038	Electronic notebook system
US9912840	Apparatus and method for sampling images
US9928347	Computer aided diagnostic system for classifying kidneys
US9939456	Exercise support device, control method for exercise support device, and computer-readable storage medium
US9943262	System and method for providing walking path guidance service based on measurement of motion of user
US9949663	Apparatus and method for the analysis of the change of body composition and hydration status and for dynamic indirect individualized measurement of components of the human energy metabolism
US9965590	Healthcare collaboration computer system
US9968408	Spinal balance assessment
US9979786	Electronic ecosystem for medical examination room
US10001918	Method and system for providing a specialized computer input device
US10049766	Method and apparatus for secure setup of clinical trial client device

US10085675	Measurement information management system, measurement apparatus, information device, measurement information management method, and measurement information management program
US10089451	Electrocardiogram (ECG)-based authentication apparatus and method thereof, and training apparatus and method thereof for ECG-based authentication
US10127357	Mobile monitoring and patient management system
US10133848	Medication management
US10152574	Signal feature extracting method and apparatus
US10172520	Minimally invasive wireless sensing devices and methods
US10172698	Method and system for monitoring pregnancy toxemia
US10182871	Systems and methods for intra-operative image acquisition and calibration
US10220172	Methods and systems for providing interface components for respiratory therapy
US10265052	Method of displaying ultrasound image and ultrasound diagnosis apparatus
US10296713	Method and system for reviewing medical study data
US10340041	Biopsy mapping tools
US10343682	Vehicle operation based on activity tracking
US10361001	Autonomous critical care systems and integrated combat casualty care systems
US10376239	Ultrasonic imaging apparatus and method of processing ultrasound image
US10416865	Medical device with enhanced user interface controls
US10467566	Computerized data processing systems and methods for generating graphical user interfaces
US10482292	RFID scanning device
US10497247	Hospital bed exit detection, height limiting and tare weight recalibrating systems and methods
US10497470	Mobile terminal and controlling method thereof
US10524738	Noninvasive sensor system with visual infographic display
US10528703	Medical labeling system and method of use
US10551921	Electroencephalography control of controllable device
US10556567	Mobile terminal and control method thereof
US10650061	Systems and methods for generating interactive hypermedia-based graphical user interfaces for mobile devices
US10650477	Liquid ingesting management system
US10665331	Device-based participant matching
US10665350	Computerized data processing systems and methods for generating graphical user interfaces
US10695032	Medical image display apparatus and method therefor
US10706958	Electronic data document for use in clinical trial verification system and method
US10719222	Method and system for generating transcripts of patient-healthcare provider conversations
US10720038	Emergency response systems and methods of using the same
US10720232	Distributed healthcare records management

US10742811	Smart communications and analytics learning engine
US10772569	Device and method to detect diabetes in a person using pulse palpation signal
US10791970	Device, method, and system to measure blood glucose
US10841286	Apparatus, system and method for secure universal exchange of patient medical records utilizing key encryption technology
US10905335	Emergency medical services smart watch
US10909213	Supplementing measurement results of automated analyzers
US10909627	Multiple computer server system for organizing healthcare information
US10916344	Utilizing a machine learning model to identify activities and deviations from the activities by an individual
US10918574	Multi-chamber medicament dispensing device
US10925547	System for monitoring physiological condition
US10930398	Graded escalation based triage
US10949951	Patient-specific deep learning image denoising methods and systems
US10952070	Method for hearing system communication and related devices
US10952650	Apparatus and method for estimating blood sugar based on heterogeneous spectrums
US10958311	Identification of device location in healthcare facility
US10993695	Portable expansion unit for operating a medical device, and method for operating a medical device
US11031113	Technology for processing prescription medications for pickup by individuals
US11052019	Active compression decompression cardiopulmonary resuscitation chest compression feedback
US11058358	Apparatus and method for correcting error of bio-information sensor, and apparatus and method for estimating bio-information
US7953608	System and method for orchestrating clinical collaboration sessions
US8131562	System management dashboard
US8185623	Selectively routing patient data between field devices and treatment center destinations
US8380531	Clinical trial endpoint development process
US8442835	Methods, systems, and products for measuring health
US8684923	Methods systems, and computer program products for aggregating medical information
US8821350	Exercise and communications system and associated methods
US8836751	Tele-presence system with a user interface that displays different communication links
US8907914	Methods and apparatus for documenting a procedure
US9011293	Method and system for monitoring and feed-backing on execution of physical exercise routines
US9105174	System and methods for nonverbally communicating patient comfort data
US9202011	Web enabled audiovisual medication dispensing
US9268860	Methods, systems, and products for personalized monitoring of data
US9314159	Patient monitoring device with remote alert
US9317916	Apparatus and method for recognition of medication administration indicator

US9384494	Information processing apparatus, information processing method, and program
US9411823	Handheld medical imaging mobile modality
US9418205	Proximity-based system for automatic application or data access and item tracking
US9483618	Systems, methods and computer program products for providing disease and/or condition specific adaptive mobile health content, applications and/or solutions
US9501618	Systems, methods and devices for anonymously collecting personal data using a mobile device
US9554744	Mining social media for ultraviolet light exposure analysis
US9606584	Systems and user interfaces for dynamic interaction with two- and three-dimensional medical image data using hand gestures
US9622699	System for measuring teeth movement and contact pressure
US9626479	Systems, methods, user interfaces and analysis tools for supporting user-definable rules and smart rules and smart alerts notification engine
US9648431	Adaptive auditory alerts
US9652595	Kit that improves impaired hepatic glucose processing in subjects
US9655547	Microelectromechanical accelerometer based sensor system
US9690538	Customizable real-time electronic whiteboard system
US9731172	Sporting apparatus with monitoring device
US9817948	System and method for monitoring activities through portable devices
US9846938	Medical evaluation machine learning workflows and processes
US9886546	Methods and apparatus to label radiology images
US9931053	Intelligent baby clothing with automatic inflatable neck support
US9934357	Protocol adjustment for medical imaging
US9934365	Medical reminder and dispensing device
US9934701	Universal sphygmomanometer simulator for live training and evaluation
US9940439	Method and device for identification and/or sorting of medicines
US9940683	Managing a risk of a liability that is incurred if a subject treated for a condition is retreated within a specified time period
US9986165	Remote analyte testing system
US10004663	Electrotherapy system for traditional chinese medicine
US10015601	Hearing device and monitoring system thereof
US10019553	Systems and methods for virtually integrated care delivery
US10025908	Medication adherence systems and methods
US10055547	Intermediate check points in medical care lines for automatically identifying care deficiencies
US10061935	Information processing apparatus, information processing method, and storage medium
US10068461	Real-time patient experience monitoring system
US10089695	Systems and methods for managing long-term care insurance using devices populated within a property
US10091468	System and method for tracking content in a medicine container
US10096384	Artificial intelligence expert system
US10105048	Position-sensing contact lenses
US10105547	Wearable cardioverter defibrillator (WCD) causing patient's QRS width to be plotted against the heart rate

US10109027	Database access and community electronic medical records system
US10109211	Emotional wellness management system and methods
US10134424	Wearable word counter
US10172535	Wearable device and method for providing feedback information through vein authentication
US10181014	Apparatus and methods for storing and dispensing medications
US10192640	Fractional flow reserve decision support system
US10198668	Apparatus and method for supporting computer aided diagnosis (CAD) based on probe speed
US10204703	Medical coding management system using an intelligent coding, reporting, and analytics-focused tool
US10216902	Methods and systems for improving connections within a healthcare ecosystem
US10242157	System and method for providing dental treatment recommendations
US10262382	Systems and methods for and displaying patient data
US10267673	Information processing device, information processing method, and recording medium
US10282512	Clinical decision-making artificial intelligence object oriented system and method
US10307100	Methods and systems of controlling a subject's body feature having a periodic wave function
US10311203	Method and process for transporting health information
US10311373	Subject-specific assessment of neurological disorders with biochemical propagation mechanisms
US10319479	Remote monitoring and dynamic document management systems and methods
US10324594	Enterprise protocol management
US10349918	Method and apparatus for displaying ultrasound images
US10366624	Differentially weighted modifiable prescribed history reporting apparatus, systems, and methods for decision support and health
US10376212	Muscle fatigue output device, muscle fatigue output method, and recording medium
US10384032	Systems and methods for managing ambient conditions
US10420707	Portable automated medication dispenser
US10426393	Systems and methods for monitoring pilot health
US10437844	Dynamic regrouping and presentation of electronic patient records
US10437959	Patient sensor data exchange systems and methods
US10441249	Ultrasound diagnosis apparatus and method of operating the same
US10463915	System, method and program product for monitoring the use of an exercise ball by a user and exercise ball which can be used in such a system
US10468138	Predicting respiratory distress
US10475352	Systems and methods for facilitating rehabilitation therapy
US10475535	Systems and methods for managing an electronic database
US10490309	Forecasting clinical events from short physiologic timeseries
US10495711	System and method for comparing system configurations for magnetic resonance tomography units
US10507774	Component configuration based on sensor data

US10522253	Machine-learned prediction of uncertainty or sensitivity for hemodynamic quantification in medical imaging
US10524123	Establishing secure communication at an emergency care scene
US10528761	Data anonymization in an in-memory database
US10531830	Intelligent wearable outfit
US10557751	Method, program, cumulative received-light amount estimation apparatus, and health care system using solar radiation amount information corresponding to position information of a device and time information
US10559382	Employee visit verification system
US10565897	Quantitative diet tracking and analysis systems and devices
US10593425	Identification and verification of medication
US10600333	System and method for normalizing activity results
US10602935	Information processing apparatus, method and storage medium
US10607471	Hand hygiene monitoring system with customizable thresholds
US10610144	Interactive remote patient monitoring and condition management intervention system
US10617606	Systems and methods for treatment adherence in substance abuse treatment
US10631827	Method and apparatus for processing medical image
US10636527	System and method for quantifying, ensuring, and triggering the prescriptive authority for a telemedicine session
US10643483	Physical activity coaching platform with dynamically changing workout content
US10644889	Consent management apparatus and system
US10660536	Wearable biometric measurement device
US10702190	Method for recognizing user activity and electronic device for the same
US10706602	Methods and apparatus to capture patient vitals in real time during an imaging procedure
US10733772	Method and providing unit for providing an optimized energy bin parameter set for photon-counting spectral computed tomography
US10736543	Workout monitor interface
US10740436	Data set distribution during medical device operation
US10768797	Method, apparatus, and system for generating body marker indicating object
US10768910	Systems and methods for generating interactive hypermedia graphical user interfaces on a mobile device
US10791987	Methods and systems for managing a risk of medication dependence
US10792211	Assist device, assist method, and recording medium
US10796797	Sensor network for breast pumping mothers
US10810223	Data platform for automated data extraction, transformation, and/or loading
US10811135	Systems and methods to determine disease progression from artificial intelligence detection output
US10812356	Measurement result management apparatus and measurement result management method
US10825318	Sensing peripheral heuristic evidence, reinforcement, and engagement system

US10825567	Apparatus and method for informed personal well-being decision making
US10832553	System for alerting a person
US10832818	Alarm notification system
US10870038	Activity recording data processing apparatus
US10872688	Visual analysis pill dispenser
US10884729	Method and system for updating or upgrading firmware of a RFID reader
US10886017	Analysis system and analysis method
US10902942	Generation and delivery of customized content programs
US10909676	Method and system for clinical decision support with local and remote analytics
US10916119	System and method for caregiver availability determination
US10923234	Analysis and verification of models derived from clinical trials data extracted from a database
US10925522	Method, system, and computer program product for dynamic analysis of a physiological parameter
US10939819	Abnormality determination apparatus and non-transitory computer readable medium storing program
US10943695	Sensor module for personal performance monitoring and related arrangement and method
US10943699	Systems and methods for image processing
US10956111	Information processing apparatus, information processing method, and non-transitory computer-readable storage medium
US10959665	Determining the thickness of hair on the head in a damage-free way
US10964435	Method of monitoring the behavior of a cohort group of members
US10977843	Systems and methods for determining parameters for medical image processing
US10980477	Electronic device and method for providing digestibility on eaten food
US10980484	Method of enabling feature extraction for glucose monitoring using near-infrared (NIR) spectroscopy
US10991455	Augmented reality with realtime interactive analysis method and system thereof
US11017337	Computerized data processing systems and methods for generating interactive graphical user interfaces
US11024417	Integrated medical image visualization and exploration
US11030742	Systems and methods to facilitate review of liver tumor cases
US11030911	Electronic apparatus, notification method, and computer-readable storage medium
US11056223	Health monitoring and coaching system
US11058209	Beauty counseling information providing device and beauty counseling information providing method
US11062451	System and method for real-time determination of hand bone age using personal device
US11071454	Identification of device location in healthcare facility
US8984583	Healthcare privacy breach prevention through integrated audit and access control
US9015054	Systems and methods for improving patient compliance with a prescription drug regimen
US9058635	Medical patient data collaboration system

US9276938	Cross-enterprise workflow
US9286771	System and method for providing need specific service identifiers
US9333048	Methods, systems, and products for monitoring health
US9419735	Data usage monitoring
US9443063	Method and apparatus for using gait analysis to determine a health quality measure
US9449496	System for convergence of alarms from medical equipment
US9464906	Transport option selection to serve well-being objectives
US9471749	Healthcare verification system and method
US9507912	Method and system of simulating a pulse generator on a clinician programmer
US9542532	Decision support recommendation optimization
US9589207	Jump shot and athletic activity analysis system
US9633173	Handwriting recognition tool
US9679028	Data driven predictive analysis of complex data sets for determining decision outcomes
US9703931	Method and system for authenticating and monitoring home health interactions
US9715801	System and method of object tracking using a plurality of linked pressure sensors
US9729330	Secure pairing of eHealth devices and authentication of data using a gateway device having secured area
US9753618	Multi-level architecture for dynamically generating interactive program modules
US9782126	System for providing insightful lifestyle notifications
US9792409	Communicative water bottle and system thereof
US9811631	Automated cloud image processing and routing
US9811634	Systems and methods to predict the chances of neurologically intact survival while performing CPR
US9839377	Subject person specifying apparatus and subject person specifying method
US9841831	Ultrasound diagnosis apparatus and method and computer-readable storage medium
US9881485	Device based hygiene reminder, alarm, and reporting system
US9886547	Method and system for automated healthcare care coordination and care transitions
US9886559	Assessing fitness by entropy and bispectral analysis
US9904769	Systems and methods for providing a user engagement platform to support clinical decisions
US9913583	Health monitoring system using outwardly manifested micro-physiological markers
US9913590	Workout management method and system using a wearable device
US9959584	Automated system and method for electronic health record indexing
US9968288	Systems and methods for predicting seizures
US9974512	Method, system, and computer program product for determining a patient radiation and diagnostic study score
US9986092	Agent application and integrated call processing platform

US9990472	System and method for segmentation and automated measurement of chronic wound images
US9994315	Unmanned aerial vehicles in medical applications
US9996670	Clinical content analytics engine
US9999394	Motion analysis device, motion analysis system, motion analysis method, program, and recording medium
US10006896	Method, apparatus and system for food intake and physical activity assessment
US10013527	Automatically assessing an anatomical surface feature and securely managing information related to the same
US10026114	System for clustering and aggregating data from multiple sources
US10032004	Method and system to implement medical information tracking system and medication dispenser
US10032237	Physician performance and recommendation interface
US10049450	High-throughput adaptive sampling for whole-slide histopathology image analysis
US10049770	Prediction of recurrence of non-small cell lung cancer
US10056159	System and method for medical resource utilization management
US10061897	Systems and methods to improve lung function protocols
US10068494	Artificial intelligence based health coaching based on ketone levels of participants
US10068666	Data driven analysis, modeling, and semi-supervised machine learning for qualitative and quantitative determinations
US10068667	Decision support system using intelligent agents
US10074084	System and method for advanced identification of a customer to decrease wait time for prescription
US10074147	Integrated clinical trial workflow system
US10084880	Social media networking based on physiologic information
US10085645	Implant placement method with feedback
US10086233	Fitness equipment with anthropometric data enhanced workout generator
US10089438	Integrated system and method for the acquisition, processing and production of health care records and services
US10090068	Method and system for determining whether a monitored individual's hand(s) have entered a virtual safety zone
US10102735	Systems and methods for hand sanitization monitoring and compliance
US10108781	Glucose or ketone body analyte monitoring in vivo
US10109374	Methods and systems and computer program for providing personalized medical information
US10111603	Apparatus, method and system for pre-action therapy
US10130312	Medical imaging apparatus and method of correcting medical image data based on output display characteristics in order to minimize discrepancies between the image data and the image displayed
US10139991	Lightweight virtual environment
US10148767	Method and mobile unit updating the configuration of a medical technology apparatus without an internet connection
US10149649	Method for identifying exercise path, method for searching for exercise path, and system thereof

US10152572	Social media dissemination of health information via a hybrid architecture
US10159410	Method and apparatus for biometric data gathering and dissemination
US10178974	Method and system for monitoring continuous biomedical signal
US10181021	Method and apparatus for off-body detection for wearable device
US10182769	Information management method and electronic device
US10186161	Providing interaction with broadcasted media content
US10198556	Medicament compilation and dispensation system
US10216904	Cloud-assisted rehabilitation methods and systems for musculoskeletal conditions
US10216906	Smartphone based telemedicine system
US10216955	System and method for controlling access to a medical device
US10219713	Compact wearable phonocardiogram and electrocardiogram continuous monitoring system
US10223501	Systems and methods for tracking, monitoring, and standardizing molecular and diagnostic testing products and services
US10229247	Systems and methods for providing customized therapeutic presentations
US10231623	Roll-to-roll printing process for manufacturing a wireless nanosensor
US10241964	Systems and methods for obtaining consent from a patient
US10244975	Mental health assessment method and kiosk-based system for implementation
US10245216	Systems, methods, and apparatuses for managing adherence to a regimen
US10248168	Religious application for mobile and wearable technology devices
US10275575	Interactive meal-dataset-based map
US10276018	Method for remote presence detection and/or remote behavioral analysis, its implementing device and presence detection device
US10276038	Remote notification system for medical devices
US10297346	Appointment-making server and appointment-making method
US10307082	Method and apparatus for herpes zoster diagnosis and recording medium using the method
US10311388	Optimization of patient care team based on correlation of patient characteristics and care provider characteristics
US10313422	Controlling a device based on log and sensor data
US10314510	Determining intensity of a biological response to a presentation
US10318915	Healthcare system for recording and monitoring transactions of system participants
US10318928	Computerized contemporaneous process control and quality assurance
US10332378	Determining user risk
US10332625	Coordinating communications among healthcare providers
US10335031	Vitals monitoring system
US10339273	Systems and methods for pre-operative procedure determination and outcome predicting
US10340039	Managing patient devices based on sensor data
US10348695	Secure access to individual information
US10350143	System for authorized dispensing of medicines
US10356081	Systems and methods for secure automated network attachment
US10362978	Computational model for mood

US10363455	Exercise machine and cross trainer
US10376211	Method for continuously detecting body physiological information trajectories and establishing disease prevention using a personal wearable device
US10380547	Linkage of social network and healthcare data
US10380645	System for securely transmitting medical records and for providing a sponsorship opportunity
US10390763	Method, system, non-transitory computer-readable medium and computer program product for calibrating time of physiological data
US10391296	Matrix-coded AED maintenance
US10395762	Customized presentation of data
US10398362	Measurement device, management device, measurement skill management system, and measurement skill management method
US10401975	System and method for medical imaging report input
US10409958	Proximity-based pharmacy application services system
US10409961	Predictable and adaptive personal fitness planning
US10410141	System and user interface for acquisition and storage of patient medical insurance data
US10410741	Foot printing systems and methods of utilizing thereof
US10410743	System and method for electronic communication
US10420477	Personal monitoring and response system
US10431329	Real-time symptom analysis system and method
US10438057	Skin care evaluation method and electronic device thereof
US10443103	Chemotherapy regimen selection
US10449370	Network-accessible data about patient with wearable cardiac defibrillator system
US10452812	Methods and apparatus for recording anonymized volumetric data from medical image visualization software
US10453563	Health care event matching
US10459835	System and method for controlling quality of performance of digital applications
US10463307	Anatomical-imaging communication device
US10463574	Medication adherence monitoring
US10467380	Device and system tailored to provide healthcare content, information and communication
US10478127	Apparatuses, methods, processes, and systems related to significant detrimental changes in health parameters and activating lifesaving measures
US10478261	System, method, and apparatus for remote patient care
US10489552	Systems and methods for determining and communicating patient incentive information to a prescriber
US10492062	Protected health information image capture, processing and submission from a mobile device
US10492753	Method and operating system for controlling a medical technology facility with a movable component
US10497472	Directional signal fencing for medical appointment progress tracking
US10498741	Sharing dynamically changing units of cloud-based content

US10498974	Radiation image capturing apparatus and radiation image capturing system
US10510437	Method for creating and using registry of clinical trial participants
US10510449	Expert opinion crowdsourcing
US10521556	Cloud-based clinical distribution systems and methods of use
US10521559	Advanced healthcare information routing and delivery systems and methods of use and doing business
US10521561	Electronic compliance system and associated methods
US10540483	Personalized training based on planned course and personal assessment
US10546654	Method and system for intelligent completion of medical record based on big data analytics
US10552575	Medication monitoring and identification
US10557737	System and methods for a smart water bottle converter
US10561320	Time synchronization in a medical device system or network
US10561549	Bed-based safety protocol control
US10565894	Systems and methods for personalized digital goal setting and intervention
US10575774	Predicting immunotherapy response in non-small cell lung cancer with serial radiomics
US10582007	Goal-based social networking to improve user motivation
US10588517	Method for generating a personalized classifier for human motion activities of a mobile or wearable device user with unsupervised learning
US10600508	Temporary identification systems for a healthcare provider
US10602940	Systems, devices, software, and methods for diagnosis of cardiac ischemia and coronary artery disease
US10602952	Apparatus for guiding biomedical electrode
US10609202	System and method for determining a safe return to a vehicle
US10617842	Ear-worn electronic device for conducting and monitoring mental exercises
US10621491	Method for predicting adverse events for home healthcare of remotely monitored patients
US10623696	Communication system for use with protected persons
US10628476	Information processing apparatus, information processing method, information processing system, and storage medium
US10628556	Method and apparatus for providing collaborative patient information
US10646140	Risk-of-falling determination apparatus, risk-of-falling determination method, recording medium, and output apparatus
US10650927	Machine learning clinical decision support system for risk categorization
US10674911	Systems and methods of integrating ambulatory medical devices
US10688286	Devices and methods for securing surgical guide wires
US10691774	Systems and methods for a comprehensive online health care platform
US10692601	Controlling devices based on hierarchical data
US10699808	Cost of healthcare analytics platform
US10706533	Systems and methods for automatic detection and quantification of pathology using dynamic feature classification
US10706537	Method for checking a medical image and method for adapting an examination protocol during a medical imaging examination

US10706959	Systems and methods for medical referrals via secure email and parsing of CCDs
US10709328	Main module, system and method for self-examination of a user's eye
US10709371	System and methods for serving a custom meditation program to a patient
US10721912	Methods and device for pet enrichment
US10726949	Systems and methods for generating 3D-representation of tooth-specific platform for dental appliance
US10734103	Stress management system and stress management method
US10736566	Food intake monitor
US10740439	Mobile application for medication reminders
US10740719	Methods, systems, apparatuses and devices for facilitating provisioning of an audit data corresponding to a biological target matter
US10741278	Pathogen detection and display system
US10744372	Behavior dominated search in evolutionary search systems
US10748650	Machine learning of dental images for E-commerce
US10748660	Methods and systems for cognitive behavioral therapy
US10748662	Content-based medical image retrieval method and retrieval system
US10754665	Method for configuring a medical imaging device, system for configuring a medical imaging device, computer program product and computer readable medium
US10755804	Health information system for searching, analyzing and annotating patient data
US10765333	System that assesses health condition by measuring pulse and method of assessing the same
US10769841	Selective display in an environment defined by a data set
US10770180	Processing clinical notes using recurrent neural networks
US10770181	Systems and methods for reducing resource consumption via information technology infrastructure
US10772552	Digital health system for the continuous quantification of physiological biomarkers, biological regulators, and analytes in real-time
US10784000	Medical system interface apparatus and methods to classify and provide medical data using artificial intelligence
US10790041	Method for analyzing and displaying genetic information between family members
US10790054	Method and apparatus for tracking of food intake and other behaviors and providing relevant feedback
US10791981	Neuro attack prevention system, method, and apparatus
US10796018	Methods and apparatus to generate an optimized workscope
US10799186	Detection of disease conditions and comorbidities
US10803145	Triggered responses based on real-time electroencephalography
US10806393	System and method for detection of cognitive and speech impairment based on temporal visual facial feature
US10806968	Electronic apparatus, program, method, system, and recording medium that output a difference between a left and right stroke of a swimmer
US10818382	Systems, methods, and apparatus for acquiring data
US10821247	Ventilator and operating method for a ventilator with a determination of cough attacks

US10825155	Providing a normalized image
US10825171	Method and system for visualizing a medical image data set
US10825329	Identifying data of a person using of a personal emergency device
US10832172	Systems and methods for arranging transport of adapted nutrimental artifacts with user-defined restriction requirements using artificial intelligence
US10835449	Modular components for medical devices
US10839944	Computerized interactive psychological assessment protocol—iPAP
US10849565	Schemes for obtaining estimation of physiological feature of specific user, establishing profile of physiological feature of specific user, and for establishing/managing/grading profiles of different users
US10849689	Technologies for preoperative implant size estimation
US10853414	Computer-implemented method for providing content in accordance with emotional state that user is to reach
US10853450	Radiographing apparatus, radiographing system, radiographing method, and program
US10855764	Multi-location exchange of medical images and data
US10856782	Multi-use monitor
US10861445	Interactive apparatus, interactive method, and interactive program
US10872408	Method and system for imaging and analysis of anatomical features
US10872690	System and method for remote visualization of medical images
US10874759	Sterilization process management
US10878564	Systems and methods for processing 3D anatomical volumes based on localization of 2D slices thereof
US10878941	Perpetual bioinformatics and virtual colorimeter expert system
US10878946	Graphical user interface with intelligent icons
US10891355	Pharmacy authentication methods and systems
US10892055	Motor function estimation information generation apparatus, motor function estimation system, motor function estimation information generation method, motor function estimation method and storage medium
US10896750	Systems and methods for medication management
US10896757	System for predicting an acute exacerbation of chronic obstructive pulmonary disease
US10902193	Automated generation of web forms using fillable electronic documents
US10902948	Systems and methods for automated programmable dispensing of medication
US10911393	Method and system for building user confidence
US10912496	Body characteristic measuring device, storage medium storing body characteristic measurement program, and body characteristic measurement method
US10922758	Distributed computing system for benefits processing using patient-centric profiling and machine learning
US10925499	System and method for using integrated sensor arrays to measure and analyze multiple biosignatures in real time
US10932970	Systems and methods for monitoring and controlling bed functions
US10936962	Methods and systems for confirming an advisory interaction with an artificial intelligence platform

US10937529	Family tree construction supporting method and family tree construction supporting device
US10938885	Mobile file transfer methods and apparatus
US10945679	Modular monitoring smart bed
US10956539	Nutrition tracking system
US10956821	Accurate temporal event predictive modeling
US10957435	Computer system and method for generating trigger alerts to maximize interactions with healthcare providers
US10959634	Wearable congestive heart failure management system
US10966680	Method for controlling the operation of a medical technology device, operator device, operating system and medical technology device
US10967187	Method and device for managing a self-termination period for ventricular arrhythmias
US10970635	Data processing for making predictive determinations
US10970785	Automated workflow in emergency medical services billing
US10971267	Systems and methods for aggregation of automatically generated laboratory test results
US10971271	Method and system for personalized blood flow modeling based on wearable sensor networks
US10973467	Method and system for automated diagnostics of none-infectious illnesses
US10973472	Artificial intelligence-based material decomposition in medical imaging
US10978197	Healthcare workflows that bridge healthcare venues
US10978199	Methods and systems for improving infection control in a building
US10979401	Apparatus and method for sharing personal electronic-data of health
US10984197	Information transmission device and non-transitory computer readable medium
US10997870	Monitoring and assessing subject response to programmed physical training
US11011265	Predicting prostate cancer risk of progression with multiparametric magnetic resonance imaging using machine learning and peritumoral radiomics
US11013430	Methods and apparatus for identifying food chewed and/or beverage drank
US11013494	Ultrasound imaging apparatus and ultrasound image display method
US11017906	Machine learning models in location based episode prediction
US11031108	Medicine management method and medicine management device
US11033455	Tools for case review performance analysis and trending of treatment metrics
US11034360	Method and apparatus that address motion sickness
US11043295	Method and providing unit for providing a virtual tomographic stroke follow-up examination image
US11049289	Systems and methods to semi-automatically segment a 3D medical image using a real-time edge-aware brush
US11055843	Capsule endoscope for determining lesion area and receiving device
US11069437	Distributed computer system for coordinating messaging and funding for healthcare expenses including funding via networked crowdsourcing
US11081218	Method and apparatus for verifying therapeutic compliance

US9047648	Measurement, collection, reporting and processing of health condition data
US9070306	Apparatus, method and system for microsurgical suture training
US9081889	Supporting the monitoring of a physical activity
US9155460	Activity regulation based on biometric data
US9256645	Patient-to-patient communities
US9275349	Healthcare system integration
US9412089	Method for securely linking hospital patients to their service provider accounts
US9582839	Notifying of health events in peer environments
US9710600	Healthcare gap management system
US9717845	Geofencing for medical devices
US9723035	Real-time meeting attendance reporting
US9734301	Intelligent presentation of alarms and messages in mobile health systems
US9747419	Privacy-compliant analysis of health by transaction data
US9747654	Virtual home safety assessment framework
US9773281	Accident detection and recovery
US9774589	Management method and arrangement for outpatient electrocardiography on a patient
US9814400	Method for improving accuracy of pulse rate estimation
US9833254	Controlled dissection of biological tissue
US9852261	Methods and systems for graphical medicine display
US9895111	Alarm notification apparatus, system and method for diagnostic monitoring
US9910862	System and method for processing location data
US9919111	Active lubrication of penetrating devices
US9928230	Variable and dynamic adjustments to electronic forms
US9931042	Monitoring baby physical characteristics
US9953650	Systems, apparatus and methods for using biofeedback for altering speech
US9955242	Communication system and method for using human telematic data to provide a hazard alarm/notification message to a user in a static environment such as in or around buildings or other structures
US10007765	Adaptive signal processing for infusion devices and related methods and systems
US10026509	Low bandwidth media stream transmission
US10034997	Pain hypervigilance desensitization system and method
US10045730	Methods and systems for rapid screening of mild traumatic brain injury
US10057272	Universal subscriber identity recognition and data classification
US10062244	Method and apparatus for associating data with time information
US10078733	System and methods for nutrition monitoring
US10095979	Modeling for flavor profiles
US10096383	Performing a health analysis using a smart floor mat
US10102769	Device, system and method for providing feedback to a user relating to a behavior of the user
US10102926	Detecting, analyzing and impacting improvement opportunities related to total cost of care, clinical quality and revenue integrity

US10103762	Lighting system for medical appointment progress tracking by Wi-Fi detection
US10108782	Smart pneumatic coupler
US10121559	Health condition alarm system
US10123748	Active patient risk prediction
US10129450	System and method for ophthalmological imaging adapted to a mobile processing device
US10136851	Integrated device to measure variations in neuromuscular control when tracing defined target patterns and a system and method of using the integrated device
US10152582	System and method for securing, and providing secured access to encrypted global identities embedded in a QR code
US10163181	Method and system for joint evaluation of a medical image dataset
US10171537	Segregation of electronic personal health information
US10171935	Healthcare proximity services
US10172569	System and method for assisting decisions associated with events relative to withdrawal of life-sustaining therapy using variability measurements
US10176301	Systems, methods, and software for providing a patient-reported outcome measure of dysphagia patients with eosinophilic esophagitis
US10192410	System for providing notification of a status of a patient examination and related methods
US10198779	Tracking proximity relationships and uses thereof
US10201307	System and method to measure, analyze, and model pulmonary function and disease utilizing temporal, spatial, and contextual data
US10204176	Method and system for determining olfactory perception signature
US10210311	System and method for automatically generating a prescription refill order via a reply electronic message
US10210588	Method and system for mobile high-energy radiation treatment environment
US10210952	System and method for performing automated contact and information delivery
US10217528	Optimizing state transition set points for schedule risk management
US10238333	Daily cognitive monitoring of early signs of hearing loss
US10244990	Systems and methods for rehabilitation of limb motion
US10245431	Real-time seizure prediction informed by hidden markov model event states
US10249388	Methods and systems for replenishing supplies in a product array
US10262110	Systems and methods for managing patient devices
US10265035	Method and device for motion control of a mobile medical device
US10269454	Method of configuring devices in an operating theater
US10271769	Performance information notification device and performance information notification method
US10276190	Sentiment analysis of mental health disorder symptoms
US10276261	Patient library interface combining comparison information with feedback
US10285904	Medication guidance system and method
US10290372	Systems and devices for controlling delivery of breast milk supplementation

US10307087	System for training spatial cognition, memory and spatiomotor coordination through drawing
US10307096	Biological state determining method and apparatus
US10311213	Cloud-based blood bank collaborative communication and recommendation
US10311974	Mobile health intelligent medical guide system and method thereof
US10314521	User condition evaluation system through touch screen device usage pattern change
US10315038	Clinical guidance user interfaces for neurostimulator programming
US10319477	Dynamic data-driven biological state analysis
US10326893	Image forming apparatus, information notifying method, and non-transitory computer-readable recording medium storing instructions therefor
US10335083	Systems and methods for detecting and analyzing biosignals
US10340035	Medical record storage with electronic signature
US10340042	System and method for coding and charging of certain medical procedures for a patient using a graphical interface
US10346754	Method and system for psychological evaluation based on music preferences
US10346975	Computerized analysis of computed tomography (CT) imagery to quantify tumor infiltrating lymphocytes (TILs) in non-small cell lung cancer (NSCLC)
US10360912	Presentation of indications with respect to questions of a communication session
US10366203	Method and procedure to find best fit medical service provider
US10380322	System for electronically administering health services
US10380323	System and method for providing audiovisual feedback
US10380536	Geo-segregated scheduled delivery optimization engine
US10383553	Data collection and analysis for self-administered cognitive tests characterizing fine motor functions
US10388183	Encouraging achievement of health goals
US10390703	Information notification system, information notification method, and display apparatus
US10390771	Safety monitoring with wearable devices
US10393776	Representative waveform providing apparatus and method
US10402417	Synthesizing data sources
US10403400	Conflicting nomenclature reconciliation system
US10403401	Medical apparatus with selectively enabled features
US10405745	Human socializable entity for improving digital health care delivery
US10417240	Identifying potential patient candidates for clinical trials
US10417387	System, method, and non-transitory computer-readable storage media for mobile check-in in retail store
US10419412	Integrating patient portal access into EHR graphical user interfaces
US10424400	Clinical trial investigators performance assessment
US10430553	Systems and methods for personalized care management
US10431109	Systems and methods for somatization identification and treatment
US10431343	System and method for interpreting patient risk score using the risk scores and medical events from existing and matching patients

US10441212	Method to determine positions and states of an activity monitoring device
US10441511	Systems, devices, and/or methods for managing medicament dispenser
US10444980	Biomechanical motion measurement and analysis for self-administered tests
US10445466	Systems and methods for post-operative outcome monitoring
US10445578	Physiological sensor controller, physiological sensor system and non-transitory computer readable medium
US10446268	Systems and methods for maintaining and processing proprietary or sensitive data in a cloud-hybrid application environment
US10448831	Wearable sensor
US10449372	Implantable medical device and method for managing advertising and scanning schedules
US10452816	Method and system for patient engagement
US10453567	System, methods, and devices for improving sleep habits
US10456086	Method, system and computer readable medium for predictive hypoglycemia detection for mild to moderate exercise
US10456309	Field configurable patient support apparatuses
US10460035	Determining adequacy of documentation using perplexity and probabilistic coherence
US10462495	Progressive lossless compression of image data
US10463280	Examination system, mobile apparatus and examination method
US10467382	Conceivable basal body temperatures and menstrual cycle
US10468128	Apparatus and method for presentation of medical data
US10478066	System and method for detection of cravings in individuals with addiction
US10485471	System and method for identifying ictal states in a patient
US10490305	Mobile medical identification and warning system
US10490306	Medical information translation system
US10492519	Customizing nutritional supplement shake recommendations
US10492711	Handheld portable impulse oscillometer
US10492723	Predicting immunotherapy response in non-small cell lung cancer patients with quantitative vessel tortuosity
US10503869	Cloud-to-local, local-to-cloud switching and synchronization of medical images and data
US10504622	Virtual medical assistant methods and apparatus
US10510348	Smart medical room optimization of speech recognition systems
US10510439	System and method for processing healthcare information
US10515099	Medical clinical trial site identification
US10516762	System for remotely running a service program
US10524722	Method and system for determining whether a caregiver takes appropriate measures to prevent patient bedsores
US10528848	Histomorphometric classifier to predict cardiac failure from whole-slide hematoxylin and eosin stained images
US10529446	Continuous health care plan coordination between patient and patient care team
US10534822	Search engine for searching an instrument index
US10540482	NFC tag reader for patient medication monitoring
US10540521	Selective enforcement of privacy and confidentiality for optimization of voice applications

US10542889	Systems, methods, and devices for remote health monitoring and management
US10546657	Systems, methods and computer program products for reducing the risk of persons housed within a facility being sexual predators or victims
US10548528	Smartphone device for body analysis
US10553314	Biological clock time calculating apparatus and biological clock time calculating method
US10558029	System for image reconstruction using a known pattern
US10561918	Method and apparatus for providing training to a surfer
US10565349	Cloud-to local, local-to-cloud switching and synchronization of medical images and data
US10565398	K-anonymity and L-diversity data anonymization in an in-memory database
US10565399	Bottom up data anonymization in an in-memory database
US10565849	Determining use of medication through radio frequency passive modulation
US10568570	Methods and systems for providing a preferred fitness state of a user
US10575788	Compressive sensing of quasi-periodic signals using generative models
US10576350	Simulation apparatus, simulation method, and simulation system
US10579203	Wellness mirror
US10580131	Convolutional neural network for segmentation of medical anatomical images
US10580521	Emergency information and identification device and method
US10588527	Cardiac arrhythmia report
US10593431	Methods and systems for causative chaining of prognostic label classifications
US10595767	Apparatus and method for recognizing symptoms of dementia and providing dementia patient management service
US10600330	Method and apparatus for assessing cardiopulmonary fitness
US10602974	Detection and management of memory impairment
US10604924	Smart urinals and methods of making and using same
US10606819	Methods and apparatus for event management
US10607728	Alert optimizer
US10607729	System and method for automated generation of a secure message
US10610146	Utilizing wearable devices in an internet of things environment
US10610161	Diagnosis using a digital oral device
US10614396	Support for requirements of people in a public site or venue
US10614918	Authentication of medication delivery vehicle to facilitate medication release
US10614920	System and method for computing survivorship risk associated with delaying therapy in breast cancer
US10617299	Telehealth cart that supports a removable tablet with seamless audio/video switching
US10622107	Tools for medical device configuration
US10627985	Manipulation of a virtual object during a conversational session
US10629305	Methods and apparatus for self-learning clinical decision support
US10631723	Subjective visual assessment system and method
US10632277	Virtual reality guided meditation in a wellness platform

US10636524	Method and system for optimized wake-up strategy via sleeping stage prediction with recurrent neural networks
US10639471	Simulating a target coverage for deep brain stimulation
US10639482	Implantable medical device and method for managing advertising and scanning schedules
US10643741	Systems and methods for a web platform hosting multiple assessments of human visual performance
US10643749	Computer network architecture with machine learning and artificial intelligence and automated insight generation
US10643751	Computer network architecture with benchmark automation, machine learning and artificial intelligence for measurement factors
US10646199	Systems and methods for remote graphical feedback of ultrasound scanning technique
US10646650	Multivariable artificial pancreas method and system
US10650808	Dynamically configurable interface for structured note dictation for multiple EHR systems
US10650928	Computer network architecture for a pipeline of models for healthcare outcomes with machine learning and artificial intelligence
US10652237	Continuous authentication system and method based on BioAura
US10658076	System and method for increasing efficiency of medical laboratory data interpretation, real time clinical decision support, and patient communications
US10658082	Information processing apparatus, information processing system, and method for providing information
US10663730	Head mounted display device
US10667687	Monitoring system for physiological parameter sensing device
US10671703	Maintaining stability of health services entities treating influenza
US10671705	Customizing recipe recommendations
US10671893	System and method for recipe to image associations
US10685088	Console device of portable type, control method and radiographic imaging system
US10685747	Facilitating patient monitoring
US10691407	Methods and systems for analyzing speech during a call and automatically modifying, during the call, a call center referral interface
US10692211	Intra-perinodular textural transition (IPRIS): a three dimensional (3D) descriptor for nodule diagnosis on lung computed tomography (CT) images
US10692603	Method and system to identify frailty using body movement
US10695005	Non-invasive blood sugar measuring method and fingertip measuring probe
US10696397	Unmanned aerial vehicle and medical support method
US10698078	Clinic wait-time visibility and reservations
US10698983	Wireless earpiece with a medical engine
US10702695	Wireless implantable taste system
US10706476	Computer implemented methods and systems for bundled payment adjudication
US10706967	Apparatus and system for processing diagnostic data on the basis of medical interview data and camera data

US10713220	Intelligent electronic data capture for medical patient records
US10716493	Systems, methods, and apparatuses for peripheral arterial disease detection and mitigation thereof
US10716643	Surgical projection system and method
US10719580	Medical image manager with automated synthetic image generator
US10720242	Systems and methods for modeling and predicting effective treatments for schizophrenia and other disorders
US10726359	Computer network architecture with machine learning and artificial intelligence and automated scalable regularization
US10733267	Surgical data control system
US10733268	Self-diagnosis apparatus for health tester and self-diagnosis method for health tester
US10736548	Ketone measurement system for monitoring medical conditions
US10747403	Adaptable user input interface
US10748217	Systems and methods for automated body mass index calculation
US10751141	Medical device tray tracking system and method of use
US10751259	Smart bottle system and methods thereof
US10755817	Systems, apparatuses and methods for predicting medical events and conditions reflected in gait
US10756957	Context based notifications in a networked environment
US10761084	Electronic consent
US10770171	Augmenting datasets using de-identified data and selected authorized records
US10770172	Apparatus and method for health management
US10770184	Determining patient condition from unstructured text data
US10776455	Method and system for managing the use of dietary supplements and drugs through mobile devices
US10776607	Predicting prostate cancer biochemical recurrence and metastasis with computer extracted features from tumor nuclei and benign regions
US10779733	Telemedicine application of video analysis and motion augmentation
US10780282	Systems and methods for steering electrical stimulation of patient tissue and determining stimulation parameters
US10783225	Method and system for drug screening
US10783323	Analysis system
US10783627	Predicting cancer recurrence using local co-occurrence of cell morphology (LoCoM)
US10783994	Atomization system and device having single authentication mechanism
US10783995	Atomization method having authentication mechanism
US10786169	Bio-processor for measuring each biological signals and wearable device having the same
US10786649	Immersive system for restorative health and wellness
US10790050	Aggregation servers providing information based on records from a plurality of data portals and related methods and computer program products
US10790051	Medical support system, information terminal apparatus, patient image data acquisition method and patient information acquisition method
US10791933	Spectrometry systems, methods, and applications
US10796789	Method and apparatus for initiating a medicine control action

US10796798	System and method of a virtual sand tray
US10796802	Computer decision support for determining surgery candidacy in stage four chronic kidney disease
US10799184	System and method for the identification and subsequent alerting of high-risk critically ill patients
US10803148	Method and system for motivating proper prescription drug usage
US10806939	Independent readiness determination for automated external defibrillator deployment
US10807095	Making and tracking assay card
US10810767	Machine-learned network for Fourier transform in reconstruction for medical imaging
US10811139	Computer network architecture with machine learning and artificial intelligence and dynamic patient guidance
US10812562	Bandwidth dependent media stream compression
US10818013	Systems and methods for processing data extracted from frames captured from video signals
US10825554	Methods of feature extraction and modeling for categorizing healthcare behavior based on mobile search logs
US10825559	Interiorly positioned machine-readable data labels for prescription compliance
US10831755	Data processing apparatus and data processing method
US10832807	Remote user monitoring system
US10832822	Methods and systems for locating therapeutic remedies
US10832823	Tracking and authentication system
US10834026	Artificial intelligence assisted service provisioning and modification for delivering message-based services
US10834549	Internet of things for healthcare monitoring applications based on RFID clustering scheme
US10839164	Automated translation of clinical trial documents
US10839513	Distinguishing hyperprogression from other response patterns to PD1/PD-L1 inhibitors in non-small cell lung cancer with pre-therapy radiomic features
US10839707	Augmented reality system and method for exposure therapy and motor skills training
US10842378	Digital healthcare practice system for digital citizens
US10842712	Automated medicine portfolio and organizer
US10846367	Predicting recurrence in early stage non-small cell lung cancer (NSCLC) with integrated radiomic and pathomic features
US10847256	System and computer program for healthcare information management in a multi-party healthcare network
US10847258	System, methods, and apparatuses for medication records tracking
US10847261	Methods and systems for prioritizing comprehensive diagnoses
US10847266	Systems and methods for tracking goals
US10847268	Patient information exchange system and associated methods
US10849425	Motorized modular smart shelving and storage unit
US10853518	Systems and methods for providing secure access to data using encrypted codes
US10854336	Methods and systems for customizing informed advisor pairings

US10857426	Methods and systems for generating fitness recommendations according to user activity profiles
US10860621	Systems and methods for database management
US10860741	Telecommunication privacy protection using a high-level programming interface
US10861593	Utilizing a machine learning model to identify unhealthy online user behavior and to cause healthy physical user behavior
US10867146	Atomization system having double authentication mechanism
US10867699	Medication list generator
US10878458	Associating taste with consumable records
US10885037	Detection method, detection apparatus, and non-transitory computer-readable storage medium
US10885521	Method and apparatuses for interactive ordering of dental aligners
US10893967	Technological congenital talipes equino varus (CTEV) treatment success rate improvement
US10896763	System and method for providing model-based treatment recommendation via individual-specific machine learning models
US10902065	Systems and methods for computational risk scoring based upon machine learning
US10902589	Medical image diagnosis apparatus and medical image processing apparatus
US10902590	Recognizing pathological images captured by alternate image capturing devices
US10902591	Predicting pathological complete response to neoadjuvant chemotherapy from baseline breast dynamic contrast enhanced magnetic resonance imaging (DCE-MRI)
US10902941	Interventional radiology structured reporting workflow utilizing anatomical atlas
US10905348	User interfaces for mobile and wearable medical devices
US10909680	Method and system for assessing burn wound depth
US10909985	Systems and methods for real-time patient record transcription and medical form population via mobile devices
US10912283	Technologies for managing the health of livestock
US10912626	Integrated digital workflow for providing dental restoration
US10916139	System and method for post-vehicle crash intelligence
US10916342	Systems and methods for analyzing network packets
US10918877	Battery lock for ambulatory medical device
US10921408	Probabilistic atlases of post-treatment multi-parametric MRI scans reveal distinct hemispheric distribution of glioblastoma progression versus pseudo-progression
US10923223	Data-enabled syringe collection container and systems using same
US10936180	User interface for medical information
US10936572	Method, apparatus, and computer program product for improved tracking of state data
US10937526	Cognitive evaluation of assessment questions and answers to determine patient characteristics
US10937533	Localized learning of medication routine

US10937543	Systems and methods for predictive and automated and centralized real-time event detection and communication
US10937545	Method and system for centralized patient monitoring management
US10937553	Systems and methods to organize the flow and processing of queued messages that have been received from healthcare entities
US10940093	Apparatus and method for dispensing pharmaceuticals and other medications
US10949622	Systems and methods for segmenting documents
US10950346	Utilizing artificial intelligence for data extraction
US10952625	Apparatus, methods and computer programs for analyzing heartbeat signals
US10955995	System and method for user interface management for medical care management devices
US10956437	Systems and methods for implementing secure database requests in a role-based application environment
US10957443	Medical imaging apparatus and method for providing a range of parameters for operation thereof
US10958643	Biometric patient identity verification system
US10959647	System and method for sensing and responding to fatigue during a physical activity
US10963737	Systems and methods using weighted-ensemble supervised-learning for automatic detection of ophthalmic disease from images
US10964412	Population-based medical rules via anonymous sharing
US10964419	Intelligent container and method for medicine dispensing control
US10964421	Method and apparatus for delivering a substance to an individual
US10964426	Methods and systems to sense situational awareness with a dual doppler and control for optimized operations
US10964427	Integrated systems and methods for evolving state protocols and decision support
US10970838	Hough transform-based vascular network disorder features on baseline fluorescein angiography scans predict response to anti-VEGF therapy in diabetic macular edema
US10978180	Enabling data flow in an electronic referral network
US10978202	Method and system for concurrently monitoring multiple obstetrics patients
US10980491	Trend analysis for hydration monitoring
US10980687	Techniques for generating auditory and haptic output with a vibrational panel of a patient support apparatus
US10981014	Dual sequential defibrillation systems and methods
US10983020	System and method for reconstruction of explosion blast and blast loading on humans using pressure sensor data
US10984679	Medical simulation system, method and use
US10986994	Stress detection and alleviation system and method
US10987014	Information processing apparatus, information processing system, and non-transitory computer readable medium
US10990884	Methods and systems for identifying compatible meal options
US10994077	Enhanced confirmations for touchscreen infusion pump
US10998101	Health management

US11000229	Systems, methods, and apparatuses for integrating a body joint rehabilitation regimen with a wearable movement capture device operable in conjunction with a cloud based computing environment
US11003741	System and method for tracking wellness activity using a fitness tracking device
US11004563	Adaptive pain management and reduction based on monitoring user conditions
US11004567	System and method for processing wireless backscattered signal using artificial intelligence processing for activities of daily life
US11007121	Systems, methods and apparatus for substance dependence cessation management
US11007319	Systems and methods for managing diabetes
US11013451	Marker-less monitoring of movement disorders
US11017014	Using shared metadata to preserve logical associations between files when the files are physically stored in dynamically-determined cloud-based storage structures
US11017171	Relevancy as an indicator for determining document quality
US11019005	Proximity triggered sampling
US11020003	Patient monitoring and communication system
US11026619	Determining cardiac pacing capture effectiveness of an implantable medical device
US11031111	Systems and methods for optimizing clinical workflow using a prioritization engine
US11033206	System, apparatus, and method for monitoring and promoting patient mobility
US11036831	Systems, methods, and apparatuses for combining medication adherence and diagnostic lab scores to determine intervention
US11037260	Emergency response system
US11037369	Virtual or augmented reality rehabilitation
US11037676	Healthcare facility patient and visitor experience management and optimization
US11037686	Information processing apparatus, information processing method, and information processing program
US11039764	Biometric identification in medical devices
US11039780	System and method for seizure detection and responsivity testing
US11039791	Local signal-to-noise peak detection
US11042908	System and method for health risk evaluation
US11043293	Healthcare provider interface for treatment option and authorization
US11043305	Systems and methods for rapid gene set enrichment analysis
US11049239	Deep neural network based identification of realistic synthetic images generated using a generative adversarial network
US11049595	Interventional radiology structured reporting workflow
US11049607	System and method for facilitating patient discharge with the aid of a digital computer
US11049608	3D augmented reality document interaction
US11051739	Neural mapping

US11055844	Predicting response to immunotherapy using computer extracted features of cancer nuclei from hematoxylin and eosin (HandE) stained images of non-small cell lung cancer (NSCLC)
US11056238	Personality based wellness coaching
US11058891	Systems and methods for cloud-based radiation therapy treatment planning
US11062796	Multimode mobile electronic medical record system and working method thereof
US11062802	Medical resource forecasting
US11062807	Systems and methods for determining biometric parameters using non-invasive techniques
US11064315	Method of generating exercise related community and electronic device for providing same
US11064887	Interactive electronic treatment assistance for benign prostatic hyperplasia and advanced prostate cancer
US11064908	Apparatus and method for obtaining antioxidant index
US11064941	Information processing apparatus
US11065062	Systems and methods of tracking and analyzing use of medical instruments
US11069430	Patient state representation architectures and uses thereof
US11069440	Application for measuring medical service provider wait time
US11069446	Predicting addiction relapse and decision support tool
US11071492	Apparatus and method for processing physiological information, and computer readable medium
US11074656	Using machine learning to classify insurance card information
US10015567	Mobile health system
US10016341	Systems and devices for controlling delivery of breast milk supplementation
US10123702	Patient monitoring system
US10130305	Device and methods for automated testing
US10180688	Optimization through use of conductive threads and biometric data
US10210955	Methods for diagnosing zika virus
US10213150	Early allergy detection, notification and management systems and methods
US10231664	Method and apparatus to predict, report, and prevent episodes of emotional and physical responses to physiological and environmental conditions
US10232123	Device and system for drug information detection
US10248759	Medical imaging reference retrieval and report generation
US10251610	Contact tracing analytics
US10269456	System for identification of treatment and resource deployment based on treatment interaction
US10276262	Facilitating access to patient medical information
US10282516	Medical imaging reference retrieval
US10282843	System and method for lesion analysis and recommendation of screening checkpoints for reduced risk of skin cancer
US10283221	Risk assessment based on patient similarity determined using image analysis

US10296717	Automated prescription workflow for device management
US10297353	Estimation of glucose rate of appearance, endogenous glucose production and insulin dependent glucose utilization from continuous glucose sensors and subcutaneous insulin deliver
US10325470	System for monitoring health status of a person within an enclosed area
US10332628	Method and system for control of an electromechanical medical device
US10332631	Integrated medical platform
US10341204	Methods and apparatus for device management
US10341489	Agent application and integrated call processing platform
US10342492	Floormat physiological sensor
US10347108	Monitoring user activity using wearable motion sensing device
US10349859	Simulation and diagnostic tool for sensorimotor diseases
US10354512	Peripheral alarm devices for generating alarms and monitoring systems including alarm devices
US10357433	Security band for securing and detecting access to a container
US10362769	System and method for detection of disease breakouts
US10394324	Configuration for adjusting a user experience based on a biological response
US10395515	Sensor aggregation and virtual sensors
US10395770	Systems and methods for monitoring a patient
US10410451	System and method for securely controlling container unlocking based on biometric data
US10418133	System and method for monitoring containment of an epidemic
US10420474	Systems and methods for gathering and interpreting heart rate data from an activity monitoring device
US10424406	Methods and systems for watermarking of anonymized datasets
US10424412	Privacy-controlled care requester communication system with on-demand caregiver conferencing and real-time vital statistics alert
US10426358	Internet of things (IoT) personal tracking apparatus, system, and method
US10426410	System and method to train system to alleviate pain
US10426424	System and method for generating and performing imaging protocol simulations
US10426575	Systems and methods for determining an orthodontic treatment
US10431115	Systems and methods for using a smart refrigerator to implement accountability measures associated with intake objectives
US10437899	System for distributed server data management with multi-user access
US10437957	Driving patient campaign based on trend patterns in patient registry information
US10438507	Health tracking system including subjective nutrition perception tool
US10445471	System, method, and non-transitory computer-readable storage media for mobile check-out in retail store
US10447972	Infant monitoring system
US10448887	Biometric customer service agent analysis systems and methods
US10448898	Methods and systems for predicting a health condition of a human subject
US10456084	Intelligent hospital bed

US10460074	Methods and systems for predicting a health condition of a human subject
US10463312	Methods and systems for predicting mortality of a patient
US10468136	Method and system for data processing to predict health condition of a human subject
US10475538	System for predicting computed tomography data from surface data
US10490307	Cognitive-based tools for care and charge of incontinent individuals or animals
US10493242	Respiratory airway and intravenous extension system (RAIVES)
US10496954	Systems and methods for medical technology dynamic swarming tags
US10504623	Orthopaedic instrument system and method for determining duration of use of an orthopaedic instrument
US10515723	Electronic group management system
US10522246	Concepts for extracting lab data
US10528702	Multi-modal communication with patients based on historical analysis
US10548533	Method and system for removing corruption in photoplethysmogram signals for monitoring cardiac health of patients
US10553319	Artificial intelligence systems and methods for vibrant constitutional guidance
US10555702	Methods and systems for characterizing the quality of an electrocardiogram signal
US10558784	Time and motion data fusion for determining and remedying issues based on physical presence
US10558785	Variable list based caching of patient information for evaluation of patient rules
US10561333	Procedure and a portable apparatus for diagnosis of seizures
US10567961	System for electroencephalogram patterning recognition for authentication
US10572632	Using augmented reality interface and real-time glucose data to control insulin delivery device
US10573003	Systems and methods for computational pathology using points-of-interest
US10580129	Hybrid spectroscopy imaging system for intraoperative epileptic cortex detection
US10580137	Systems and methods for detecting an indication of malignancy in a sequence of anatomical images
US10580533	Image-based food analysis for medical condition warnings
US10592691	Method and system for granting a user access to a medical system
US10600507	Cognitive notification for mental support
US10600509	Wearable device for automated construction of training plans and method of using the same
US10600512	Network-based calculation of prevalence of repeated medical imaging
US10602976	Personalized posture correction
US10610457	System and method for storing medication and alerting users and caregivers for timely intake
US10617294	System and method for determining the spherical power of eyes based on measured refractive error
US10617350	Method and apparatus for managing a biological condition

US10617362	Machine learned optimizing of health activity for participants during meeting times
US10621645	System, method, and non-transitory computer-readable storage media for endless aisle of products in retail store
US10621885	Wearable sensor monitoring and data analysis
US10622101	Electronic medical record transfer systems and methods
US10628738	Stance classification of multi-perspective consumer health information
US10650844	Method and response recommendation system for recommending a response for a voice-based user input
US10650918	Crowdsourcing health improvements routes
US10653583	Programmable pill box assembly
US10658079	Crowd-based recommendations of a version of firmware for medical devices
US10665332	Systems and methods for facilitating physiological data collection prior to appointment
US10671609	Methods and apparatuses for facilitating compilation of measure data
US10672158	Object interactions
US10679350	Method and apparatus for adjusting a model of an anatomical structure
US10679740	System and method for patient privacy protection in medical images
US10679750	System, method, and storage medium to generate predictive medical feedback
US10679758	System and method for supporting decisions during a catheterization procedure
US10685089	Modifying patient communications based on simulation of vendor communications
US10686743	Data aggregation from multiple entities
US10687756	Risk tolerance simulation and baseline
US10691650	Method and server for vendor-independent acquisition of medical data
US10692014	Active user message diet
US10692606	Stress level reduction using haptic feedback
US10699595	Monitoring and status detection for consumable items
US10706964	Constrained optimization for provider groups
US10716501	System and method for classification and quantitative estimation of cognitive stress
US10721346	Integrated platform for aggregating context information
US10726951	Method and system for generating polygons within a geographic region that satisfy a query
US10729368	Computer systems and computer-implemented methods for psychodiagnostics and psycho personality correction using electronic computing device
US10734101	Method and system to process electronic medical records for predicting health conditions of patients
US10734119	Body centric communication and authentication with an active implanted medical device
US10741273	User friendly medical records systems, apparatuses and methods
US10742687	Determining a device profile and anomalous behavior associated with a device in a network
US10747850	Medication scheduling and alerts

US10748646	Chunk-wise transmission of time-series data to mobile devices
US10748659	Method and system for predicting risk of thrombosis
US10758159	Measuring somatic response to stimulus utilizing a mobile computing device
US10758176	Medication vending device that integrates with a medical diagnostics device
US10762985	System, method, and non-transitory computer-readable storage media for generating accounts for use in computer systems
US10762990	Systems and methods for identifying markers using a reconfigurable system
US10769245	Systems and methods for monitoring medical adherence and compliance
US10769966	Apparatus and method of simulating cardiac phenomena
US10777309	Computing system for generating delayed electronic prescriptions
US10782708	Automatic shutoff continuous positive air pressure system
US10783137	Identity management
US10783154	Transposing of ranking models
US10783633	Automatically linking entries in a medical image report to an image
US10786222	Methods, systems, and apparatus for automatically assessing quality of imaging systems
US10790048	Patient treatment recommendations based on medical records and exogenous information
US10791994	Method and apparatus for mitigating behavior adverse to a biological condition
US10796794	Deletion of medical images in cloud-based storage
US10799182	Video-based physiological measurement using neural networks
US10817669	Automatic classification of adverse event text fragments
US10818396	Method and system for natural language processing for the evaluation of pathological neurological states
US10825173	Automatically linking a description of pathology in a medical image report to an image
US10825251	Systems and methods for providing medical information and for performing a medically-related process using augmented reality technology
US10825556	Clinical grade consumer physical assessment system
US10825564	Biometric characteristic application using audio/video analysis
US10825566	Ensuring availability of medical devices to receive maintenance
US10828000	Medical image data analysis
US10828009	Monitoring body sounds and detecting health conditions
US10831872	Automated voice-activated medical assistance
US10831994	Naming convention reconciler
US10832579	Integrated ambulance tracking system
US10832590	Monitoring food intake
US10832808	Automated selection, arrangement, and processing of key images
US10832820	Cognitive personal health limit detector and trainer using a wearable smart mobile device
US10839352	Intelligent file-level validation
US10849508	System and method for continuous monitoring of blood pressure

US10860689	Automatic medication prescription processing and profile management for persons under legal guardianship based on transmitted digital images
US10867703	System and method for predicting health condition of a patient
US10878062	Systems and methods for analyzing captured biometric data
US10878311	Image quality-guided magnetic resonance imaging configuration
US10878569	Systems and methods for automatic detection of an indication of abnormality in an anatomical image
US10878947	Triggered sensor data capture in a mobile device environment
US10878952	System and method for exercise tracking
US10881357	Systems and methods for monitoring the health of vehicle passengers using camera images
US10886027	Predicting engagement items for care providers
US10891845	Mouth and nose occluded detecting method and system thereof
US10892047	Crypto-based ACL for patient treatment and follow-up care
US10892057	Medical risk factors evaluation
US10892060	System and method for providing notifications to a user based upon the location of the user
US10902714	Systems and methods for reducing adverse health events in first responders
US10902943	Predicting interactions between drugs and foods
US10905376	Physical parameter measuring
US10910096	Augmented reality computing system for displaying patient data
US10911422	Data trust score
US10916335	Hashhealth system
US10922996	Systems and methods for generating a presentation of an energy level based on sleep and daily activity
US10929471	Sequential pattern mining
US10930390	Task management tool for patient discharge
US10932890	Enhanced techniques for determination of dental margins in intraoral scans
US10932965	Systems and methods for configuring a wheelchair
US10937531	System and method for timely notification of treatments to healthcare providers and patient
US10937539	Automated activity suggestions based on wearable connectivity with vehicle systems
US10939875	Optimized real peak detection in cyclic biological data signals
US10943697	Determining information based on an analysis of images and video
US10943700	Method for apparatus, server and method of providing self-diagnosis result and medical information
US10945604	Method and system for brain attack triage (BAT)
US10949581	Tool for configuring computational models
US10950355	Simulation method and system
US10956031	Graphical user interface for data entry into an electronic health records application
US10957451	Patient healthcare interaction device and methods for implementing the same
US10972891	Automated medical item delivery apparatus

US10973468	Deep learning approach for long term, cuffless, and continuous arterial blood pressure estimation
US10978203	Power-efficient health affliction classification
US10978209	Method of an interactive health status assessment and system thereof
US10984076	Immunization web portal
US10984341	Detecting complex user activities using ensemble machine learning over inertial sensors data
US10984900	Systems and methods for refilling prescriptions by text message
US10987029	Graphical user interface of mobile device for improving interaction with a prosthetic or orthotic device
US10987594	Systems and methods to elicit physical activity in users acting as caretakers of physical objects
US10990772	Maintaining medical device chain of custody using multiple identification encoding technologies
US10997720	Medical image classification method and related device
US10998103	Medical risk factors evaluation
US11000226	Methods and apparatus for alignment of sensor communication devices with implanted bone healing sensors
US11006875	Technologies for emotion prediction based on breathing patterns
US11013417	Energy-efficient multisensory system for mobile health-monitoring
US11017116	Secure integration of diagnostic device data into a web-based interface
US11018954	Queue prioritization system for managing language interpretation services
US11023946	Social media healthcare analytics
US11030493	Estimating sequential blood-sugar levels using images of meals
US11031134	Monitoring individuals for water retention management
US11033187	Text to braille converter
US11037086	Method and system for evaluating the performance of a reader of screening mammograms
US11037658	Clinical condition based cohort identification and evaluation
US11037666	Method and apparatus for detecting diverted drugs
US11037675	Screening-based availability of communications device features
US11042447	Retention rule compliance of record deletion based on deletion log
US11042778	Generating realistic organ x-ray angiography (XA) images for deep learning consumption
US11043299	Reducing network security risks in a medical care network
US11048939	Health trends identification
US11049599	Zero knowledge multi-party prescription management and drug interaction prevention system
US11050875	Conducting automated content processing to identify policy compliance
US11056222	Machine learning systems for predictive modeling and related methods
US11056231	Utilizing IOT devices for detecting an emergency and locating a convenient parking space
US11056232	Medication usage auditing based on analysis of infusion pump network traffic
US11061537	Interactive human visual and timeline rotor apparatus and associated methods

US11062591	Systems and methods for generating device-agnostic data and a training dashboard from wearable and non-wearable devices
US11069447	Systems and methods for topology-based clinical data mining
US11071823	Wearable band for automatic injection of medicine
US11075007	Dynamic selection of virtual agents in a mutli-domain expert system
US11075992	System and method for providing medical attention
US11076800	Method of providing a physiotherapeutic protocol
US11080369	Enterprise-level licensing for a barcode decoder within a mobile device application
US11081214	Systems and methods for secure prescription status updates using a mobile device
EP3276515	ENURESIS ALERTS, AMELIORATION, AND TRAINING
EP3363351	METHOD AND SYSTEM FOR DETECTION OF CORONARY ARTERY DISEASE IN A PERSON USING A FUSION APPROACH
EP3416172	TECHNOLOGY FOR MANAGING PRIORITIES FOR ON-SITE PRESCRIPTION PICKUP
EP3528257	COMPUTER PROGRAM, SYSTEM AND METHOD FOR MANAGING MEDICAL DATA RELATED TO A PATIENT
EP2905710	Device for processing information provided with one or more physiological data sensors
EP3330974	SYSTEM AND METHOD FOR PHYSIOLOGICAL MONITORING
EP3401917	REMOTE WORKER MONITORING APPARATUS
EP3425637	ELECTRONIC SYSTEM AND METHOD FOR CLASSIFYING A PHYSIOLOGICAL STATE
EP3441897	METHOD AND DEVICE FOR IDENTIFYING CANCER
EP3477658	A METHOD AND APPARATUS FOR OPTIMISING INTERVENTION
EP3493217	METHOD AND SYSTEM FOR INJURY RISK PREDICTION AND CORRECTIVE ACTION FOR HIGH CONTACT TYPE ACTIVITY
EP3591657	SYSTEM AND METHOD FOR MANAGING A DIGITAL MEDICATION PLAN
EP3654347	A SYSTEM AND METHOD FOR PERSONALIZED MONITORING OF LIFE-THREATENING HEALTH CONDITIONS IN PATIENTS WITH CHRONIC KIDNEY DISEASE
EP3754665	APPARATUS AND METHOD FOR PERSONALIZED DIET RECOMMENDATIONS
EP3349218	METHOD AND SYSTEM FOR CONFIGURING A MEDICAL DATASET PROCESSING WORKFLOW
EP3349219	METHOD AND SYSTEM FOR DETECTING AN EXAMINATION PARAMETER FOR A MEDICAL IMAGING EXAMINATION
EP3425636	METHOD AND DEVICE FOR CATEGORISING HEAD SHAPE
EP3432313	TRAINING AN IMAGE ANALYSIS SYSTEM
EP3457405	METHOD FOR IDENTIFYING AN EXOGENOUS STRUCTURE, SYSTEM FOR IDENTIFYING AN EXOGENOUS STRUCTURE, COMPUTER PROGRAM PRODUCT AND COMPUTER-READABLE MEDIUM
EP3460801	PROVIDING SUBJECT-SPECIFIC INFORMATION
EP3460804	PROVIDING SUBJECT-SPECIFIC INFORMATION

EP3499508	COMPUTER-IMPLEMENTED METHOD AND APPARATUS FOR GENERATING INFORMATION
EP3499514	IMAGE-BASED AND DEMOGRAPHIC PREDICTION-BASED IMPLANT SIZE DETERMINATION
EP3503114	APPARATUS AND METHOD FOR DETECTING AN ONGOING ISCHEMIC STROKE IN A SUBJECT OR DETECTING WHETHER A SUBJECT IS AT RISK OF DEVELOPING AN ISCHEMIC STROKE
EP3528263	PROVIDING A TRAINED VIRTUAL TISSUE ATLAS AND A SYNTHETIC IMAGE
EP3537445	A SYSTEM FOR TRACKING TASKS PERFORMED BY A USER
EP3545841	METHOD FOR EARLY DIAGNOSIS OF AUTISM SPECTRUM DISORDER IN CHILDREN
EP3561814	INCREASED ADHERENCE IN CLINICAL TRIALS
EP3573070	HANDS DISPLAY OF SMARTWATCH FOR GLUCOSE MONITORING
EP3573071	AN ELECTROCARDIOGRAPHY TELEMETRY SYSTEM AND METHOD
EP3584796	DETERMINING MEDICAL TREATMENT PREFERENCES
EP3588512	A COMPUTER-IMPLEMENTED METHOD, AN APPARATUS AND A COMPUTER PROGRAM PRODUCT FOR ASSESSING THE HEALTH OF A SUBJECT
EP3591658	METHOD AND APPARATUS FOR HAND FUNCTION MONITORING
EP3594955	PATIENT INFORMATION SYSTEM
EP3594957	PATIENT LABELING DEVICE
EP3629274	SMART CONTRACT BASED ORDERING OF MEDICAL PROCEDURES
EP3629332	SAFE DISPENSING OF A SUBSTANCE
EP3651157	PROCESSING OF ANONYMISED PATIENT DATA GENERATED BY A MOBILE MEDICAL DEVICE
EP3654346	DETERMINING A TRANSFORMATION MATRIX
EP3671752	TRAINING SYSTEM FOR STIMULATING EYE MOVEMENT AND FOR INDEPENDENT TRAINING OF EYE MOVEMENT MUSCULATURE
EP3671759	METHOD FOR MONITORING A USER, METHOD FOR STORING AND/PROVIDING PERSONAL DATA OF A USER AND MONITORING SYSTEM
EP3678142	DEVICE, SYSTEM AND METHOD FOR GENERATING A PERSONALIZED ACTION PLAN
EP3680915	METHOD, SYSTEM, CLIENT COMPUTING DEVICE, AND SERVER COMPUTING DEVICE FOR ENHANCING THE EFFICIENCY OF THE USE OF DIGITAL EQUIPMENT BY CHANGING HABITS OF A USER OF A CLIENT COMPUTING DEVICE
EP3706138	SYSTEM, DEVICE AND METHOD FOR OPERATION OF A PERSONAL CARE DEVICE
EP3751578	CARDIOPULMONARY RESUSCITATION ASSESSMENT SYSTEM, METHOD AND COMPUTER PROGRAM
EP3758014	FOOD PROCESSING FOR DYSPHAGIA PATIENTS

EP3770911	METHOD FOR REAL-TIME MONITORING OF A USER ON A EXERCISE DEVICE WITH A MOBILE TERMINAL, MONITORING SYSTEM FOR REAL-TIME MONITORING OF A USER WHILE TRAINING ON AN EXERCISE DEVICE, TRAINING SYSTEM CONSISTING OF A MONITORING SYSTEM AND AN EXERCISE DEVICE AND USE OF A MONITORING SYSTEM OR A TRAINING SYSTEM FOR CARRYING OUT SAID METHOD
EP3786976	DATA PROCESSING IN A SYSTEM FOR DYNAMIC POSTUROGRAPHY
EP3789092	METHOD OF TRAINING ORAL MOTOR FUNCTION IN A HANDHELD DEVICE
EP3792926	METHOD AND ARRANGEMENT FOR EVALUATING DATA OF ONE OR MORE IOT DEVICES OF A USER
EP3838157	METHOD AND CALCULATING DEVICE FOR PROVIDING OBJECT DYNAMICS INFORMATION RELATING TO DYNAMICS OF AN OBJECT THAT IS ARRANGED ON A PATIENT HANDLING SYSTEM OF A MEDICAL IMAGING DEVICE
EP3839967	PREDICTING THE PROBABILITY OF A BRAIN INJURY OF A SUBJECT RESULTING FROM A FALL
EP3839975	DEVICE MONITORING SYSTEM
EP3845100	FOOD PROCESSING APPARATUS AND METHOD
EP3396567	A WARNING SYSTEM AND METHOD FOR ISSUING A MESSAGE RELATING TO AN ALARM
EP3181202	A DEVICE FOR EXERCISING A REACTION TO STIMULI AND THE RELATED METHOD
EP3301680	SYSTEM FOR ASSISTING PLANTAR FLEXION IN THE UPPER ANKLE JOINT
EP3503116	APPARATUS, METHOD AND SYSTEM FOR OBTAINING INFORMATION ON AN EMERGENCY SITUATION
EP3506314	SYSTEMS AND METHODS FOR DETECTING ANOMALY IN A CARDIOVASCULAR SIGNAL USING HIERARCHICAL EXTREMES AND REPETITIONS
EP3301598	METHOD AND SYSTEM FOR CONTROL OF AN ELECTROMECHANICAL MEDICAL DEVICE
EP3312842	METHOD FOR PREPARING AN INDICATION OF THE EXPOSURE OF A PERSON TO TOXIC SUBSTANCES IN THE AIR
EP3326517	METHOD AND SYSTEM FOR IDENTIFYING POTENTIAL ATRIAL FLUTTER AREAS FOR MEDICAL DECISION SUPPORT
EP3349217	METHOD AND DATA PROCESSING UNIT FOR DETERMINING A PATIENT-SPECIFIC PHARMACOKINETIC PARAMETER
EP3493213	METHOD, SYSTEM, COMPUTER PROGRAM PRODUCT AND COMPUTER-READABLE MEDIUM FOR SUPPORTING A VISUAL ANALYSIS OF A MEDICAL IMAGE DATA SET
EP3567594	DIABETES MANAGEMENT SYSTEM WITH DYNAMIC SELECTION OF PREDICTION LOGIC
CN112542246	Rehabilitation support device, rehabilitation support system, rehabilitation support method, and recording medium
CN110957043	Disease prediction system

CN110968234	Intelligent nursing text generation system and intelligent nursing information platform using same
CN111863253	Information processing system, information processing method, information processing apparatus, and storage medium
CN112115763	READABLE MEDIUM, METHOD FOR SUPPORTING ABSORBENT ARTICLE USER, AND COMPUTER SYSTEM
CN108932578	Technique evaluation system for shape checking
CN109087705	Electronic device for generating information of growth and development and method for controlling the same
CN110489991	System for distributed retrieval and networked modeling
CN112053778	Medical support system and ophthalmic examination apparatus
CN112712876	Image recording system, image recording method, and image recording program
CN112785367	Pointing device, pointing method, and computer-readable recording medium
CN107506912	Medical resource scheduling platform
CN107993727	Data processing method, device and system
CN108324284	Physiological parameter monitoring system
CN108877950	Osteoporosis screening method and device based on computer
CN109063714	Construction of video detection model for Parkinson's disease bradykinesia based on depth neural network
CN109411086	Eye fundus image lesion screening system
CN109426348	Method for selection of virtual object or image reference value and selection unit
CN109427413	Arithmetic device for presenting motion trajectory with exercise intensity, processing method and recording medium
CN109448826	Block chain based clinical nursing system and data processing method
CN109461478	System and method for managing children health information
CN109461482	Health plan generation method and device, computer equipment and storage medium
CN109472709	CALCULATION METHOD, APPARATUS, COMPUTER APPARATUS AND STORAGE MEDIUM FOR INSURANCE PRICE
CN109509549	Diagnosis and treatment provider evaluation method and device, computer device, and storage medium
CN109545376	METHOD, APPARATUS AND RECORDING MEDIUM FOR DIAGNOSING SKIN
CN109584991	Method for providing food material combination information through refrigerator and refrigerator
CN109698015	RFID-based injury testing classifying and wounded personnel transportation system and injury testing classifying information processing method
CN109767829	A nursing matching system and method and a nursing prediction system and method
CN109801715	ICF evaluation system for chronic obstructive pulmonary respiratory rehabilitation, based on Internet of Things
CN109859835	Medical diagnosis and treatment method and system
CN109949891	Multifunctional medicine storing device and system

CN109949921	System for remotely evaluating heart function of systemic lupus erythematosus patient
CN109978022	Medical text information processing method and device and storage medium
CN110164048	Medicine management system and smart pillbox using medicine management system
CN110164538	Medical logistics system and method
CN110232971	Doctor recommendation method and device
CN110310719	Person behavior analysis method
CN110310737	Intelligent mobile terminal for traditional Chinese medicinal constitution health preservation
CN110349121	Monitoring method based on hyperspectral imaging and neural network and terminal
CN110400636	Cognition evaluation method, device, computer equipment and storage medium
CN110415774	Medical interactive device
CN110457425	Case storage method, device and equipment and storage medium
CN110718303	Medical interactive system and operation method thereof
CN110739048	Medical image recording and uploading system
CN110874461	Personal authentication system and device provided with personal authentication system
CN110880365	Refrigerator system
CN110993091	Generating vector from data
CN111053679	Walking support system
CN111191752	Multifunctional smart bracelet based on big data analysis
CN111554372	Medication checking method and device
CN111739629	Telemedicine system using digital stethoscope
CN111951910	PROVIDING DEVICE, PROVIDING METHOD, STORAGE MEDIUM, AND PROVIDING SYSTEM
CN111951911	PROVIDING DEVICE, PROVIDING METHOD, STORAGE MEDIUM, AND PROVIDING SYSTEM
CN111951912	STORAGE MEDIUM, INFORMATION DISPLAY DEVICE, AND INFORMATION DISPLAY METHOD
CN112107432	INFORMATION PROCESSING DEVICE, INFORMATION PROCESSING METHOD, INFORMATION PROCESSING SYSTEM, AND STORAGE MEDIUM
CN112107434	Estimation device, estimation method, estimation system, and storage medium
CN112185467	inspection assistance method, first inspection assistance device, second inspection assistance device, and storage medium
CN112349376	Fitness member customized management system using big data
CN112927773	Biological data management method, system and computer-readable recording medium
CN112995497	Data management device, data management method, and storage medium
CN105913131	Intelligent health community system
CN106446505	Township district oriented online medical system
CN106778026	Medical record treatment follow-up system

CN106803220	Realization method of civil large health monitoring and service system
CN106991275	A remote medical method and system
CN107316263A	Method of medical record processing
CN107545930	Method and system for health service and education based on personal special health archives on Internet
CN107564574	Automatic report device of blood cell analyzer
CN107564583	Hospital equipment sharing service management method based on Android system
CN107578813	Vaccination information query method and system based on cloud computing
CN107578816	Remote thyropathy treatment system
CN107592330	Mother and baby health medical care monitoring Internet of things management system
CN107610744	Unattended self-service inquiry device
CN107610765	Human body energy value monitoring method and system
CN107633876	Internet medical information processing system and method based on mobile platform
CN107633884	Intelligent big data management system of clinical cases
CN107657994	Method for reading medical database
CN107657999	Electronic intelligent auxiliary smoking-cessation filter tip
CN107658011	Medical system logging-on method and system thereof
CN107658013	Intelligent management system for dental unit of dentistry based on APP
CN107658014	Orthodontic acceleration device and method
CN107680637	Doctor-patient communication system based on mobile interconnection
CN107680670	Medical image identification and diagnosis system and method without geographical restrictions
CN107680694	Pre-hospital and on-site real-time mobile disaster first-aid system mode
CN107689250	Mobile data terminal doctor prescribing assistant system based on communication and network
CN107692981	Body temperature management platform
CN107705843	Intelligent medical hand-held mobile nursing information system
CN107705844	Novel personal data searching and evaluation software design scheme for psychological counselor
CN107705845	Visible position sensing system based on Internet-of-things
CN107714457	Moxa-moxibustion device
CN107730301	Member behavior management motivation method of diet meal operation mode
CN107730483	Mobile equipment and facial biological feature processing method, device and system
CN107742528	Rehabilitation aid service cloud platform system
CN107742529	Moxibustion service providing method and system
CN107749308	Background management system used for providing support for thyroid ultrasound diagnosis APP
CN107766956	Nutritious food business model task management method
CN107767924	Original data checking method and device, electronic equipment and storage medium
CN107767927	Electronic prescription system and electronic medical records thereof

CN107767932	Method and system for binding body weight detection device and refrigerator in use
CN107767959	Health risk assessment method, device, and apparatus based on character traits
CN107785062	Multidisciplinary obesity intervention health management method
CN107785070	Mobile portable physical examination system based on mobile medical cloud platform
CN107785072	Remote multi-party radiograph reading, diagnosing and voting system for AS (ankylosing spondylitis)
CN107797615	Novel device for medical big data collection and analysis
CN107799176	Method for remotely monitoring health of elders
CN107799179	Method, device and apparatus for monitoring motion state of pet
CN107802364	Tooth socket type tooth intelligent cleaning and diagnosing system
CN107808318	Medicine online sales management system and method using same for medicine sales
CN107808697	Management system used for health assessment
CN107818154	Physiological feature data query method, device and equipment and computer readable medium
CN107822597	Heart vitality index calculation and imaging display system and method based on intelligent platform
CN107833601	Information exchange method of medical system, device, equipment and computer-readable medium
CN107833607	Novel terminal detection device
CN107845427	Medical social APP characterized by automatic diagnosis of thyroid ultrasound image
CN107863139	Weight losing APP adding image recognition technology
CN107886063	Identity checking and rapid diagnostic reagent result analysis method and device, and storage medium
CN107886175	Mobile phone mobile intelligent platform medical appointment follow-up visit system design
CN107887002	Medical image diagnosis quality management system
CN107887005	Visualization intelligent medical-pension service platform based on broadcast and TV and IPTV
CN107887009	Method and device for processing hospital information data, computer storage medium and terminal
CN107887010	Cardiovascular disease data acquisition and triage platform
CN107887013	Diagnosis and treatment system and method, server, client, and drug data management device
CN107895338	Nursing institution service platform management system
CN107910040	Intelligent medical equipment terminal
CN107910043	Exercise management platform
CN107919165	Doctor-patient communication emergency nursing platform
CN107945853	Metadata-based medical quality reporting system
CN107945869	Classical prescription medicine intelligent dialectical treatment system based on big data
CN107967934	Monitoring device and monitoring method of intensive care unit
CN107978357	Automatic family nutrition recipe analysis system

CN107978359	Doctor-patient intelligent interaction method based on enhanced virtual reality technique
CN107978369	Intelligent management terminal and intelligent management system
CN107978375	Internet-based patients' medicine taking intervention method
CN107993703	Dish providing method based on caloric and computer readable storage medium
CN107993712	Body area network medical data transmitting device and method based on SD card interface
CN108010562	Health data interaction system
CN108022633	Method for sport nutrition health intervention based on cellphone APP
CN108022646	Remote auscultation system and diagnosis method thereof
CN108029600	Early-warning robot for aquaculture diseases and application method of early-warning robot
CN108039192	Peritoneal dialysis data management method
CN108053541	Hospital waiting number management method and system
CN108053871	Intelligent nutrition recipe matching system
CN108056762	Cardiac function data obtaining system
CN108062972	Medical image cloud intelligent system
CN108063966	Wise medical smart network television
CN108074641	Outpatient appointment registration system based on Internet medical service
CN108091376	Intelligent medicine delivery system
CN108122620	Design of smartphone-assisted digital outpatient service system
CN108125792	Method for guiding patient to take medicines and intelligent medicine box system
CN108154503	Vitiligo disease condition diagnosis system based on image processing
CN108172274	Health preservation kettle and cooking control method and system thereof, and mobile terminal
CN108172293	Intelligent life management platform for pets
CN108172294	Internet-based integrated child development management application platform
CN108181984	Physical examination equipment with fingerprint recognition module and method for user classification
CN108198591	Method and device for remote examination of documents
CN108198633	Medical management system for chronic obstructive pulmonary disease
CN108228633	Fruit nutrition management system based on mobile smart phone
CN108241929	Infrared image processing method and system, electronic device and storage medium
CN108257663	Electronic clinical pathway management system
CN108257666	Middle-aged and old acute disease on-line monitoring system based on mobile internet
CN108257667	Data processing method and terminal device
CN108257673	Illness risk value prediction method and electronic equipment
CN108257677	Intelligent health monitoring system
CN108269619	Remote collaborative consultation method, remote collaborative consultation device and remote collaborative consultation system
CN108270905	Design of blood glucose controller assistant system of mobile smartphone

CN108279778	User interaction method, device and system
CN108281169	Ambulatory blood pressure detection report generation method with reminding function and ambulatory blood pressure detection report generation system
CN108281180	Intelligent detection system based on patient QR code information entry
CN108281195	Medical data management method and medical data management system
CN108281197	Method for analyzing relationship among environmental factors and juvenile myopia
CN108288492	Method for freely converting approval process according to query condition created by login user
CN108288494	Health management system based on mobile IOS
CN108305686	Full-automatic hypertrophic cardiomyopathy prognostic risk analysis platform
CN108308924	Shared cabinet type bed and system thereof
CN108335739	First-aid information management system
CN108335743	Health monitoring system based on cloud platform
CN108346473	Chronic disease refinement management platform
CN108389607	Mobile self-service film taking system and method
CN108389609	Article management device and article management system
CN108392191	Integrated machine for automatic fingertip blood sampling and blood pressure pulse measurement
CN108399952	Portable intelligent terminal and home smart medical system
CN108399955	Intelligent domiciliary diagnosis and treatment system based on mobile internet
CN108403103	High-timeliness cardiovascular disease monitoring system and monitoring method thereof
CN108416277	Electrocardio monitoring method, device and terminal and computer-readable storage medium
CN108416939	Self-service medical examination and health examination functional cabin
CN108417246	Method for monitoring electrocardio intelligent control and data processing system using IoT smart cloud
CN108417254	Socialized service method of biological vector sharing monitoring
CN108417263	Remote medical diagnosis method
CN108433713	Human body big data monitoring data
CN108447006	Vegetarian diet health fast food chain management business model
CN108447532	Medical information management method, electronic device, storage medium and medical information management system
CN108447537	Medication safety and health management system for women in a gestation period and a lactation period
CN108447544	Patient food intake control and monitoring system
CN108447558	Intelligent system and method facing dental medical treatment sharing
CN108460762	Method and device for detection for rapidly detecting decayed teeth
CN108461121	Drinking amount recommending method and system
CN108461158	Remote ischemic preconditioning health training system and method
CN108478199	Wearable terminal for body temperature, blood oxygen and heart rate monitoring

CN108492526	Real-time remote dynamic electrocardiogram monitoring system and monitoring method
CN108492853	Third party inspection-based telemedicine medical consultation method
CN108492854	Smart medical service system based on big data
CN108492856	Prescription submitting device, terminal and method
CN108492858	Method for realizing ephedrine registration by pharmacy cash register system based on B/S framework
CN108492869	Smart cloud ECG intelligent monitoring and data processing system based on the Internet of Things
CN108492878	Personalized comprehensive health service system with health scoring function
CN108492881	Control system for detecting woman's menstrual health condition and information data processing terminal
CN108497828	Baby bed based on internet
CN108520308	Intelligent treatment system
CN108520773	Medical institution comprehensive management operation method based on internet
CN108523862	Big data-based weight-reducing wearable device
CN108538342	General diagnosis device and cloud platform
CN108538354	Interface method for realizing legal sales and rapid registration of prescription medicines in drugstores on basis of network hospitals
CN108538355	Drug application confirmation equipment and method
CN108538366	Self-health evaluation method based on knowledge base for preserving health based on traditional Chinese medicine
CN108538374	Physiological signal monitoring system and control method thereof
CN108538402	MDT (multi-disciplinary team) consultation method and system
CN108550383	Human body rehabilitation equipment user authentication and information exchange control method
CN108550402	Network-hospital-based self-service interrogation device for pharmacy robot
CN108564986	Children's disease automatic inquiry and medical record generation system based on mobile phone APP
CN108564993	Blockchain technology-based electronic medical record automatic integration and translation system
CN108565000	Servo motor-based sports equipment APP (application)
CN108565017	Clinical decision-making system and method for cervical lesions
CN108565023	Children disease control and prevention monitoring method, device and system
CN108577432	Intelligent cup for health monitoring and operating method of intelligent cup for health monitoring
CN108596198	Deep learning-based pneumothorax X-ray image recognition method and system
CN108596685	Smart trading system for traditional Chinese medicine decoction pieces
CN108597600	Single-guided heart stick data intelligent diagnosis cloud calculation system and processing method thereof
CN108597604	Pigmentation disorder dermatology expert system based on cloud database
CN108597608	High-risk newborn early-warning scoring system

CN108611397	Gene detection platform based on closestool and method of gene detection platform
CN108615297	Self-service selling method and storage medium for self-service selling equipment and application thereof
CN108615551	Service management terminal based on blockchain technology
CN108648126	Medical and pension integrated information-based control system, and signal data processing terminal
CN108648801	Student nutritious food intelligent cloud service platform
CN108648804	APP about health industry
CN108648819	Clinic nursing system for vascular surgery department
CN108648832	Internet and public platform traditional Chinese medicine diagnosis and treatment service system
CN108682448	Prescription examination management platform
CN108682454	Mobile terminal based voice medical advice management system and method
CN108694993	Healthy diet management method
CN108707537	Gene detection system and method for wireless Internet intelligent closestool
CN108742538	Physical sign measuring method based on big data and artificial intelligence and medical robot system
CN108742567	AI technology-based smart phone blood pressure testing method and system
CN108766506	Multipotential stem cell diagnosis and treatment system
CN108766510	Intelligent medical history collecting method and device, and mobile collecting device
CN108766511	Medical examination data sharing method and system and electronic equipment
CN108766536	Positioning line rendering and displaying method and device, equipment and storage medium
CN108766537	System with support of mobile payment of social security card
CN108766540	Smart medical system
CN108777175	Blister drug packaging remote monitoring method and device
CN108805534	Dining reminding method, apparatus and device, and storage medium
CN108806778	Cataract condition monitoring method and system
CN108806786	Intelligent system and method for medical treatment in hospital
CN108806801	Medical follow-up visit method and device
CN108809818	WeChat cognitive follow-up system and method
CN108814565	Intelligent traditional Chinese medicine health detection dressing table based on multi-sensor information fusion and depth learning
CN108829723	Complex network and deep learning-based health service terminal for Interactive intelligent refrigerator
CN108831518	Clinical data management method and device, server and readable storage medium
CN108831523	Medical treatment and health archive management and sharing system
CN108831534	Integrated tuberculosis management system and mobile APP project
CN108831536	Medical service management method and device and storage medium
CN108831549	Remote medical service method and system
CN108831558	Physical health monitoring system and method

CN108831566	Comprehensive intelligent medical platform for diabetes based on intelligent terminal
CN108841974	Method for monitoring micro-ecologic maturity of extracted stool sample 16s rRNA in intestinal tract of infant
CN108847275	Lab test result processing method and device, and electronic device
CN108847278	Automatic online inquiry distribution method and device, computer equipment and storage medium
CN108847281	Method and device for processing physical examination data, and electronic device
CN108852328	Student quality evaluation system based on educational big data
CN108875715	Intelligent monitoring system for minors
CN108877874	Clinical data collection method based on two-dimensional codes
CN108877889	Sports standard reaching testing system and method
CN108877912	Remotely shared doctor cardiopulmonary resuscitation (CPR) breathing monitoring financial payment mobile phone and method
CN108877916	Information safety storage method and device
CN108877920	Diagnosis and treatment data management method and system
CN108877928	Patient information collection method and device, computer device and storage medium
CN108877929	Possible recommendation processing method and device based on neural network and computer device
CN108877930	Pregnant woman pregnancy depressive disorder monitoring method and device, and storage medium
CN108877940	Peritoneal dialysis data management method
CN108877956	Health data monitoring device and method based on intelligent wristband and Android cellphone
CN108881160	Medical treatment and health data management method and system based on blockchain intelligent contract
CN108881376	Intelligent transfusion management system and method based on oneNET platform
CN108897504	Remote controlled medical 3D printing system
CN108898328	System convenient for external quality assessment for hospital
CN108898580	Skin flap transplantation post-operative nursing monitoring system and method, management system and storage medium
CN108899063	Physical examination data processing method and apparatus, computer apparatus and storage medium
CN108899064	Electronic medical record generation method and apparatus, computer device, and storage medium
CN108899069	Method and system for evaluating healthy water drinking
CN108899070	Prescription recommendation generation method and apparatus, computer device and storage medium
CN108899072	Chinese medicine prescription recommending method and device, computer device and storage medium
CN108899078	Health information processing system based on cloud storage
CN108899082	Maintenance service management method and system, terminal and computer readable storage medium
CN108899084	Smart pension health monitoring system

CN108899095	Information supervision method, information supervision device, information supervision system, electronic equipment and computer readable medium
CN108920661	International disease classification and marking method and device, computer device and storage medium
CN108921469	Medical consumable supply management method, mobile terminal and computer readable storage medium
CN108921758	Intelligent integrated service platform for security and protection, old-age care and convenience
CN108922579	Medical data inputting method and medical information inputting system
CN108922584	Convenient and fast detection device and application thereof
CN108922585	Blockchain based smart health wristband data storage method and system
CN108922587	Identification code based patient assistance system and method
CN108922590	Recipe recommendation method based on electronic devices with screens and service robot
CN108922608	Intelligent outpatient guiding method and device, computer device and storage medium
CN108922615	Intelligent health management system based on internet of things
CN108922616	Quick self-fitting method for hearing aids
CN108922623	Health risk assessment and disease early warning information system
CN108922632	Data management method and system
CN108922634	Online inquiry question answer processing method and device and computer device
CN108922635	Online doctor consultation APP system
CN108932974	Online inquiry doctor assigning method and device, compute device, and storage medium
CN108932980	A processing method for real time information
CN108959404	Intelligent inquiry method and device
CN108959582	An artificial intelligence auxiliary inquiry system and a use method thereof
CN108960312	Method and device for generating classification model
CN108960666	Tumor early risk assessment system based on typical experiential biomarker
CN108961135	Elder care management service system
CN108962340	Health information calling method
CN108962345	Invisible orthodontic aid system
CN108962346	Medical inspection report electronization method, storage equipment and mobile terminal
CN108962351	Smart diet information system
CN108962364	Registration data processing method and device
CN108962368	Hospital intelligent doctor visiting system based on mobile platform
CN108962372	Method for dealing with image reconstruction failure
CN108962379	Mobile phone auxiliary detection system for cerebral nervous system diseases
CN108962395	Real-time acquisition and analysis method based on parallel fractional physiological signals
CN108962398	Hospital information obtaining method and device

CN108962400	Medical management and monitoring system based on Internet of Things
CN108962404	Remote medical system and method
CN108983880	Intelligent computer book
CN108985555	User blood transfusion evaluation method and related products
CN108986873	Traceable diagnosis and treatment data processing method and system
CN108986876	Personal health portable management system
CN108986879	Medicine recommending method and device, computer equipment and storage medium
CN108986881	Robot-based medication reminding system
CN108986882	Exercise scheme management system and method based on Android platform
CN108986883	Exercise state recognition system and method based on Android platform
CN108986887	100-year-old intelligent healthy diet exercise system
CN108986902	Scanning method and device for four-dimensional scanning equipment, and storage medium
CN108986908	Interrogation data processing method and device, computer equipment and storage medium
CN108986921	Disease prediction method, device, medium and electronic equipment
CN108986924	Intelligent service system for health information acquisition
CN108992724	Dialysis process automatic monitoring and alarm method and system
CN109003649	Internet-based vision detection method
CN109003684	Remote medical inquiry and consultation system and method
CN109009036	Blood pressure detection method and system based on smart phone
CN109011138	Head-image-based head physiotherapeutic method and device
CN109034114	Ear-diagnosis method, device, system and computer readable medium
CN109034323	Method and system for self-help privacy sample collection and examination
CN109034776	Financial payment system and method capable of preventing mistaken reporting and allowing doctors to guide first aid through WeChat video
CN109036505	HIV infection state mutual searching method and device
CN109036508	Traditional Chinese medical information processing method and device, computer device and storage medium
CN109036516	Precise food material dispensing system based on kitchen diet big data
CN109036520	Fracture or broken bone positioning system and positioning method thereof
CN109036524	Animal epidemic disease diagnosis system
CN109036538	Blood pressure detection system based on robot
CN109036545	Medical information processing method and device, computer device and storage medium
CN109036550	AI-based cataract analysis method and device
CN109036552	Traditional Chinese medicine diagnosis terminal and storage medium thereof
CN109036555	Exercise risk assessment method of cardiovascular risk population
CN109036565	Smart home life management system based on robot
CN109036574	Nursing plan management method and device, storage medium and electronic device

CN109036583	Medical big data monitoring system
CN109044295	Intelligent body examination instrument based on face recognition and body examination method based on face recognition
CN109063865	Medical institution contracting and reservation method based on WeChat public number and webpage end
CN109064259	System and method for equipment lease operation
CN109065108	System for blood test services provided by primary medical institutions and application method thereof
CN109065121	Dynamic water drinking recommendation method and system
CN109065122	Method and system for making friends in healthy sports
CN109065129	Department recommendation method and device, computer device and storage medium
CN109065139	Medical follow-up visiting method and apparatus, computer equipment and storage medium
CN109065155	Remote pathological diagnosis platform and realization method thereof
CN109065161	Shared medical detection system and method
CN109065163	Traditional Chinese medicine diagnosis service platform
CN109065167	Elderly sports risk evaluation method
CN109065172	Illness information acquisition method and device, computer device and storage medium
CN109065183	Consultation dialogue template generation and consultation data acquisition method and device
CN109065187	Urine tracking analysis method and device
CN109065188	Remote pathological diagnosis consultation platform and realization method thereof
CN109067917	A method and apparatus for pushing fitness information
CN109067972	Method and system for generating graph visualization content
CN109085872	Aid-sleeping cloud service platform and using method therefor
CN109087229	A community-based health sharing and sharing platform
CN109087688	Patient information acquisition method and device, computer device and storage medium
CN109087697	Blood donation supervision method, server and computer readable medium
CN109087715	Smart the-aged nursing management system
CN109102413	Health index prediction method, device and storage medium
CN109102846	Mental health monitoring method and system based on cloud platform
CN109102847	Pre-diabetes PC-WeChat intelligent management and follow-up system
CN109102852	User data processing method and device, electronic device and computer readable medium
CN109102854	Medical IoT detection system based on wear detection
CN109102855	Drug recommendation method
CN109102866	Intelligent contract method and device for diagnosis and treatment data
CN109102878	Single-person elderly monitoring system based on active RFID electronic tag
CN109102890	Distributed medical detection service platform and system, and terminal thereof
CN109102891	Data measurement method of Bluetooth-based four-in-one blood glucose meter

CN109102905	Medical system for family doctor and control method of medical system
CN109118538	Image rendering method, system, electronic device and computer-readable storage medium
CN109119129	Smart acupuncture and moxibustion management method and system
CN109119134	Medical record data processing method, medical data recommendation system, equipment and medium
CN109119137	Anomaly detection method and device, server and storage medium
CN109119148	Method and apparatus for making appointment
CN109119153	Hospital digital logistics equipment management system
CN109119157	Method and system for predicting growth of infants
CN109119165	Cataract risk detection method and device and electronic equipment
CN109119171	Health data management system based on big data platform
CN109124587	A robot-based skin detection system and method
CN109146639	A medicament online sale and Internet hospital platform
CN109147198	Self-service drug selling method and self-service drug selling system
CN109147880	Quantum bit artificial intelligence management system and method based on internet of things and block chain
CN109147885	Physiotherapy, renting and selling method and management system of mobile intelligent terminal-based physiotherapy device
CN109147886	Smart phone-based clinic appointment and health management system
CN109147888	Consultation method and device, and storage medium
CN109147896	Active health service system based on multi-function medicine chest
CN109147898	Electronic prescription acquisition and circulation method and system and storage medium
CN109147908	Internet-based hospital intelligent nutritional dietary analysis system design
CN109147910	Dish recommendation system based on nutritional ingredient and taste of food material, and implementation method
CN109147911	Disease symptom information display method, device and computer readable storage medium
CN109147912	Digital slice scanning methods and devices
CN109147917	Medical institution comprehensive supervision and management system
CN109147918	Reservation matching method and device, electronic equipment and computer readable medium
CN109147919	Method and device used for managing sampling box of biological sample
CN109147922	Interactive remodelable correction brace
CN109147926	Atrial fibrillation patient management platform based on cloud data analysis
CN109147935	Health data platform based on human feature acquisition and recognition technology
CN109147945	Traditional Chinese medicine diagnosis system and hand ring
CN109147946	Method for acquiring health data by means of intelligent water machine, and data acquisition system
CN109147964	Multi-dimensional medical advice pushing method based on cable television network
CN109157736	A combined medical device for facial skin treatment and a working method thereof

CN109165560	Motion posture learning method, device and system, and information storage medium
CN109166610	Prescription information-based intelligent medical advice management system and method
CN109166614	System and method for recommending personal health recipes
CN109166623	Intelligent medical consultation system
CN109190125	Medical language text processing method and device and storage medium
CN109192257	Electronic prescription-based chronic disease management method, system and storage medium
CN109192268	Exercise interaction prompting method, device, readable storage media and mobile terminal
CN109192286	Automatic triage method, device and electronic device
CN109214650	Evaluation method and device
CN109215753	Children's health care management information platform
CN109215754	Medical record data processing method, apparatus, computer device and storage medium
CN109215763	Face image-based emotional health monitoring method and system
CN109215768	Robot-based appointment registration system and method
CN109215774	Real-time remote pulse diagnosis system
CN109215784	Method for analyzing physiological parameter values
CN109215801	Public opinion monitoring method and system
CN109215803	First-aid knowledge popularization system
CN109242836	Disease prediction method, apparatus, and storage medium
CN109243566	Control system and method for taking medicine in intelligent medicine box
CN109243579	Cooked food nutrition data processing method and system, storage medium and terminal
CN109243587	Internet-based obstetric information management service platform
CN109243598	Remote monitoring calling method and system
CN109243602	Data identification method and device, storage medium and corresponding electronic device thereof
CN109243605	Mental disorder diagnosis and treatment system based on artificial intelligence
CN109243611	Body fat measurement method and system and body fat scale
CN109255297	Animal condition monitoring method, terminal device, storage medium and electronic device
CN109256182	Electronic case form generating method and device
CN109256186	Review model-based medication review method, device, server and storage medium
CN109256203	Home-based elderly care system with prompting function
CN109256206	Inquisition data processing method, device, computer device and storage medium
CN109256208	Liver health reminding system and work method
CN109256209	Liver health reminding system and work method thereof
CN109256210	Liver maintenance system and work method
CN109256216	Medical data processing method, apparatus, computer device and storage medium

CN109273049	Gene detection unmanned sale experience system and device
CN109273075	Medical care staff shift handover method, device and terminal device
CN109273076	AED scheduling management system and AED scheduling management method
CN109273078	Ankle and foot rehabilitation traction control system and method
CN109273085	Method for establishing pathological breath sound library, detection system for respiratory diseases, and method for processing breath sound
CN109273086	User health data management system and method
CN109273088	Fast intelligent physical examination system based on Internet of Things and cloud computing
CN109273101	Decision tree-based human-computer interaction method, device, computer equipment and medium
CN109273102	Smart cloud data health receiver
CN109284353	Medical case retrieval method, apparatus, computer device and storage medium
CN109284439	A medical terminal propaganda and education information push method and apparatus
CN109285594	Human body 3D scanning projection technology
CN109285595	Safety and health travel management device for shared bicycle
CN109285597	Dietary therapy recipe recommending method, device and readable medium
CN109285598	Mobile phone projection technology with color mood adjustment
CN109285604	Early Alzheimer's disease diagnosis system based on artificial intelligence
CN109285606	Health management method based on large data intelligent algorithm and system
CN109288606	Brushing monitoring method based on intelligent terminal, device thereof and intelligent terminal
CN109299802	A method for issuing and using electronic service vouchers
CN109299902	Hospital secondary warehouse management system and management method
CN109299996	Resource transfer method, apparatus, computer device, and storage medium
CN109300070	Ambulance communication method, device, server and storage medium
CN109300516	Data management and follow-up system for hearing-impaired children based on cloud follow-up platform
CN109300519	Patient data processing and medical advice reminding device and method of using device
CN109300525	Food material purchasing APP method by using artificial intelligence and big data
CN109300531	Early diagnosis method for brain disease and device
CN109300539	Electronic voucher issuing and using system
CN109308940	Cardiopulmonary exercise assessment and exercise training integrated system
CN109308941	Gymnasium management system
CN109308947	Health detection system for wearable device and data analysis method

CN109316220	Intravascular intervention postoperation puncture position pressing device, control system and method
CN109325753	Transfer control method, device and system
CN109326335	Method and system for distributing online to-be-answered questions to doctors
CN109326340	Graphic and text consultation method based on Internet platform
CN109326347	Electrocardiogram remote monitoring system based on artificial intelligence
CN109326352	Disease prediction method and device, terminal and storage medium
CN109326356	Intelligent virtual ward system
CN109327547	Smart vehicle-mounted all-weather health monitoring and analyzing platform
CN109344998	A customer default probability prediction method based on medical cosmetology scenario
CN109345077	Health promotion method and system for men who have sex with men
CN109345217	Medical charging method, system and device based on mobile payment
CN109345278	Electronic questionnaire survey method and device based on traditional food frequency questionnaire method
CN109346142	Comprehensive report generation method and device, terminal device and readable storage medium
CN109346151	Postoperative evaluation system based on cloud computing analysis platform
CN109346155	Emotional stimulus tree generation method based on cloud model and emotional comfort system
CN109346163	Data conversion method, device and system
CN109346192	System and method for providing online full-process medical care and services based on the Internet
CN109346193	Voice recognition device and method based on stethoscope
CN109360612	Epidemiological investigation information management system
CN109360616	Recording method, device and equipment of dental examination, and storage medium
CN109360617	Medical health archive establishment method and device based on blockchain, and computer equipment
CN109360620	Prescription information processing method and device
CN109360621	Prescription drug compliance management method based on NLP and management system
CN109360630	Non-parametric cognitive diagnosis method suitable for small sample and equipment thereof
CN109360631	Man-machine interaction method and device based on picture identification, computer equipment and medium
CN109360634	Medical care staff management system
CN109360636	Hospital information management system
CN109360643	Intelligent monitoring device and system for infants
CN109360644	Intelligent monitoring method for infants
CN109360650	Software design livestock and poultry disease rapid diagnosis and treatment system
CN109360653	Health data analysis method and device based on neural network, and computer equipment

CN109360655	Hospital-level and department-level infection risk assessment system and method for medical institutions
CN109360660	Prevention and control method and prevention and control system of disease control and travel information interconnection
CN109360662	Diagnosis and treatment review rule updating method and device, computer equipment and storage medium
CN109360666	Blood pressure management method and system, and intelligent terminal
CN109376932	Age prediction method and device based on a prediction model, server, and storage medium
CN109377203	Medical settlement data processing method and apparatus, computer device and storage medium
CN109377207	Methods for judging abnormal hospitalization behavior and related products
CN109377388	Medical insurance application method and apparatus, computer device and storage medium
CN109377416	Method, device and apparatus for generating menu information
CN109378049	Intelligent elderly hypertension self-care method and system based on Internet
CN109378055	Medicine management method, server and system, and computer readable storage medium
CN109378056	Medicine distribution method and device, computer device and storage medium
CN109378079	System and method for monitoring infectious disease based on fever symptom
CN109378084	Method and apparatus for remote medical doctor visiting, equipment, and storage medium
CN109388807	Electronic medical record named entity identifying method, device and storage medium
CN109389587	Medical image analysis system, device and storage medium
CN109390042	Health report generation method and device and readable storage medium
CN109390048	Treatment transferring medical institution recommending method and device and computer readable storage medium
CN109390049	Treatment transferring method and device and computer readable storage medium
CN109390050	Program safe loading management system of wearable terminal and management method thereof
CN109390052	Medical convenience terminal, server and system
CN109390059	Design of mobile intelligent drug use contraindication query system
CN109410458	Commodity recommendation method and intelligent container
CN109411035	Analgesia evaluation method, ward terminal, analgesia management server, and computer readable storage medium
CN109411049	Exercise data acquisition and management system
CN109411050	Exercise prescription execution method and system and computer readable storage medium
CN109411065	Hospital energy monitoring and equipment safety operation early warning system

CN109411076	Preference-equipped emotional comfort tree generating method and emotional interaction system thereof
CN109411077	Uncertain time-space structure emotional comfort tree generating method and emotional comfort system
CN109411079	Audit diagnosis and treat rule generation method and device, computer device and storage medium
CN109411089	User health condition determination method and device, intelligent lifting table and storage medium
CN109411091	People-facilitated electronic platform for promoting treatment-and-prevention combination by means of amusement function
CN109411098	Medical robot control system capable of remote consultation
CN109447295	A method and device for appointing a physician
CN109448804	Traditional Chinese medicine inheritance tutorial note system
CN109448806	Medical image file transmission method based on internet
CN109448828	Method and device for executing medical care operation and medical treatment terminal
CN109448836	Robot for medical health inspection and self-service physical examination method
CN109448840	Intelligent nursing device for female reproductive organ
CN109448841	Method and device for building data model and clinical aid decision making method and device
CN109448847	Risk assessment method and device, computer equipment and storage medium
CN109448856	Diagnosis and treatment decision making system based on artificial intelligence
CN109448863	Ward rounding reminding method, device and medical terminal
CN109448866	Emergency information transmission system and method
CN109452935	NON-INVASIVE METHOD AND SYSTEM FOR ESTIMATING BLOOD PRESSURE FROM PHOTOPLETHYSMOGRAM USING STATISTICAL POST-PROCESSING
CN109460749	Patient monitoring method, apparatus, computer device, and storage medium
CN109460756	Medical image processing method, apparatus, electronic device and computer-readable medium
CN109460942	Methods and related products of hospital evaluation based on data analysis
CN109461042	Intelligent nutritional meal preparation method, device and system
CN109461494	Example data synchronization method of RIS platform and image assisted diagnosis system
CN109461502	Health management method and system, body fat scale and mobile terminal
CN109464133	Portable automatic pulse condition detection system
CN109471945	Medical text classification method, device and storage medium based on depth learning
CN109472440	Informationization and Intelligence Medical and Anti-fusion Platform
CN109472669	A diet health management system based on takeout
CN109472707	Medical intelligent underwriting method, device, computer device and storage medium

CN109472780	A method and a system for measuring morphological parameters of an intracranial aneurysm image
CN109473156	Exercise advising method and device
CN109473162	Clinic authentication method and terminal
CN109473172	Body conditioning data analysis method and device, computer equipment and storage medium
CN109473176	Tooth whitening and dentition simulation image method
CN109473177	Method for determining medical development trend on basis of prediction model and related products
CN109480882	Medical equipment imaging method and device, computer equipment and readable storage medium
CN109481310	Method, device, equipment and storage medium for processing medical information
CN109481311	Electronic medicine box and application method thereof
CN109491733	Interface display method and device based on visualization, a server of a portal website system and a computer storage medium
CN109493007	Medical and nursing combined information management system
CN109493156	Dish recommendation method based on fitness data
CN109493193	Automatic leasing system for leasing an infusion alarm
CN109493240	Method for monitoring auxiliary medication rationality based on medical big data and related products
CN109493244	Method for configuring an insurance demand based on a prediction model and a related product
CN109493940	Prescription personalized recommendation method and system based on deep learning and knowledge base
CN109493955	Smart health community system based on mobile internet
CN109493968	Cognitive evaluation method and device
CN109493970	Medical service method and system and terminal equipment
CN109493972	Data processing method and device based on prediction model, server, and storage medium
CN109493979	Disease prediction method and device based on intelligent decision making
CN109506643	Mobile diagnosis guidance service method
CN109508800	A method and apparatus for outpatient appointment
CN109508874	System quality analysis method, apparatus, server, and storage medium
CN109509117	Vegetable recommendation method, device and system
CN109509518	Electronic medical record management method, server and computer storage medium
CN109509542	Task processing method and server
CN109509544	Method and device for processing contract-signing information, server and medium
CN109509546	Identity authentication method, device, terminal and medium based on biological recognition
CN109509556	Knowledge map generating method and device, electronic device, and computer readable storage medium
CN109512235	Wearable equipment, food supply method and device and storage medium
CN109522705	Authority management method, device, electronic device and medium

CN109523395	Medical supervision method, apparatus, terminal and medium based on abnormal operation identification
CN109523403	Medical supervision method, device and terminal based on abnormal operation identification
CN109524067	Postpartum depression network intervention system
CN109524083	Method for monitoring rationality of auxiliary medication based on medical big data and related product
CN109524085	Cognitive analysis method and system based on interaction
CN109524086	Cognition training method and system for improving sensory perception
CN109524088	Medical monitoring method, device, terminal and medium based on data visualization
CN109524092	Hospital visiting queuing method
CN109524095	Service pushing method, device, server and medium
CN109524097	Method and device for detecting false hospitalization behavior based on face recognition, server, and medium
CN109524104	Method and device for control over equipment
CN109524108	Method and device for establishing inquiry model
CN109524111	Method for detecting seven types of skin tumors for cellphone
CN109524115	Big-data personal health prediction system based on block chain and cloud computing
CN109524122	Medical event presenting method, equipment and medium
CN109529189	Magnetic-control three-electrode loading and separating device based on intelligent medical equipment and method
CN109543179	Method and system for normalization of colloquial symptoms
CN109543187	Method and device for generating electronic medical record features, and storage medium
CN109543447	Block-chain-based information processing method, server, and computer storage medium
CN109543863	Doctor-seeking task management method, server, and storage medium
CN109543948	Follow-up examination method, apparatus, server and medium based on data analysis
CN109544360	A medical insurance card swiping processing method based on data processing and related equipment
CN109544371	Doctor-seeking prompt method and device, server and storage medium
CN109544561	Cell marking method, system and device
CN109545292	Management method and equipment of medical scientific research follow-up task, and medium
CN109545293	APP-based autism high-risk infant screening system
CN109545294	Medical record check method and device as well as computer readable storage medium
CN109545299	Rapid identification assistant prompting system and method for cerebrovascular disease risk based on artificial intelligence
CN109545300	Electronic medical record system based on WeChat applet
CN109545304	Medical nursing method, device, equipment and storage medium based on intelligent wristband
CN109545316	Medicine buying data processing method and related product
CN109545317	Method for determining hospitalization behavior based on hospitalization prediction model, and related product

CN109545328	Individual sub-health intervention method and system based on big data and artificial intelligence
CN109545330	Cognitive training method for improving executive function and system
CN109545335	Medical examination information service system based on health records
CN109545363	Convenient medical service system
CN109545364	Detection nursing method and device based on face skin data
CN109545370	Method and device for determining disease based on sample processing, and terminal
CN109545384	Medical diagnostic method and medical diagnostic device
CN109545390	Information processing method and device, server and computer readable storage medium
CN109545391	Intelligent medical automatic question answering system based on deep learning, and application method
CN109545392	Remote monitoring method, device and equipment based on IOT (Internet of Things), and medium
CN109545394	Inquiry method and device
CN109559761	Cerebral apoplexy risk prediction method based on deep voice features
CN109559793	Prescription behavior supervision method based on biometric identification and related equipment
CN109559806	An abnormal hospitalization behavior judgment method and a related product
CN109559815	Information sharing method and device and related equipment
CN109559822	Intelligent preliminary diagnosis method and device, computer equipment and storage medium
CN109583733	doctor online answer distribution method and system
CN109584977	Dual-network cloud health platform and health data processing method
CN109584982	Method and system for reminding people to take out indwelling medical instrument
CN109584987	A decentralized high-frequency common disease medicine intelligent recommendation algorithm based on big data
CN109584988	Method, device and equipment for medicine management and readable storage medium
CN109584992	Interaction method, device, server, storage medium and sand table treatment system
CN109584995	TACE treatment result image analysis method, system and device and storage medium
CN109584997	A method and a system for measuring morphological parameters of an intracranial aneurysm image
CN109585010	Shared intelligent big data physical check-up carbin system
CN109585026	Three-stage medical service mode and service platform for ahead acute treatment
CN109585027	Drug recommendation method and device based on remote interrogation
CN109585028	Intelligent analysis system of medical big data and application method
CN109585029	Hospital-patient information network platform
CN109597801	Medical data standardized management method and system, electronic equipment and storage medium

CN109598302	Doctor-seeing fee prediction method, device and equipment and computer readable storage medium
CN109599155	Intelligent service system and method applied to medical data center
CN109599183	Health service signing and fulfillment method and health service management system
CN109613284	Sample detection method, device and system, computer device and storage medium
CN109616175	Automatic dispensing method, electronic equipment and storage medium
CN109616176	Method, device and equipment for assisting physician in writing prescription, and storage medium
CN109616181	Doctor online answer distribution method and system
CN109616183	Reservation service processing method and device, electronic equipment and computer readable medium
CN109616197	Tooth data processing method, device, electronic equipment and computer readable medium
CN109616202	Intelligent weight-reducing clothing and user terminal intelligent weight-reducing control module
CN109616206	Body health state monitoring method and system as well as computer readable storage medium
CN109616212	Disease data processing method and device, electronic equipment and readable medium
CN109616220	Doctor online answer distribution method and system
CN109620173	Remote inquiring system based on pulse conditions
CN109620184	Mobile phone-wearable device integrated human body sudden injury real-time monitoring and alarming method
CN109620239	Traditional Chinese medicine constitution testing and conditioning device
CN109620252	Blood glucose monitoring system and method
CN109635122	Intelligent disease inquiry method, device and equipment and storage medium
CN109635696	Body information detection method and device
CN109636550	A DIY intelligent cooking control method and system
CN109636626	Immune disease reimbursement admission method, device and equipment and readable storage medium
CN109636639	Drug use detection method and device based on big data analysis, equipment and storage medium
CN109637566	Portable music player and application thereof
CN109637604	Kidney case file management method, device, storage medium and terminal equipment
CN109637608	Classified diagnosis and treatment platform and method
CN109637612	Medicine taking contraindication prompting method, server, terminal, equipment and readable medium
CN109637615	Abnormal medical prescription judgment method, device and equipment and readable storage medium
CN109637617	Auxiliary method and device for treatment, storage medium and equipment
CN109637626	Method for identifying food recommendation diet APP through photographing based on artificial intelligence

CN109637640	Overtime referral method and system, computer equipment and readable storage medium
CN109637643	Kidney disease submission application electronization method and device, storage medium and terminal device
CN109637645	Medical information management method based on cloud computing, electronic equipment and storage medium
CN109637651	Multi-doctor recommendation method and device and online consultation system
CN109637656	Wireless interaction orthodontics assistance device
CN109657495	account authorization method for chronic disease management application
CN109657972	management method and platform for an acute cerebral apoplexy first-aid process
CN109658303	system and method for prevention and control learning of hospital infection by medical staff
CN109658581	Hospital intelligent medical treatment numbering system
CN109659009	Emotion management method, device thereof and electronic equipment
CN109659011	method for acquiring and processing a twelve-lead ECG image by using mobile device, the mobile device and a computer readable storage medium
CN109659013	Disease triage and path optimization method and device, equipment and storage medium
CN109659018	Health management platform, system and realizing method thereof
CN109659022	Remote diagnosis and treatment method, system, electronic equipment and computer-readable medium
CN109659025	Remote medical treatment system based on computer network
CN109659034	Data quality assessment method and device for medical record home page, equipment and storage medium
CN109659038	Interrogation information input system through human body three-dimensional model comparison and method thereof
CN109659040	Remote medical treatment computer information system
CN109670088	Voice question and answer interaction method and device, computer device and storage medium
CN109671474	Intelligent health management system
CN109671484	Method and device for acquiring food performance based on medical examination report
CN109671494	Electromagnetic lock management system for shared intelligent companion robot based on user identity category recognition binding
CN109671501	Woman menstrual cycle predicating method based on big data
CN109671502	Target portrait updating method and device thereof
CN109671503	Health plan evaluation method and device thereof
CN109685223	A regional medical waste online supervision system
CN109686421	Personalized traditional Chinese medicinal auricular point treatment device and preparation method thereof
CN109686457	Intelligent disabled system
CN109686458	Smart home pension system
CN109697678	A working method and system of an intelligent unmanned restaurant
CN109698016	Disease automatic coding method and device thereof

CN109710738	Drug inquiry method, device and system, computer equipment and storage medium
CN109712320	Automatic vending and intelligent health management system
CN109712686	Body-building control method and related device
CN109712690	Method and device for food performance based on body examination report
CN109712697	Method for online consultation of record processing, device, computer equipment and storage medium
CN109712721	Internet-of-things intelligent stethoscope
CN109714427	Breathing data management method and device and computer readable storage medium
CN109724217	Controllable health air conditioner system based on hospital data and user physiological signals and control method thereof
CN109726245	An intelligent medicine box based on a heterogeneous system data mapping module
CN109726306	Patient data storage method and device, equipment and storage medium
CN109727164	A medical continuation education management system
CN109727649	ENGINEERING DATA ANALYTICS PLATFORMS USING MACHINE LEARNING
CN109727655	Motion health exciting method, device, equipment, server and medium
CN109727657	Material-saving and energy-saving environment-friendly cooker customizing system for individualized food material taste
CN109727677	Health caring system and method thereof
CN109741218	Resident standardized training management system
CN109741299	An error detection method and system for a target area based on a skull CT image
CN109741800	Medical data intranet and extranet interaction safety protection method based on a block chain technology
CN109741814	Tuberculosis patient referral management and control method and system based on a WeChat official account
CN109741834	Monitoring system for stroke people
CN109741835	Chronic kidney disease supervision method, device and equipment based on big data and storage medium
CN109754872	Clinic reserving method, device, equipment and storage medium
CN109754875	Medical self-service terminal, equipment, cloud server and system
CN109754876	Multifunctional intelligent medicine box and control system thereof
CN109758092	On-site medical equipment maintenance mechanism
CN109766445	A knowledge graph construction method and a data processing device
CN109766446	Data investigation method, data investigation device and computer readable storage medium
CN109767067	A method for evaluating hospitals based on multiple evaluation dimensions and related products
CN109767338	Processing method, device and equipment for gastrointestinal disease reimbursement process and readable storage medium
CN109767340	Blood disease reimbursement admission method, device and equipment and readable storage medium
CN109767820	Diagnosis/testing report generating method based on image, device and equipment

CN109767830	Hospital evaluation method based on data analysis and related product
CN109767831	Medical institute evaluation method, evaluation device and computer-readable storage medium
CN109767840	Abnormity detecting method, abnormity detecting device and computer-readable storage medium
CN109767842	Disease early-warning method, disease early-warning device and computer-readable storage medium
CN109767845	Medical follow-up surveying method, device, computer equipment and storage medium
CN109767847	Remote medical diagnosis method, device and computer-readable storage medium
CN109770851	Heart health state monitoring system and method based on Bluetooth wireless communication
CN109785148	Liver disease reimbursement process processing method, device and equipment and readable storage medium
CN109785919	Noun matching method, device, equipment and computer readable storage medium
CN109785925	Physiological index measurement management method and system
CN109785929	Remote monitoring method and device for chronic kidney disease of children and remote intervention system
CN109785933	Food purchase processing method, device, equipment and computer readable storage medium
CN109785934	Food recommendation method and related device
CN109785952	Intelligent physique scale, management system thereof, matching method thereof, intelligent physique scale-based health guidance system and intelligent physique scale-based health guidance method
CN109785954	Patient monitoring device, method and system
CN109785964	Health assessment method, health assessment device and computer readable storage medium
CN109785969	Networked prediction technology for dangerous factors of vascular cognitive impairment
CN109785975	Method, device and equipment for assisting user to purchase medicine autonomously and storage medium
CN109787978	A medical data transmission method
CN109801172	Patient tracking management and control method and device based on data analysis and computer equipment
CN109801694	Intelligent management and control method and system for disease medication schedules
CN109801700	Post-partum depression alleviation and cognitive behavior training system based on WeChat platform
CN109801704	Urban and rural remote medical system, special terminal equipment for the same, and method of using the same
CN109801714	Method and device for analyzing using state of apparatus, and computer readable storage medium
CN109801716	Intelligent shooting prescription-making system based on image identification technology
CN109817302	Expert system for fitness

CN109817305	Recipe recommendation method and system based on shared kitchen appliances
CN109817307	Nutritious food ordering system based on intelligent equipment and implementation method thereof
CN109817318	Big data-based personal health monitoring system
CN109817319	Equipment operation state statistical analysis system platform, equipment operation state real-time monitoring method and system
CN109817334	Body-building data source detection method, device, equipment and readable storage medium
CN109817339	Big data-based patient grouping method and device
CN109817349	Out-of-hospital disease management intelligent application system based on inpatient medical advice mode
CN109820695	ICU ward horizontal-type bilateral cerebral palsy lower limb rehabilitation robot with functions of communication and autonomous navigation movement
CN109829663	The invention discloses a light rail train comfort level evaluation system based on a cloud platform
CN109830277	Rope skipping monitoring method, electronic device and storage medium
CN109830279	Dynamic adjusting type personal trainer system
CN109830280	Psychological assistant analysis method and device, computer device and storage medium
CN109830282	Scene training data processing method and apparatus
CN109830287	GIS equipment X-ray image network on-line diagnosis method and apparatus, and electronic equipment
CN109830290	Medical information management method and device, server and readable storage medium
CN109830295	Intelligent children health evaluation and promotion service management system
CN109830304	Senior citizen health management system based on family affection audio and video
CN109830306	Intelligent voice prescription-making system based on voiceprint recognition technology
CN109831594	An intelligent medicine taking short message reminding system and method
CN109841270	Dietary nutrition health survey and evaluation system based on smart equipment, and implementation method thereof
CN109841275	Smart wearable device, and medical care system
CN109841284	Construction method and device of sleep state discrimination model, and portable intelligent device
CN109842633	A system and a method for inquiring health archives by using communication numbers
CN109858330	Expression analysis method and device based on video, electronic device and storage medium
CN109859809	User data feedback and collection system
CN109859810	Dietary survey auxiliary tool based on smart equipment, and implementation method thereof
CN109859812	Intelligent child rearing cloud service system

CN109859822	Emotion adjusting method and device, and computer readable storage medium
CN109859829	Medical equipment repairing system based on WeChat official platform and operation method thereof
CN109859837	Sepsis early-warning method and system based on medical data, and storage medium
CN109859841	Neural-network-based liver cancer auxiliary diagnosis system, method and device, and medium
CN109859855	Work order processing method, electronic device and computer readable storage medium
CN109859857	Labeling method and device for identity information, and computer readable storage medium
CN109872784	Intelligent medical record generation method and device, computer device and storage medium
CN109872789	Medicine operation method and device, terminal and medium
CN109872791	Intelligent storage system and application method thereof
CN109872793	Intelligent hospital management system and method based on speech recognition
CN109872796	Menu recommending method and apparatus
CN109872797	Water drinking management method for intelligent water cup, and intelligent water cup
CN109872807	Ultrasonic remote real-time consultation method, apparatus and device, and readable storage medium
CN109872808	Medical service processing method and system, electronic device and computer readable medium
CN109872816	Method, device and system for consultation of chronic obstructive pulmonary disease based on knowledge map
CN109872822	Medical assistance method, apparatus and device, and medium
CN109872823	Emergency medical service method and device
CN109875511	Health monitoring system capable of measuring body composition based on bioelectrical impedance
CN109876295	Multichannel foot drop dynamic electric stimulation walking aid based on internet of things and control method thereof
CN109885234	A slice reading method based on a mobile phone
CN109886123	A method for identifying human actions and a terminal
CN109886849	A bunk bed intelligent bed for school dormitories and a school dormitory automatic inspection system
CN109887557	Intelligent voice pre-inquiring system
CN109887565	Pet position detection and health management system and management method
CN109887568	Health management system based on doctor's advice
CN109887571	Body-building management method and apparatus, server and storage medium
CN109887574	Food health-preserving and dietotherapy guidance method and device based on identification of food materials
CN109887596	Method and device for diagnosing chronic obstructive pulmonary disease based on knowledge graph, and computer equipment
CN109887611	Medical management system and mobile terminal

CN109889572	Electronic medical record book Internet of Things intelligent interaction system and implementation method thereof
CN109893433	Intelligent magnetic therapy massage fitness walking carpet
CN109903823	Medical cold chain detecting method, device, equipment and storage medium
CN109903829	Intelligent medicine chest
CN109903834	Ordered dish heat control method, device, readable storage medium and equipment
CN109903837	Psychological testing method, device and computer-readable storage medium
CN109903860	Doctor-patient interaction platform system and application method thereof
CN109907732	Intracranial aneurysm rupture risk assessment method and system
CN109918569	Drug information pushing method, server and readable storage medium
CN109920505	Database sharing mode of light treatment instrument
CN109920507	Examination data querying method, device, computer equipment and storage medium
CN109920531	Real-time data management system of intelligent medical equipment
CN109920543	Campus health management APP based on artificial intelligence
CN109920552	Data management system based on remote medical education
CN109920554	Remote diagnosis method and system
CN109920555	Remote consultation diagnosis method based on C/S architecture and system
CN109920557	Glass slide file processing method, device, server and readable storage medium
CN109920558	Ship remote sharing management system based on big data
CN109934145	Emotion degree auxiliary adjustment method, intelligent equipment and computer readable storage medium
CN109934757	Intelligent elderly care system based on Internet of Things
CN109935297	Medicine taking system based on Android platform
CN109935298	Children rehabilitation management cloud service system based on mobile phone APP
CN109935299	Training plan generating method, device, equipment and storage medium
CN109935301	Food recommending method, device, electronic equipment and readable storage medium
CN109935302	Intelligent healthy water drinking management system based on narrowband Internet-of-things
CN109935303	Meal matching calculation management method and device
CN109935306	Medical image management system
CN109935318	Displaying method of three-dimensional pulse wave, device, computer equipment and storage medium
CN109935319	Chronic disease integrated management platform
CN109935329	Portable human body balancing capability evaluating and training system based on cloud platform
CN109935340	Health data management method based on blockchain, device and electronic equipment
CN109941612	Medicine refrigerated storage box with intelligent reminding function
CN109949880	Surgery data processing method

CN109949884	Hospital medical record information paperless generating method and device
CN109949887	Consultation diagnosis recording method, device and computer-readable storage medium
CN109949888	Health archive browser
CN109949890	Hospital medical record information storage system
CN109949900	Three-dimensional pulse wave displaying method, device, computer equipment and storage medium
CN109949913	Patient education cloud system for use by clinical doctor
CN109949917	Service system for abortion
CN109949918	Self-service renting system and method
CN109949919	Operating room expensive instrument management platform
CN109949922	Human body health monitoring system of Android smart phone
CN109949924	Intelligent health monitoring system
CN109949925	Intelligent medicine chest health monitoring system based on Internet-of-things and health monitoring method
CN109949928	Three-dimensional pulse wave displaying method, device, computer equipment and storage medium
CN109949935	Personalized terminal service campus health platform based on artificial intelligence
CN109961120	Medicine taking system based on cooperation drugstore
CN109961830	Medical image information management system and management method thereof
CN109961832	Health information sharing method and system
CN109961845	Data sharing system
CN109961849	Health management and consulting system combined with gene testing
CN109961850	Method for evaluating intracranial aneurysm rupture risk, device and computer equipment
CN109961852	Remote consultation method and system
CN109965846	Intelligent mattress with sleep management function
CN109966153	Medication management method based on intelligent medicine box, readable storage medium and terminal
CN109977297	Medical information pushing method
CN109978894	Lesion area labeling method and system based on three-dimensional mammary gland color Doppler ultrasound
CN109979587	PATIENT HEALTHCARE INTERACTION DEVICE AND METHODS FOR IMPLEMENTING THE SAME
CN109979594	Data processing method, system thereof, computer system and readable storage medium
CN109979603	Electronic pharmacopeia retrieval system
CN109979608	Hospital health monitoring system based on mobile phone client
CN109992627	Big data system for clinical scientific research
CN109994165	Cloud system based on surgery data
CN109994177	Health report generating system according to salt using data
CN109994181	Diabetes data control method suitable for old patients, device and system
CN109994182	Recipe recommending method, device and storage medium

CN109994191	Prehospital cooperative first-aid service method, device, terminal equipment and storage medium
CN109994192	Intelligent guiding device and system
CN109994196	Method for automatically updating and exchanging heart rate data, terminal and storage medium
CN109994205	Healthy life expectancy predicting method, electronic device and storage medium
CN110006551	Body temperature measurement system and method
CN110010214	Grading transferring consultation device, system and computer-readable storage medium
CN110010221	Electronic prescription circulation method, device and storage medium
CN110010232	Area public medical resource sharing cooperation system and method
CN110010247	Personalized physique health terminal service system based on artificial intelligence
CN110013231	Sleep environment illumination condition identification method and reading surface photometry method
CN110020597	Eye video processing method and system for dizziness/vertigo auxiliary diagnosis
CN110020853	Medical treatment payment method, server, mobile client and system
CN110021111	Automatic drug purchasing platform
CN110021388	Patient vital sign data management system of mobile internet
CN110021389	Electronic medical record system and information processing method thereof
CN110021401	Fitness method and system based on EMS and computer readable storage medium
CN110021407	Medical apparatus wechat management method and system
CN110021409	Mobile-health-oriented doctor-patient matching model
CN110021412	Medical service method and device as well as server and electronic equipment
CN110021415	Medical and sanitary organization personnel resume information management system
CN110021436	Intelligent internet of things medical health pre-warning system
CN110021444	Mobile nursing system design of Android intelligent platform
CN110021445	Medical system based on VR model
CN110032282	Intelligent control system based on expression recognition
CN110033844	Medication management system based on smart medicine kit
CN110033849	Early warning system and method for quantity of people flows in departments of medical institutions
CN110033857	Cloud system for urine detector
CN110035404	Rural medical health data acquisition, analysis and early warning system based on big data
CN110046349	Information identification method and device based on Chinese medical records, equipment and storage medium
CN110047574	Electronic intelligent method and device for neuropsychological assessment scale, terminal, and storage medium
CN110047581	Block-chain-based donated organ matching method, device and system
CN110047585	On-line hospital management platform

CN110047586	Implantation medical control device and firmware interface updating method and system thereof
CN110047598	Intelligent medicine chest inspection system and method
CN110049006	Real-time and non-real-time combined multi-person remote consultation system and method
CN110060747	Intelligent health terminal
CN110060748	Multidisciplinary PICC catheterization evaluation management device and method
CN110060750	Medical data pushing method and system, computer equipment and readable storage medium
CN110060763	Communication and archiving method and device based on medical images and three-dimensional model
CN110060766	Medical informatization blood transfusion closed-loop system and method
CN110060767	Monitoring method, device and equipment for hand washing, and storage medium
CN110060778	Health management scheme taking intestinal flora as target points
CN110060786	Internet inquiry prompting method and device, terminal and storage medium
CN110069513	Hospital examination report query device
CN110070316	Medical equipment management system and use method
CN110070925	Electronic medical record generation method and device, and electronic equipment
CN110070931	Intelligent medicine taking tracking management system and method based on WeChat
CN110070934	Communication method and device for releasing psychological pressure
CN110070938	Method of assisting patient in bowel preparation
CN110085295	Recommendation method, device and equipment, and computer readable storage medium
CN110085306	Block-chain-based medical data management system
CN110085317	Personal health guidance system, personal health guidance method and intelligent tableware
CN110085329	Asynchronous multi-department remote consultation system and method
CN110090037	Medical image film typesetting method, device, electronic equipment and readable storage medium
CN110096145	Psychological state display method and device based on mixed reality and neural network
CN110097734	Security protection system based on indoor person positioning and physiological monitoring
CN110097945	Method for controlling cooking, server, cooking appliance and cooking system
CN110097947	Method for recommending menu according to user motion condition
CN110097953	Wise medical cloud platform system
CN110097954	Body examination self-service preserving and guiding system based on previous medical history and method
CN110097959	Quick online interrogation system and method
CN110097962	Glycosylated hemoglobin detecting and evaluating standard system

CN110110867	Medical equipment overhaul platform and method
CN110111305	Processing scheme generation method and device, equipment and storage medium
CN110111862	Information platform
CN110111870	Intelligent body building identification rod
CN110111881	Sharing type health testing and disease intelligent early-warning system
CN110111898	Multifunctional artificial pancreas control module based on mobile terminal and method
CN110111902	Onset period predicting method of acute infectious disease, device and storage medium
CN110111906	Medicine monitoring device and medicine storing device
CN110111909	Online registering TV-end platform system
CN110119991	Medical compensation auditing method and device based on machine learning and storage medium
CN110120256	Intelligent acupuncture system
CN110120263	Health assistance system based on health information acquisition and analysis
CN110132254	Hospital interior navigation and information interaction system and route planning method
CN110134839	Time series data feature processing method and device and computer readable storage medium
CN110136786	Method for sliding inputting of blood sugar measured values and visualizing sparse blood sugar data
CN110136793	Community health medical service management system
CN110136796	Prescription drug selling system based on artificial intelligence and method thereof
CN110136799	Evaluation guiding method for low-intensity impedance movement and device
CN110136805	Method and device for displaying medical image
CN110136815	Atrial fibrillation patient information management and service system based on Internet and method
CN110136822	Community medical intelligent controlling method of household wearable device
CN110136841	Disease incidence predicting method, device and computer-readable storage medium
CN110136842	Disease incidence predicting method of acute infectious disease, device and computer-readable storage medium
CN110136847	Remote consultation system
CN110141225	Intelligent sleep pillow
CN110141698	Ventricular assist system, information interaction method and related product
CN110147676	Security management system and method for medical information
CN110148060	Health-data-based insurance premium adjustment method and device, equipment and storage medium
CN110148317	Distance education method
CN110148445	Health information processing system

CN110148448	Children health caring cloud evaluation method, accessing method, diagnosis receiving method, remote evaluation method based on children health caring cloud, and system
CN110148456	Wise medical system, equipment and storage medium
CN110148464	Intelligent health management system for in-home old person
CN110148469	Intelligent pregnancy check-up system
CN110148476	Information management method and device
CN110151192	Auxiliary medical system for blood glucose monitoring and early warning and using method thereof
CN110152146	Household oxygen therapy intelligent management system and method for child patient with bronchopulmonary dysplasia
CN110162782	Entity extraction method and device based on medical dictionary, equipment and storage medium
CN110164521	Remote medical and medicine cabinet trustship system
CN110164526	Intelligent diet recommending system
CN110164534	Diabetes remote comprehensive intervention management service value excitation system based on blockchain
CN110164536	Whole-process intelligent medical triage system
CN110164537	One-station comprehensive intelligent first-aid service system
CN110164539	Method for analyzing working scheduling of medical equipment
CN110164540	Method for monitoring intensive caring equipment, device, equipment and storage medium
CN110164541	Method and system for determining working condition of medical equipment in period
CN110164548	Body examination system, equipment, storage medium and mobile terminal
CN110176285	Diabetes Internet relative monitoring-and-nursing management method and system
CN110176288	Motion accompanying method and mobile terminal using same
CN110176311	Automatic medical solution recommending method based on adversarial neural network and system
CN110177132	Medical health care management system based on cloud platform
CN110187682	Smart home-based care service system
CN110188186	Content recommendation method in medical field, electronic device, equipment and storage medium
CN110189802	Bidirectional mapping queue researching information system based on index storage model
CN110189806	Medical diagnosis-and-treatment health data storage system
CN110189808	Pregnancy data management method, system and storage medium
CN110189809	Medicine information processing method, device, storage medium and electronic device
CN110189810	Intelligent pharmaceutical service machine
CN110189822	Method for performing intelligent analysis based on machine ventilation parameter and waveform
CN110189823	Intelligent homologous health treating and preventing medical mode
CN110191189	Network medical consultation method and device, computer equipment and storage medium

CN110197229	Image processing model training method and device and storage medium
CN110197492	Heart MRI left ventricle segmentation method and system
CN110197716	Method and device for processing medical image and computer readable storage medium
CN110197721	Method and device for evaluating tendon condition based on deep learning and storage medium
CN110197732	Multi-sensor based remote health monitoring system, method and device
CN110209970	Sequence image display method, system and device, equipment and storage medium
CN110211647	Health monitoring method, device, television and server
CN110211658	AI medical+ intelligent medicine box
CN110211674	Bone age testing method based on machine learning model, and related equipment
CN110211680	Virtual diagnosis-and-treatment method, device and system
CN110211687	Decision method based on artificial intelligence primary liver cancer treatment plan
CN110211688	Pulse manifestation acquisition processing system, method, computer equipment and storage medium
CN110211695	Method for evaluating severe degree of lung fibrosis
CN110211698	Intelligent auxiliary diagnosis-and-treatment nursing system of old man group based on data mining
CN110211702	Over-area medical organization scientific research case online acquisition system
CN110211704	Engine method of open problem and server
CN110221800	Data processing method, device and system
CN110222827	Text-based depression determination network model training method
CN110223742	Clinical manifestation information extracting method of Chinese electronic medical record data and equipment
CN110223744	Diabetes Internet out-of-hospital remote reinforced intervention method and system
CN110223757	Recipe plan recommending method, device, medium and electronic equipment
CN110223768	Medical equipment data management system based on two-dimensional code and operation method thereof
CN110223769	Unmanned smart type traditional Chinese medicine clinic system
CN110223773	Method for predicting early-period liver function failure in artificial intelligent liver transplantation
CN110232957	diagnosis and treatment system based on artificial intelligence, construction method thereof, device and storage medium thereof
CN110232959	System and method for real-time reminding inspection and examination report status and content
CN110236590	Portable ultrasonic diagnosis and treatment instrument based on wireless communication for orthopaedics
CN110245211	Information display method and device, computing equipment and storage medium
CN110245623	Real-time human motion posture correction method and system

CN110245835	Motion planning scheme correction method and device, storage medium and computer device
CN110246046	Health notification case maintenance system, method and device
CN110246158	Eye disease detection device and method, electronic terminal and storage medium
CN110246555	Method for querying eyesight screening data
CN110246556	Three-grade eyesight screening monitoring system
CN110246557	Medicine chest data processing method, device, data processing method and device
CN110246582	Doctor-patient cooperation informationized platform system with informationized medical mode
CN110246587	Diabetes Internet one-station type complication consultation management method and system
CN110251079	Method for detecting patient pain for mobile device and system thereof
CN110264165	Medical equipment purchasing management system for modern hospitals
CN110265094	Surgery recording method, equipment and computer-readable storage medium
CN110265096	Hospital follow-up surveying system and follow-up surveying method
CN110265097	Data processing method for eyesight screening
CN110265098	Case management method, device, computer equipment and readable storage medium
CN110265101	Sharing method, doctor terminal, patient terminal, system, equipment and storage medium
CN110265103	Data output method, device and electronic equipment
CN110265104	Diagnosis report conformity testing method, device, computer equipment and storage medium
CN110265105	Three-grade eyesight screening monitoring method
CN110265117	Medical image generating method and device
CN110265120	Medical image processing method, device, computer equipment and storage medium
CN110265122	Image processing method based on endoscope system, device, equipment and storage medium
CN110265135	Dental water jetting quality testing evaluation system based on inertia sensor and method
CN110265144	Medical artificial intelligence application evaluating system based on doctor feedback
CN110265153	Chronic disease follow-up surveying method and electronic device
CN110266579	Instant message display method and system
CN110276589	Enterprise health management system and method
CN110276929	Intelligent remote mental disorder patient risk early warning system based on mobile intelligent terminal
CN110277148	Pet trusteeship and adoption system
CN110277152	Medication service system based on user portraits
CN110277176	Orthodontic treatment scheme demonstration system and method
CN110287306	Recipe recommendation method and device
CN110288567	An image analysis method for eyes
CN110289068	Medicine recommendation method and equipment

CN110289069	Clinical data analysis method and device, computer equipment and storage medium
CN110289076	Nutrition monitoring system for sick children in hospital
CN110289091	Student motion safety monitoring system based on smart bracelet and smart phone
CN110289093	Medical inquiry intelligent dialogue system engine
CN110289099	Brain health examination system based on cloud platform
CN110290527	Ultrasonic equipment control method, mobile terminal and control system
CN110298829	Tongue diagnosis method, device and system, computer device and storage medium
CN110298836	Method, device and system for judging intestinal tract preparation quality through artificial intelligence
CN110299203	Human abnormal gait recognition method based on smart phone
CN110299207	Data processing method for chronic disease detection based on computer prediction model
CN110309247	Step counting data processing method and device
CN110309471	Motion information pushing method and device, electronic equipment and storage medium
CN110309930	Method and device for making appointments for treatment based on face recognition, equipment and storage medium
CN110310715	Data importing method, data importing device, terminal and storage medium
CN110310732	Multilevel-linkage rehabilitation medical technology complex system
CN110310741	Electronic market system for medical artificial intelligence application
CN110310744	Method for constructing virtual physiological tissues of sinus node, storage medium and computing device
CN110311974	Cloud storage service method based on asynchronous messages
CN110321424	Acquired immune deficiency syndrome personnel behavior analysis method based on deep learning
CN110322948	Nutrition guidance system
CN110322964	Health state display method and device, computer equipment and storage medium
CN110322972	Intelligent drug toxicity judgment method and device and computer readable storage medium
CN110327143	Weight loss method preventing regain and device thereof
CN110335248	Medical image focus detection method and device, computer equipment and storage medium
CN110335304	Skin lesion area measurement method based on image recognition and skin disease diagnosis and treatment system
CN110335647	Clinical data standardization system and standardized data acquisition method
CN110335652	Medical record information synthesis method and device and server
CN110335658	Rehabilitation training system and method based on IMU technology
CN110335683	Health big data analysis method and device
CN110335687	Remote consultation method and system and computer readable storage medium
CN110347913	Information pushing method and system based on hospital diagnosis and treatment

CN110348326	Family health information processing method based on identity card recognition and multi-device access
CN110348944	Internet glasses selling system and method for remote optometry and real object trial
CN110349066	Preschool education auxiliary system and method
CN110349641	Health information query device convenient to operate
CN110349643	Medicine prescription information input system and medicine prescription information reading system
CN110349650	Food material recommendation method, device and system
CN110349657	Post-diagnosis service method based on mobile internet and cloud platform
CN110349658	Intelligent appointment registration station
CN110349675	Cardiovascular disease prediction equipment and device
CN110349679	Clinical test resource statistics method, sponsor selection method and system
CN110353641	Vital sign monitoring method and system
CN110353911	Network intelligent remote interactive nursing system
CN110362700	Data processing method and device, computer device and storage medium
CN110363296	Task model acquisition method and device, storage medium and electronic device
CN110364235	User motion plan customizing method, device, computer equipment and storage medium
CN110364240	Health data monitoring method, device, computer equipment and storage medium
CN110364242	Student motion and health data management system
CN110364244	Dining room food-and-drink system for health management and method
CN110364246	Student mental health index calculating method and campus mental health touring system based on mobile phone APP
CN110364257	Driver-and-vehicle risk predicting method, device, medium and electronic equipment
CN110364271	Remote consultation management device for home-based old man caring
CN110365744	Multifunctional intelligent health first-aid station operation system and method
CN110367935	Wearable biological tissue temperature field detecting system based on temperature sensor array
CN110368000	NFC-based continuous blood glucose testing instrument and testing method
CN110379471	Method for acquiring national health data
CN110379475	Method for perfecting clinical guidance based on electronic medical record, device and storage medium
CN110379477	Traditional Chinese medicine interrogation method based on big data platform and system
CN110379487	Nutrition plan management system
CN110379498	Monitoring curve displaying method, device and electronic equipment
CN110379500	Convenient carrying remote medical management device
CN110379501	Virtual geracomium ecological system based on Blockchain

CN110379523	Infrared remote diagnosis method based on cloud platform, and system
CN110381296	Intelligent health management system and method for empty-nest elderly people
CN110390021	Medicine knowledge graph construction method and device, computer equipment and storage medium
CN110391007	Exercise plan management system and method for providing exercise plans
CN110391008	Fitness processing method based on smart home operating system, and smart home device
CN110391027	Potato late blight pathogenic bacteria field diagnosis and prediction model system
CN110399853	Autism information processing system based on expression data and deep convolutional neural network
CN110400615	Medical data processing method and related product
CN110400625	Medical image format conversion method, device, equipment and storage medium
CN110400629	Ultrasonic equipment, scanning parameter combination acquiring method thereof, device and system
CN110400630	Business mode and device of mobile hospital
CN110401693	Medical data transmission method and device, electronic device and storage medium
CN110413981	Quality inspection method for electronic medical records and reminding method and device for similar medical records
CN110414479	Drinking water behavior sensing method and continuous and discontinuous action segmentation and recognition method
CN110414590	Human body activity identification method based on intelligent mobile equipment and convolutional neural network
CN110415239	Image processing method, device, equipment, medical electronic equipment and medium
CN110415779	Method, apparatus and device for detecting effectiveness of thermal insulation measure and storage medium
CN110415780	Drug administration control method, drug administration device and terminal equipment
CN110415781	Drug administration device
CN110415784	Data processing method and device
CN110415800	Emergency medical system for sudden-onset disaster accidents
CN110415801	Smart medical system based on big data
CN110415803	Sudden cardiac arrest out-of-hospital emergency treatment management method, device and system
CN110415804	Software implementation method for automatically generating diagnosis and treatment planned time instructions and software management system and working station thereof
CN110415811	Intelligent remote consultation terminal and application method
CN110415831	Medical big data cloud service analysis platform
CN110418317	Intelligent mobile phone and matched Bluetooth technology remote medical system
CN110428538	Hospital triage guiding queuing method, system and platform and storage medium

CN110428877	Blood glucose detection system for old people in community
CN110428890	Medical guidance method and system
CN110432892	Machine learning ECG automatic diagnosis system
CN110442732	Intelligent medical guide method and system and storage medium
CN110442840	Sequence labeling network updating method, electronic medical record processing method and related devices
CN110444261	Sequence labeling network training method, electronic medical record processing method and related device
CN110444262	Collection system for traditional Chinese medicine diagnosis and treatment data
CN110444263	Disease data processing method, device and equipment based on federal learning and medium
CN110444271	Dietary recommendation generation method and device, computer equipment and storage medium
CN110444284	Intelligent auxiliary nursing and monitoring system
CN110444285	Chronic disease management system and method
CN110444297	Medical information recommendation method, device and equipment and readable storage medium
CN110457881	Management method, management device, terminal and storage medium
CN110459279	System and method applicable to Prader-Willi syndrome screening
CN110459285	Disease treatment data preprocessing method and system, equipment and medium
CN110459291	Intelligent planning system and method for smoking cessation assistance based on mobile intelligent terminal
CN110459295	Healthy diet management method
CN110459296	Information pushing method and related product
CN110459308	Multimedia propaganda and education method, system and platform in inpatient ward and storage medium
CN110459310	Intelligent medical management system based on big data
CN110459311	Medicine taking reminding system and method for remotely monitoring medicine taking situation of patient
CN110459313	Intelligent medical cloud-side system in combination with data mining and intelligent learning algorithm
CN110460805	Online medical maintenance method based on video communication
CN110464319	Bracelet health monitoring system
CN110472481	Sleeping posture detection method, apparatus and device
CN110472509	Face image-based fat and thin recognition method and device, and electronic equipment
CN110473599	Information processing method and device, electronic equipment and storage medium
CN110473604	Nutrition management method, electronic equipment and storage medium
CN110473617	Intelligent obstetrics department management platform and method
CN110473622	Information processing method and device, electronic equipment and storage medium
CN110473624	System based on internet hospital platform

CN110473631	Intelligent sleep monitoring method and system based on real-world research
CN110473633	Health information management method and device, medium and electronic equipment
CN110477862	Intelligent chip device based on dynamic monitoring and analysis of heart functions and application method thereof
CN110477922	Method and system for limb motion detection
CN110478631	Ultrasound treatment device, method thereof and data processing device
CN110489577	Medical image management method and device, fundus image processing method and electronic device
CN110491456	Medical data transmission method and device
CN110491458	Hypertension nursing system and method
CN110491467	Personal and family heart health protection platform and method
CN110491468	Processing method and system for sleep quality report
CN110491490	Doctor evaluation method and device
CN110491491	Administrative office consumption statistical method and device, electronic equipment and non-transient storage medium
CN110491497	Remote fundus photographing radiogram reading method, photographing method and system and photographing transfer box
CN110491500	Identity recognition system and method based on cardiac function dynamic monitoring and analysis
CN110491510	Body measuring device and method and health management opinion report generating device
CN110491524	Continuous internet diagnosing and treating method and system, user terminal, doctor terminal and cloud server
CN110496308	Functional electric stimulation system capable of providing customized rehabilitation training and control method
CN110496367	Feedback control system and feedback control simulation method for spine breathing stretching trainer
CN110501504	Blood content detection method and system
CN110502107	Wearable real-time action guidance system and method
CN110502303	Method and device for evaluating ability of old people, electronic equipment and storage medium
CN110502625	Medical question answering method, device and equipment and computer readable storage medium
CN110504010	Intelligent diagnosis and treatment management method and system and intelligent clinic using same
CN110504011	Remote video screen diagnosis and treatment system
CN110504021	Hospital bed scheduling method, device and system and electronic equipment
CN110504028	Disease inquiry method, device and system, computer equipment and storage medium
CN110516234	GRU-based traditional Chinese medicine text word segmentation method, system and device, and medium
CN110517230	Foot morphological analysis and diagnosis system
CN110517239	Medical image detection method and device

CN110517248	Fundus image processing method, device and equipment and fundus image training method, device and equipment
CN110517737	Biological sample library management method and system, computer equipment and storage medium
CN110517743	HIS card-free treatment method based on two-dimensional code
CN110517745	Medical examination result display method and device, electronic equipment and storage medium
CN110517752	A method for collecting dietary intake information in real time
CN110517761	Medical card association method and device, equipment and storage medium
CN110517763	Remote monitoring system and equipment for CRRT
CN110517767	Auxiliary diagnosis method and device, electronic equipment and storage medium
CN110517780	Aneurysm rupture risk assessment method and system
CN110517785	Similar case searching method and device and equipment
CN110517791	Working method based on big data intelligent inquiry system
CN110533634	Scheme recommendation method and device based on artificial intelligence, computer device and storage medium
CN110534159	Construction method and device of gene disease association analysis system and computer equipment
CN110534167	Diabetes patient medical care system based on personalized diaries
CN110534168	Medicine advice risk prompting method and device, electronic equipment and storage medium
CN110534174	Radiotherapy plan analysis method, device and equipment
CN110534176	Big data intelligent disease prevention and health maintenance application system
CN110534193	Aneurysm rupture risk assessment method and system
CN110534198	User health management system
CN110534200	Personnel efficient physical examination risk management and control system
CN110535927	Internet of Things system for monitoring and analyzing pet health information
CN110543607	Page data generation method and device, computer equipment and storage medium
CN110544520	Intelligent implementation method for reducing food-borne diseases
CN110544521	Diet health management system
CN110544526	Intelligent hospital guide processing method and system and server
CN110544532	APP-based sound source space positioning capability detection system
CN110544541	Monitoring and evaluating system for life and health states of old people
CN110556172	Slide archiving method, equipment terminal, slide archiving system and readable storage medium
CN110569909	Fault early warning method and device based on block chain, equipment and storage medium
CN110570916	Medical consultation auxiliary method and system, device, and storage medium
CN110570925	AI diet health steward, and control method and device
CN110570934	5G IoT-based financial payment drone smart medical system and method

CN110570940	IoT architecture for medical health diagnosis
CN110570949	Health monitoring method for the aged in smart community, computer device, and readable storage medium
CN110570954	Home-side remote diagnosis system based on IoT application
CN110575130	Remote optometry system and method and storage medium
CN110575165	Application (APP) for brain monitoring and intervention through cooperation with electroencephalogram (EEG) device
CN110575373	Visual training method and visual training system based on VR all-in-one machine
CN110580136	Display method, equipment and system and computer readable storage medium
CN110580945	Menu recommendation method and device and storage medium
CN110580952	Large-scale unmanned hospital system using artificial intelligence
CN110580953	Disease diagnosis system and method adopting artificial intelligence
CN110580955	Disease information identification method and device, computer equipment and storage medium
CN110584643	Portable voice electrocardiogram detector
CN110597434	Verification result display method and device based on health protection item
CN110598458	Method, device and system for obtaining medical prescriptions based on block chain
CN110598474	Data acquisition method, system and device based on block chain and storage medium
CN110598549	Convolutional neural network information processing system based on cardiac function monitoring and training method
CN110600131	Health check method and device based on physical examination recommendation
CN110600133	Health monitoring method for the aged in smart community, computer device and readable storage medium
CN110601757	Information system of medical emergency center and application method
CN110602089	Medical data storage method and device based on block chain, equipment and storage medium
CN110610317	Matching system and method for qi-deficiency constitution and health-care environment
CN110610750	Eye disease clinical data processing method and system
CN110610753	Recipe recommendation method, device and system and computer readable storage medium
CN110610768	Eye use behavior monitoring method and server
CN110613459	Tinnitus and deafness detection, matching and treatment system based on shared cloud computing platform
CN110619939	Blood transfusion closed loop system and method and computer storage medium
CN110619961	Medicine management method, medicine management system and storage medium
CN110633346	Motion route recommendation method and device and storage medium
CN110634076	User health verification method and device for health guarantee project
CN110634111	Skin optical transparency analysis method and system based on gray scale and pixel number of blood vessel area

CN110634125	Fetal ultrasound image recognition method and system based on deep learning
CN110634543	Fat reduction management platform and implementation method thereof
CN110634552	Recipe pushing method and device based on Internet of things operating system
CN110634556	Nursing monitoring and management system based on Internet of things
CN110634559	Health examination intelligent guide system using smart phone
CN110634568	Health guarantee information display method and device
CN110634576	Remote medical monitoring system based on sensor
CN110648242	Method and device for identity verification in health guarantee project
CN110648730	Method and system for identifying health state of subject
CN110648737	Knowledge base establishing system and method based on old people care guide and disability and dementia
CN110660395	Safety report generating method and device based on voice recognition
CN110660459	Method and device for medical record quality control, server and storage medium
CN110660473	Efficient help-seeking and pre-hospital emergency rescue system
CN110660476	System and method for intraoperative rapid remote pathological diagnosis
CN110660481	Primary liver cancer recurrence prediction method based on artificial intelligence technology
CN110660482	Traditional Chinese medicine prescription intelligent recommendation system based on big data and control method thereof
CN110660484	Bone age prediction method and device, medium and electronic equipment
CN110660490	Examination sheet issuing method and system and computer readable storage medium
CN110660493	Health management system of offshore oil production platform
CN110664365	Accurate screening system for cervical cancer
CN110674073	Intelligent reminding pipeline machine and reminding method thereof
CN110674392	Project recommendation method and device based on historical health records
CN110674430	Medical image processing method and device based on browser, terminal and storage medium
CN110675389	Food recommendation method, storage medium and smart home equipment
CN110675926	Health management system based on face recognition and implementation method thereof
CN110675934	Remote rehabilitation training system for patients of limb dyskinesia
CN110675935	Smart gym coach
CN110675939	Image processing method, picture processing device and computer-readable storage medium
CN110675942	Medical image diagnosis allocation method and device, terminal and storage medium
CN110675955	Mental health early warning and management method, system and device and storage medium
CN110675958	Method and device for determining oncotherapy regimen change
CN110688568	Menu recommendation method and device

CN110689025	Image recognition method, device and system and endoscope image recognition method and device
CN110689944	Intelligent guidance method of diet clock-in system for healthy diet and rehabilitation of user
CN110689963	Chronic disease risk prediction method for analyzing food nutritional ingredients based on deep learning
CN110689967	Communication platform convenient for patients and doctors to know treatment conditions
CN110705214	Automatic coding method and device
CN110706787	College student emotional help-seeking intelligent system
CN110706796	Perioperative period information management method and device
CN110718296	Analysis system for influence factors of postoperative recovery of severed finger replantation
CN110720891	Deep learning body management system based on smart bracelet and method thereof
CN110728163	Two-dimensional code authenticated by opaque medium and authentication system thereof
CN110728315	Real-time quality control method, system and equipment
CN110729031	Physiotherapy service system, communication method and device thereof
CN110729037	Medical ERP management system
CN110729041	Electronic recording method for medical equipment, intelligent terminal and storage medium
CN110729044	Training method of diabetic retinopathy stage recognition model and diabetic retinopathy recognition equipment
CN110738544	Data processing system, method and equipment of medicine storage platform
CN110739047	Patient image color restoration method, device and equipment and readable storage medium
CN110739067	Personal health data acquisition management system based on smart home
CN110750224	DICOM image processing method, device and equipment and readable medium
CN110751890	Cardiopulmonary resuscitation training and assessment system based on virtual reality technology
CN110751997	Production system and production method of shell-shaped dental appliance
CN110752008	An intelligent early warning system for depression of college students
CN110752009	College student psychological complaint intelligent system
CN110752022	Electronic maintenance method of medical equipment, intelligent terminal and storage medium
CN110752028	Image processing method, device and equipment and storage medium
CN110752038	Suitable-for-health recommendation system and method with influence of current environment on blood stasis constitution being considered
CN110765803	Invisible two-dimensional code and identification system thereof
CN110767286	Chronic disease active management method based on mobile Internet
CN110767292	Pathological number identification method and device, information identification method and device and information identification system

CN110767294	Resource scheduling method and device, electronic equipment and readable storage medium
CN110772235	Intelligent health analysis system for traditional Chinese medicine based on cloud computing and mobile platform
CN110782379	Intelligent home-based care system scheme
CN110782963	Information interaction method and device and computer-readable storage medium
CN110782977	Medical logistics service platform
CN110782979	Medical task assignment method and device, electronic device and storage medium
CN110782985	Feature processing method and related device
CN110784509	Medical information processing method and system and related components
CN110795648	Medical image case playing method and device based on browser, terminal and medium
CN110797114	Medical software for intelligent terminal inquiry and method thereof
CN110806825	Medical record quality inspection method and device
CN110808094	Medical logistics personnel allocation system
CN110825862	Intelligent question-answering method and device based on pharmaceutical knowledge graph
CN110827019	Mobile medical insurance payment method based on block chain, storage medium and computer equipment
CN110827929	Disease classification code identification method and device, computer equipment and storage medium
CN110827940	Health data management method based on wearable devices
CN110827950	Anesthetic dosage determination method, model training method and model
CN110827954	Intelligent health menu recommendation system
CN110827979	Prediction system and method based on blockchain
CN110827985	Method and device for determining old people care scheme, computer equipment and medium
CN110827986	Developmental reading disorder screening method, device and equipment and storage medium
CN110827997	Intensive care system based on artificial intelligence
CN110837565	Model training method and device for realizing drug recommendation, and computing meter device
CN110838125	Medical image target detection method and device, equipment and storage medium
CN110838351	Prescription allocation coordination management method, server and system
CN110838362	Intelligent ward information interaction system and method
CN110853728	Health recommendation information processing system and method
CN110853748	Remote intelligent medical safety service system based on Internet big data
CN110853753	Home rehabilitation nursing system for old people with cognitive impairment
CN110853765	Intelligent human-computer interaction system based on environment visualization

CN110856686	Virtual reality training system for amblyopia patients
CN110859472	Internet of Things technology-based biological intelligent cup
CN110867222	Medical follow-up visit system design of mobile topspeed communication
CN110867230	Hemodialysis room intelligent information recognition and management system
CN110867231	Disease prediction method and device based on text classification, computer equipment and medium
CN110867245	Emergency treatment auxiliary diagnosis grading system
CN110880363	Height increase assistance management system and method
CN110880368	Remote visual traditional Chinese medicine diagnosis and treatment system
CN110883904	Preparation system and method of shell-shaped dental appliance
CN110890153	Intelligent home-based care intelligent nursing alarm system
CN110895669	Method for constructing atrial fibrillation prediction decision tree
CN110895969	Atrial fibrillation prediction decision tree and pruning method thereof
CN110895970	Data processing method and device, electronic equipment and computer readable medium
CN110895972	Atrial fibrillation artificial intelligence experiment index selection method and application of prediction decision tree in atrial fibrillation prediction
CN110895973	Remote clinical consultation platform system
CN110898329	Multi-path intelligent low-frequency acupuncture therapeutic instrument
CN110909028	Modular menu creation method and device, storage medium and computer equipment
CN110909566	Health analysis method, mobile terminal and computer readable storage medium
CN110910988	Diet recommendation method, device and equipment
CN110910989	Psychological scoring method and device, electronic equipment and storage medium
CN110911005	Data analysis system and server
CN110911015	Disease name standardized rapid calculation method based on profile implicit Markov model
CN110931102	Bone age and height management system and use method
CN110931106	Exercise monitoring and evaluating system
CN110931110	Diet recommendation method and device
CN110956293	Advanced appointment registration system
CN110957018	Portable comprehensive intelligent interactive fitness system and method
CN110957025	Medical and health information security management system
CN110957029	Intelligent first-aid system and method, and storage medium
CN110970105	Physical examination report broadcasting method and device, electronic equipment and storage medium
CN110970106	Medicine-taking auxiliary management system
CN110970107	Foreigner-oriented medicine taking auxiliary management system
CN110970111	Orthodontic information statistical method and system for shell-shaped dental appliance
CN110970136	Chronic disease management system and method driven by clinical research

CN110970137	Intelligent cloud nursing system and method based on 5G mobile communication
CN110973721	Electronic cigarette control method and device
CN110974235	Intelligent outdoor body measurement kiosk
CN110991170	Electronic medical record information-based Chinese disease name intelligent standardization method and system
CN110993043	Medical health management system
CN110993048	Mobile ward round system based on hospital information platform
CN110993058	Sport guidance method and mobile terminal using same
CN110993071	Plastic surgery reservation method and system, terminal and readable storage medium
CN110993078	Medical triage method and device and storage medium
CN110993094	Intelligent auxiliary diagnosis method and terminal based on medical images
CN110993100	Missing value filling method of juvenile myopia prediction system and system using method
CN110993103	Establishment method of disease risk prediction model and recommendation method of disease insurance product
CN110993122	Medical health information management system based on cloud computing
CN111000540	Student physical health detection system
CN111009294	Electronic health record management system based on big data
CN111009304	Deep squatting motion monitoring method and device
CN111009313	General practitioner homogeneous training information platform and method based on cloud management
CN111009320	Data processing method and device, storage medium and electronic equipment
CN111028917	Intelligent dinner plate nutrition management system
CN111028928	Intelligent display system and method for resource management information of image department
CN111028937	Real-time remote auscultation method and system
CN111028947	Cancer prevention health management method and system
CN111031280	Novel newsstand with monitoring and rescuing functions
CN111046273	Diet scheme recommendation method and device and terminal equipment
CN111046277	Multi-terminal combined incubation information recommendation method and device
CN111046882	Disease name standardization method and system based on profile implicit Markov model
CN111048191	Medical service reservation processing method and device
CN111048196	Hospital equipment management system and management method thereof
CN111048201	Intelligent cancer risk prediction method and system
CN111048205	Method and device for evaluating Parkinson's disease symptoms
CN111048210	Method and equipment for evaluating disease risk based on fundus image
CN111061944	Physiological period management method and system

CN111063413	Method and device for adjusting medication scheme based on medication condition
CN111063414	Method and device for implementing interaction between intelligent medicine chest and wearable equipment
CN111063418	Dental laser therapeutic instrument management system and computer readable storage medium
CN111063419	Intelligent healthy diet management system
CN111063427	Health data acquisition method and management system
CN111063428	Method and device for interaction between intelligent medicine chest and user terminal
CN111063437	Personalized chronic disease analysis system
CN111063452	Medicine matching method and computer equipment
CN111063454	Medical care management system and method
CN111063455	Man-machine interaction method and device for remote medical treatment
CN111063456	Clinical nursing system based on block chain technology
CN111080186	Vaccine management system
CN111081350	Method and device for pushing smart home equipment information based on user characteristics
CN111081367	Medical follow-up visit method and system
CN111081385	Human excretion nursing machine data collector based on mobile Internet home care service cloud platform
CN111081387	Traditional Chinese medicine physiotherapy management system based on big data and artificial intelligence
CN111084613	Novel intelligent old-age nursing system based on wireless passthrough technology
CN111091885	Online application method, device and system for medical certificate of birth, and computer equipment
CN111096618	Intelligent magic mirror
CN111096907	Medicine carrying reminding method and device and intelligent medicine box
CN111104995	Surgical instrument management system and method based on radio frequency identification
CN111105849	Channel collaborative satisfaction survey method and system based on big data
CN111107447	Digital intercom system, medical image equipment and audio processing method
CN111107529	Physical examination data transmission and storage method
CN111111110	Doctor-patient interaction control system and method for rehabilitation training VR bicycle
CN111125309	Natural language processing method and device, computing equipment and storage medium
CN111125516	Intelligent menu recommendation method and system based on image recognition
CN111125522	Method for recommending exercise scheme to user, electronic equipment and storage medium
CN111125755	Medical field data processing system and method based on blockchain architecture technology

CN111127451	Skin state identification method and device, storage medium and terminal
CN111128326	Community patient monitoring method and community patient monitoring system based on target tracking
CN111128381	Active 120 system based on artificial intelligence
CN111128404	Remote consultation device, remote consultation method and remote consultation system
CN111143868	Clinical diagnosis report security encryption and cross-hospital sharing method and system
CN111145092	Leg surface infrared blood vessel image processing method and device
CN111145419	Medical queuing system and method, electronic equipment and storage medium
CN111145850	Medical data query method and device based on blockchain
CN111145857	Management method for medical advice execution of discharged patient
CN111145860	Inpatient department medicine dispensing method and system and storage medium
CN111145886	Medical and health care combined service management platform and method
CN111145891	Information processing method and device and electronic equipment
CN111145900	Information prompting method and device, storage medium and electronic device
CN111150654	Intelligent kit having medication management
CN111158475	Method and device for generating training path in virtual scene
CN111159369	Multi-round intelligent inquiry method and device and computer readable storage medium
CN111160697	Bus driver on-duty judgment method based on pattern recognition and related equipment
CN111161829	Method and device for recommending health schemes based on medication conditions
CN111161836	Management system for research data of acupuncture and massage rehabilitation department
CN111161840	Method of analyzing basic nutrients of food
CN111161843	Food nutrient collection method based on smart phone
CN111161845	Healthy diet monitoring system based on intelligent mobile terminal and use method thereof
CN111161854	Medicine management method and medicine management equipment
CN111161860	System and method for processing primary-level medical information based on edge computing
CN111161883	Disease prediction system based on variational auto-encoder and electronic equipment thereof
CN111178309	Business processing method and device
CN111178408	Health monitoring model construction method and system based on federated random forest learning
CN111180029	Informatization construction assistance clinical nursing risk prevention and control system
CN111180059	Telemedicine monitoring system based on 5G network
CN111180070	Medical record data analysis method and device
CN111180077	Medical beauty theme identification method, device and equipment and storage medium

CN111190487	Method for establishing data analysis model
CN111191287	Block chain-based medical insurance drug price control management method and device and medium
CN111192037	Payment method and device and terminal equipment
CN111192643	Medical record data processing method and related equipment
CN111192648	Electronic prescription cloud storage method and system, electronic equipment and computer storage medium
CN111192652	Medication follow-up method and medication follow-up device
CN111192654	Medication guidance query method and device based on knowledge graph
CN111192655	Online medical method and system, electronic equipment and computer storage medium
CN111192679	Image data exception processing method and device and storage medium
CN111199783	Statistical method and device for health income information and terminal equipment
CN111199784	WeChat-applet-based medication guidance pushing method, device and equipment
CN111200792	Group movement construction method
CN111210438	Mirror
CN111210887	Medical text processing method and device, computer readable storage medium and electronic equipment
CN111210895	Psychological counseling method and system for open service interface
CN111210901	Intelligent emergency ambulance management system and method
CN111223565	Real-world multi-source data-driven young diabetes patient health literacy evaluation method
CN111243760	Health management service network platform system
CN111261254	Prescription generation method and device and medical advice data entry system
CN111276259	Methods for service determination, network interaction and classification, clients, servers and mediums
CN111292856	Interaction method and device and computer equipment
CN111297366	Data processing method for assisting in disease diagnosis based on daily necessities and diagnostic device
CN111301698	Life rescue flying platform and rescue method thereof
CN111312353	Flora and donor immune information traceable system
CN111312383	Method and server for acquiring reference data of equipment utilization rate and system for acquiring utilization rate reference data of equipment
CN111354432	Human body image anesthesia recording system
CN111354437	Accurate nutrition recommendation method based on diet record analysis
CN111354443	Remote pathological diagnosis section digital image processing and transmission technology
CN111354446	Operation room anesthesia management system
CN111354447	Medical administration information management system, terminal and storage medium
CN111354463	Human health measurement method and device, computer equipment and storage medium

CN111354476	Mobile telemedicine comprehensive service system based on Internet
CN111358117	Intelligent insole with multiple sensors and health management system applying intelligent insole
CN111372210	Remote transmission method, terminal equipment, mobile terminal and computer storage medium
CN111374673	Knee joint injury early warning equipment, server, system and intelligent running shoes
CN111374872	Intelligent vision prevention and control device for whole eye muscle
CN111374873	Intelligent myopia prevention and control instrument for students
CN111415729	Doctor-patient management system and method based on WeChat applet
CN111461584	Medicine inventory system
CN111477289	Method and device for storing and reading detection report
CN111477345	Intelligent remote medical system
CN111477347	Online configuration medical module platform system and using method thereof
CN111489807	Multi-terminal information-assisted mental disease diagnosis and treatment system based on mobile terminal
CN111489811	Patient information real-time management system
CN111554375	Postoperative rehabilitation monitoring system for joint replacement
CN111627518	Rehabilitation system and method thereof
CN111696671	Intelligent follow-up visit system and method adopting voice interaction mode between user and home robot
CN111723277	Image structured report cloud demand classification system and method thereof
CN111724894	Data acquisition method and device, terminal and storage medium
CN111755134	Intelligent medical system based on big data
CN111916168	Health care management platform
CN111916222	Medical monitoring system, pushing terminal and monitoring message pushing method
CN111932784	Medicine temporary storage cabinet and medicine dispensing system and method
CN111949858	Method and device for pushing information and presenting information
CN111951928	Method for controlling caloric intake, mobile terminal and computer storage medium
CN111951935	Medical cloud system, method and system for medical big data processing and medium
CN112002435	Bluetooth-based remote intelligent control positioning monitoring system
CN112037879	Personal intelligent diet monitoring module and method
CN112071388	Intelligent medicine dispensing and preparing method based on deep learning
CN112071414	Event state management method and system
CN112075936	Health management all-in-one machine
CN112100629	Medical data processing method, device and system
CN112102938	Sleep staging method and device
CN112116968	Medical examination report identification method, apparatus and device, and storage medium

CN112117013	Cloud-based vehicle-mounted intelligent medical first-aid system and use method
CN112151138	Measurement result input method and device, medical system and storage medium
CN112151181	Diagnosis and treatment management method and system and storage medium
CN112289428	Home care information collection equipment
CN112386231	In-vivo temperature measurement method, in-vivo temperature measurement device, equipment and storage medium
CN112386245	Method for analyzing physical conditions from tongue
CN112396267	Case scheduling planning method and system and computer program product
CN112396536	Intelligent service implementation method and device
CN112397182	System, subsystem and method for emergency alarm and alarm receiving and storage medium
CN112420160	Ordering data analysis system of intelligent cooking machine
CN112446035	Data management method and device
CN112447281	Information processing system, information processing method, and program
CN112466419	Patient information management method, device and system
CN112472901	Needle management system
CN112489797	Accompanying method and device and terminal equipment
CN112489798	Human body state evaluation method and device, human body data visualization method and device, equipment and medium
CN112582037	Method for temporarily calling out sample, assembly line system and computer readable storage medium
CN112582063	BMI prediction method, device and system, computer storage medium and electronic equipment
CN112669952	Medical imaging system, wireless network access method and encrypted identifier generation method
CN112669953	Community comprehensive service management platform based on Internet of Things
CN112711642	Medicine name matching method and device
CN112749321	Data processing method, client, server, system and storage medium
CN112750512	Data processing method, client, server, system and storage medium
CN112750515	Health prompting method and related product
CN112802572	Control method and device, intelligent mirror and storage medium
CN112825209	Emergency disease alarm system based on real-time positioning technology
CN112825272	Nursing plan generation method and device, electronic equipment and readable storage medium
CN112842356	Data processing method, device, equipment and system
CN112863632	Medication data acquisition system and method
CN112863639	Data processing method, device, equipment and machine readable medium
CN112863690	Intelligent medicine chest management system
CN112869894	Design method, preparation system and preparation method of shell-shaped tooth appliance

CN112885449	Treatment parameter setting method and device, breathing machine and server
CN112908490	Chronic disease follow-up control method, device and system
CN112927800	Method, device, electronic equipment and medium for pushing message to user
CN112949788	Intelligent medicine box
CN112992333	Diagnostic device and method for diagnosing adequacy of hemodialysis
CN113035336	Social security docking method, device and system for hospital information system and electronic equipment
CN113053490	Psychological behavior feedback system and method based on sensory characteristics of young people
CN105956174	It a kind of constructive memory chain and is used for reinforcing the method for memory
CN109741836	Remote monitoring intelligent medical system based on image processing
CN109859818	Intelligent medical system for controlling doctor's permission of opening medicine
CN105404788	A kind of distributed medical diagnostic system
CN106599582	A kind of prediction cognitive function assessment system and method based on Intelligent mobile equipment
CN107633877	Drug management system
CN109166609	Nursing data sharing method based on Internet of Things
CN109326353	Method and device for predicting disease endpoint event and electronic equipment
CN110189831	Medical record knowledge graph construction method and system based on dynamic graph sequence
CN110237433	Illumination adjusting device and method based on hyperspectrum
CN110322953	Intelligent accompanying system and accompanying method thereof
CN104699958	A kind of method and device for recommending menu according to user's body situation
CN104767802	Prehospital emergency medical care is emergent to help integrated system and its application
CN104850731	A kind of intelligence system for guiding user's living habit
CN104867081	A kind of intelligent health management system and method
CN104951530	A kind of stretching exercise data push method and supplying system based on smart machine
CN104951894	Hospital's disease control intellectual analysis and assessment system
CN105138844	A kind of information processing method, device and smartwatch
CN105184045	A kind of medical queuing strategy of medical treatment based on mobile location information and system
CN105205766	Mobile internet hospital system of seeing a doctor based on cloud platform
CN105243270	Diet monitoring method, device, system and food and drink furniture
CN105279387	A kind of evaluation and test of execution function and training system towards autism-spectrum disorder with children
CN105303059	A kind of remote diagnosis system based on Intelligent mobile equipment and intelligent big data analysis
CN105354270	User's medical data querying method and distributed system

CN105373697	Sleep pattern open method and device
CN105373986	The implementation method of hospital's film-free cloud computing
CN105426694	Method and device for generating dietary therapy menu
CN105426695	A kind of health status detecting system based on iris
CN105447304	A kind of early warning system and mobile terminal based on self-learning algorithm
CN105528519	The method and device of intelligent assistance cleaning tooth
CN105678064	Body-building proposal recommending method and device
CN105678075	Diagnostic method and platform are surveyed in a kind of blood cell shape analyte joint inspection
CN105678092	Intensive Care Therapy intelligent alarm based on Internet of Things manages system
CN105700909	A kind of health examination data query method and system based on Alipay service window
CN105808735	Data processing method and device
CN105808946	Mobile telemedicine system based on cloud computing
CN105872112	A kind of Traditional Chinese medicine decocting room Telecommunications Control System
CN105893735	Medical information remote co-screen assistance method and terminal
CN105912848	A kind of medical service system based on APP
CN105912881	Personalized therapy program recommender system based on big data knowledge base
CN105956386	Health indicator index classification system and method based on Healthy People rabat
CN105989231	Medical image forms device and medical image forms system
CN106021894	A kind of remote diagnosis support system of ultraviolet phototherapy instrument
CN106021956	Medical patient information management system
CN106023466	The interconnection of doctors and patients' prescription and intelligent drug storage dissemination system
CN106027684	Medical cloud data distribution formula monitoring method
CN106055908	Personal medical information recommended method and system based on cloud computing
CN106055909	Therapeutic scheme recommender system based on big data knowledge base
CN106066938	A kind of disease prevention and health control method and system
CN106095093	A kind of data processing method and device
CN106126873	Therapeutic scheme recommended method and system
CN106131018	A kind of doctors and patients' information management system based on network security
CN106156506	The histoorgan puppet colour display screen of two-dimensional medical images shows method and device
CN106202869	Emotional affection way system and emotional affection communication method
CN106202902	A kind of individuation diabetes B quantization motion scheme generation system
CN106202924	One kind carrying out functional electrostimulation muscular training system based on body measured data

CN106202953	A kind of data analysing method and system
CN106228005	Data processing method and system
CN106228032	Drug towards time array takes management method and system
CN106264554	visible light-based blood oxygen saturation detection method and system
CN106295099	Input information determines method and apparatus
CN106295139	A kind of tongue body autodiagnosis health cloud service system based on depth convolutional neural networks
CN106295750	Embryo cryopreservation management control system based on vitro fertilization-embryo implanting
CN106326623	Health and fitness information processing method and system
CN106326626	A kind of health sufferer information input system
CN106326645	Therapeutic scheme Informational support manages system
CN106326657	The recommendation method and system of dosing regimens
CN106326670	Consultation system
CN106339578	A kind of patient in hospital of more strategy fusion is registered recommendation method
CN106339579	A kind of diet control method of mobile health and medical treatment
CN106339591	A kind of self-service healthy cloud service system of prevention breast cancer based on depth convolutional neural networks
CN106341473	A kind of record Parkinsonian's health data system and data input record method
CN106354994	Handle the method and system of medical data
CN106355533	Medical passenger display screen and medical system and method
CN106372390	A kind of self-service healthy cloud service system of prevention lung cancer based on depth convolutional neural networks
CN106407679	Mobile interchange cross-platform cross equipment remote diagnosis system
CN106407680	A kind of remote diagnosis system
CN106407712	A method of effectively verifying diagnosis and treatment moving position in Mobile medical system
CN106407713	Information-based medication alert method
CN106407721	A kind of doctor's reservation hospital register method of achievable classification diagnosis and treatment
CN106446486	Limb movement function evaluation method and implementation system thereof
CN106485079	A kind of medical image cloud processing method
CN106485083	Home user sign data monitoring method
CN106503431	The processing method of exercise data
CN106504235	Rhythm of the heart method based on image procossing
CN106529122	DR flat panel detector system and its image store access method
CN106557656	A kind of implementation method of house continuous ambulatory peritoneal dialysis model of follow-up
CN106557661	Operating room visualized data call method
CN106558011	Intelligent community service system
CN106569673	Display method and display equipment for multimedia medical record report
CN106570322	A kind of system that Psychological Evaluation archives are established based on development of Mobile Internet technology

CN106599545	The dynamic management approach of radiotherapy process
CN106599592	Drug automatic vending method and system
CN106599597	Health management method, device and system based on television and television
CN106682389	A kind of Eye disease for monitoring hypertension initiation is health management system arranged
CN106691423	The wearable device and signal processing method of health of heart are assessed by heartbeat signal
CN106708989	Skyline query method based on space time sequence data stream application
CN106777092	Intelligent medical call query method for dynamic Skyline query in mobile cloud computing environment
CN106777093	Skyline inquiry system based on space time sequence data flow application
CN106777873	Community's smart cloud health services system
CN106777904	Remote visualization data interactive method
CN106777929	Eeg monitoring system based on smart cloud
CN106780761	Autistic child interest point information acquisition system based on augmented reality technology
CN106803219	Work and rest recognition recording method for neonatal care based on intelligent foot ring
CN106815570	Electrocardiosignal ST-T segment identification method based on dynamic pattern identification
CN106846644	A kind of self-service tumor markers colony intelligence detection device and method
CN106874677	Remote auxiliary medical method and device and medical advice platform system
CN106874684	A kind of image labeling system and method
CN106878263	Cloud medical image storage system and communication system
CN106897565	User terminal use data processing method and device and electronic equipment
CN106909766	A kind of information processing method and electronic equipment
CN106919775	A kind of processing method and processing device of sleep info
CN106934244	A kind of medical treatment and nursing cloud platform based on intelligent terminal
CN106940757	Health supervision service method and collaboration host system based on Internet of Things
CN106951185	health detection data management system and method based on block chain technology
CN106951691	Remote mobile medical management system based on cloud platform
CN106951703	System and method for generating electronic medical record
CN106980748	Green juvenile's dioptric development monitoring method and system based on big data fitting
CN106991273	Workflow of motion monitoring equipment
CN106997421	Intelligent system and method for personalized medical information acquisition and health monitoring
CN107040510	Medical big data processing method based on body area network and cloud computing

CN107080933	A kind of motion detection towards obese patient and feedback interventions system and method
CN107085817	Medical system
CN107133479	Information processing method and electronic equipment
CN107146160	Health condition analysis method for insurance client and server
CN107194193	Ankle pump movement monitoring method and device
CN107220507	Remote medical control device and control method
CN107231230	Cross-domain dynamic anonymous authentication group key management method and system based on diseases
CN107247868	Artificial intelligence auxiliary inquiry system
CN107273666	Human health data comprehensive analysis system
CN107273698	Processing and detecting method and system for artificial intelligence training standard library
CN107315811	Clinical pharmacy information interaction control method and equipment
CN107315904	Patient medicine taking remote monitoring system and method
CN107341338	Adverse drug reaction rate processing method, device, computer equipment and storage medium
CN107360158	A kind of medical treatment client access authority control method and system
CN107391938	Parameter evaluation method and equipment for human body implanted medical device
CN107423637	Integrity auditing method supporting traceability of electronic medical record data on cloud
CN107436989	Skin monitoring reminding method and mobile terminal
CN107436998	Intelligent medicine box, unlocking method of intelligent medicine box and medicine management system
CN107491641	Method and device for selecting hospital talk room
CN107526590	Operation guidance information display method and device of medical equipment and terminal
CN107545138	Microorganism detection method, computer-readable storage medium and microorganism detection system of microorganism detection device based on big data
CN107579969	User information acquisition method
CN107592311	Cloud storage medical treatment big data lightweight batch auditing method towards wireless body area network
CN107610754	Medical image center system, remote end and local end
CN107610763	AI interface platform, application method thereof and AI application system
CN107622797	Body condition determining system and method based on sound
CN107633880	Intelligent communication system and maintenance mechanism intelligent management system
CN107644237	Interpretation method of multi-stage intelligent immunochromatographic record interpretation system
CN107658001	Household oil health management method and system
CN107670153	Method for processing operating parameters of breathing machine and breathing machine
CN107705851	Method for correcting medication data
CN107811606	Intellectual vision measurer based on wireless sensor network

CN107837499	One kind being based on Embedded fitness equipment intelligent training support and control method
CN107871535	Accompanying monitoring system and accompanying monitoring method
CN107875621	A kind of automatic intelligent digital moving body building management system
CN107920079	Portable medical method of servicing based on Internet of Things
CN107948133	Intelligent auxiliary medicine taking reminding system and method
CN107951464	Vision detection system and method
CN107978353	High-warning-level medicine double-check monitoring method and device, storage medium and medical mobile terminal
CN108010561	Fetal heart sound acquisition and processing system
CN108053046	Registration method and device, storage medium and electronic equipment
CN108053863	Mass medical data storage system and data storage method suitable for large and small files
CN108109700	Method and device for evaluating curative effect of chronic disease
CN108154937	Emergency treatment method of emergency treatment system for unmanned emergency ambulance
CN108182763	Sharing oxygenerator
CN108182974	Disease evaluation method, terminal device and computer readable medium
CN108198601	Motion scoring method, device, equipment and storage medium
CN108259604	Medical equipment information interaction system and method based on IEEE11073 standard
CN108270790	Radiotherapy information management system and management method
CN108335744	A kind of emergency cardiovascular care network system and its method for early warning of classifying
CN108346455	Hospital intelligent medical guiding device and method
CN108371816	Breathing diagnosis and treatment guide game engine and operation method
CN108388338	Control method and system based on VR equipment
CN108388783	Electronic identity system based on Internet sharing recruitment model
CN108401010	Intelligent medical rescue method and system based on Internet of vehicles
CN108417252	Memory impairment correction system
CN108461154	A kind of Hospital Infection managing device and method for managing and monitoring
CN108479044	Movement method and system of wearable device
CN108492888	Host pipe system based on embedded intelligent measurement and control terminal and implementation method thereof
CN108500981	Intelligent medicine delivery robot system based on Internet of things and medicine delivery method
CN108509905	State evaluation device, electronic apparatus, and storage medium
CN108511067	Early warning method and electronic equipment
CN108511079	A kind of hospital's occupational exposure monitoring management apparatus and its method for managing and monitoring

CN108520221	Method, apparatus, storage medium and the terminal device of figure identification
CN108550385	Exercise scheme recommendation method and device and storage medium
CN108589874	Intelligent toilet with health monitoring function
CN108592348	Sleep evaluation method, air conditioner and computer readable storage medium
CN108671328	Intelligent transfusion monitoring device, system and method
CN108694782	Control method of health sharing cabin and health sharing cabin system
CN108711455	Dengue fever prevention and control method and system
CN108768950	Medical communication account management method and system
CN108771574	Intelligent scoliosis correction system and control method
CN108806783	Patient nursing and conveying tracing management system based on APP
CN108877888	Motion function evaluation method and device
CN108899066	Health information processing system
CN108905170	Effective movement evaluation method based on cardiopulmonary endurance level and RPE feedback and device for implementing method
CN108922605	Assisted reproduction management method and system
CN108960640	formative evaluation optimization system for cloud data clinical medicine education training process
CN108962369	Blood storage method and device
CN109003680	Epileptic data statistical method and device
CN109033873	Data desensitization method for preventing privacy leakage
CN109036517	Mental health industry closed loop ecological chain platform and business operation mode
CN109036554	Method and apparatus for generating information
CN109036558	Health assessment system based on walking age
CN109119131	Physical examination method and system based on medical examination expert intelligence library platform
CN109126101	Method of bicycle motion energy consumption calculation system
CN109146745	Network interconnection donation system and use method thereof
CN109147903	One kind instructing system and method based on chronic disease athletic rehabilitation
CN109147943	Perioperative evaluation and guidance system
CN109192312	Intelligent management system and method for adverse events of heart failure patients
CN109215807	Post-visit method and system
CN109243617	Method and device for auditing prescription of antibacterial drug, storage medium and electronic equipment
CN109243618	Medical model construction method, disease label construction method and intelligent device
CN109271969	Brain glioma grading evaluation method and device
CN109283994	Power saving method and device for intelligent equipment and intelligent equipment
CN109299472	Text data processing method and device, electronic equipment and computer readable medium

CN109327554	System and method for intelligent in-vitro diagnosis and noninvasive heartbeat detection of big data of mobile phone
CN109344889	Brain disease classification apparatus, user terminal, and computer-readable storage medium
CN109378064	Medical data processing method, device electronic equipment and computer readable medium
CN109446406	Data processing method and device and data processing device
CN109461487	PCA infusion device, locking releasing method and device in advance and storage medium
CN109471918	Intermediate field tracing method, device and medium
CN109493930	Patient file sharing system and method
CN109493977	Text data processing method and device, electronic equipment and computer readable medium
CN109509512	Clinical business automatic library building method based on Excel import
CN109522331	Individual-centered regionalized multi-dimensional health data processing method and medium
CN109522338	Clinical term mining method, device, electronic equipment and computer readable medium
CN109529303	User movement capacity confirmation method and system
CN109529304	Intelligent training method and system
CN109543082	Method, device and medium for searching patient data through graphical display
CN109599176	Method and device for recommending inquiry skills and online auxiliary diagnosis system
CN109599185	Disease data processing method and device, electronic equipment and computer readable medium
CN109599187	Triage method, server, terminal, device and medium for online inquiry
CN109658997	Three-test order drawing method and device, electronic equipment and storage medium
CN109659015	Care service management method, server and storage medium
CN109671504	Method, system, device and medium for predicting risk before delivery of heart disease pregnant patient
CN109686431	Operating room scheduling method based on mixed wolf-change neighborhood search algorithm
CN109727283	Cartilage thickness display method and device, computer equipment and storage medium
CN109740652	Pathological image classification method and computer equipment
CN109741339	Partitioning method and system
CN109741806	Auxiliary generation method and device for medical image diagnosis report
CN109754884	Method, system and medium for predicting risk of newborn before delivery of heart disease pregnant patient
CN109767843	Infectious disease early warning method based on intelligent contract and infectious disease data block chain system
CN109817327	Registration guidance method and device, computer readable storage medium and electronic equipment
CN109817348	Mobile medical signature management method and related product

CN109872803	Artificial intelligence pathology marking system
CN109903856	Online consultation method and system
CN109920104	A access control system based on face identification for wisdom hospital
CN109925056	Method and device for implanting intracranial aneurysm virtual support
CN109948177	Environment-friendly interactive cooker customizing system for processing definition health
CN109948680	Classification method and system for medical record data
CN109961831	Method and system for acquiring risk data of pediatric kidney stone surgery
CN109979570	First-aid handheld diagnosis equipment with X-ray detection function and diagnosis method
CN110010211	Dynamic scale configuration system and method
CN110047569	Method, device and medium for generating question-answer data set based on chest radiography report
CN110051191	Intelligent office and study table mat and health reminding method thereof
CN110119775	Medical data processing method, device, system, equipment and storage medium
CN110136823	Apparatus for wireless intelligent diagnosis of diabetic nephropathy and computer-readable storage medium
CN110188659	Health detection method and related product
CN110188678	Vein identification method and related product
CN110322944	Intelligent adverse drug reaction monitoring method, device and system and computer equipment
CN110335276	Medical image segmentation model, method, storage medium and electronic device
CN110349358	Catering settlement method, device, terminal and readable medium based on health management
CN110442869	Medical text processing method and device, equipment and storage medium thereof
CN110457929	Method and system for sharing heterogeneous HIS (high-speed multimedia subsystem) big data real-time encryption and decryption compressed uplink
CN110459328	Clinical monitoring equipment
CN110460452	Message pushing method and related product
CN110517771	Medical image processing method, medical image identification method and device
CN110619359	Method and device for determining pulmonary tuberculosis grading according to human body medical image
CN110675929	Data processing system based on corneal topography
CN110739050	Left ventricle full-parameter and confidence coefficient quantification method
CN110742688	Blood vessel model establishing method and device and readable storage medium
CN110750614	Hospital intelligent service evaluation method, system, equipment and storage medium
CN111063415	Method, system, device and implementation method of device for precisely adjusting output of granular preparation

CN111193830	Portable augmented reality medical image observation auxiliary assembly based on smart phone
JP6404677	SYSTEM FOR DETERMINING SKIN OR SCALP CONDITION OF SUBJECT USING IMAGE PROCESSING TECHNIQUE, AND BUSINESS METHOD THEREOF
JP2017221674	INTERACTIVE ATHLETIC TRAINING LOG
JP2019091160	RESCUE SYSTEM AND RESCUE METHOD, AND SERVER AND PROGRAM USED FOR THE SAME
JP2018163157	OPERATOR-SPECIFIC ADAPTATION OF MEDICAL ANALYZER USER INTERFACE
JP2020003975	VISUAL APPROACH APTITUDE TEST SYSTEM
JP2020080081	VEGETABLE INGESTION AMOUNT IMPROVEMENT SYSTEM, VEGETABLE INGESTION FOOD DATA BASE, AND VEGETABLE INGESTION AMOUNT IMPROVEMENT PROGRAM
JP2018109994	DATA UTILIZATION METHOD, SYSTEM, AND PROGRAM USING BCN (BLOCK CHAIN NETWORK)
JP2019024580	REHABILITATION SUPPORT SYSTEM, REHABILITATION SUPPORT METHOD, AND PROGRAM
JP2019155071	EVENT PREDICTION SYSTEM, SENSOR SIGNAL PROCESSING SYSTEM, EVENT PREDICTION METHOD, AND PROGRAM
JP2018088238	SERVICE SUPPORT DEVICE, SERVICE SUPPORT METHOD, AND PROGRAM
JP2017200572	DEMENTIA INFORMATION OUTPUT SYSTEM AND CONTROL PROGRAM
JP2020166801	IoT SYSTEM AND MONITORING METHOD FOR MONITORING RELATIONSHIP BETWEEN INDOOR ENVIRONMENT AND AGED PEOPLE'S HEALTH
JP2019101565	MANAGEMENT SERVER AND PROGRAM
JP2018063692	INFORMATION PROCESSING SYSTEM, TERMINAL DEVICE, SERVER, MEDIUM, INFORMATION PROCESSING METHOD AND PROGRAM
JP2018073426	INVENTORY ALERT SYSTEM FOR TESTING PLACE
JP2018081632	SERVICE SUPPORT SYSTEM, SERVICE SUPPORT METHOD, AND PROGRAM
JP2016103843	MOBILE TERMINAL AND DATA MANAGEMENT PROCESSING PROGRAM
JP2016110662	USER INFORMATION INPUT DEVICE, INPUT SCREEN DISPLAY METHOD, AND INPUT SCREEN DISPLAY PROGRAM
JP2015179539	HOME-VISIT NURSING SUPPORT SYSTEM
JP2015201188	INFORMATION PROCESSOR, INFORMATION TRANSMISSION SYSTEM, AND INFORMATION TRANSMISSION METHOD
JP2021018660	INFORMATION PROCESSING DEVICE, INFORMATION PROCESSING SYSTEM, PROGRAM, AND INFORMATION PROCESSING METHOD
JP2020021362	INFORMATION PROCESSING DEVICE, INFORMATION PROCESSING METHOD, AND INFORMATION PROCESSING PROGRAM

JP2020106318	ABSORBED CALORIE MEASURING DEVICE, ABSORBED CALORIE MEASURING METHOD, AND ABSORBED CALORIE MEASURING PROGRAM
JP2020154645	PROGRAM, CONTENT DISPLAY METHOD, AND COMPUTER
JP2020191058	MEDICAL CHECKUP APPARATUS
JP2019032862	PSYCHIATRIC MEDIAL TREATMENT AUXILIARY SYSTEM, SERVER, METHOD, AND PROGRAM
JP2019057282	PATIENT PROFILE INFORMATION SYSTEM, METHOD FOR CONTROLLING PATIENT PROFILE INFORMATION SYSTEM, PROGRAM, AND RECORDING MEDIUM
JP2019091162	RESCUE SYSTEM AND RESCUE METHOD, AND SERVER AND PROGRAM USED FOR THE SAME
JP2019185188	INFORMATION PROCESSING METHOD, INFORMATION PROCESSING APPARATUS, AND INFORMATION PROCESSING SYSTEM
JP2019185766	PACS DATA PROTECTION FOR PACS DATA ACCESS VIRTUAL ENVIRONMENT INFRASTRUCTURE AND METHOD FOR PROVIDING MEDICAL ADVISORY SERVICE PROVIDING VIDEO DATA MATCHING
JP2019191644	STATE ESTIMATION APPARATUS
JP2018026126	COMMUNICATION TERMINAL, BEHAVIOR MANAGEMENT DEVICE, MANAGEMENT INFORMATION TRANSMISSION METHOD, BEHAVIOR MANAGEMENT METHOD, AND COMPUTER PROGRAM
JP2018045545	STRESS MANAGEMENT SYSTEM AND STRESS MANAGEMENT METHOD
JP2018120565	COMPUTER-IMPLEMENTED METHOD AND COMPUTER
JP2018147167	SLEEP ENVIRONMENT DETECTION SYSTEM AND SLEEP ENVIRONMENT DETECTION METHOD
JP2018200567	COMPUTER PROGRAM, TERMINAL DEVICE, METHOD, AND SERVER
JP2017010538	METHOD AND SYSTEM FOR ESTIMATING EFFECTIVENESS OF MEDICINE
JP2017086195	PHYSICAL STRENGTH INDEX DISPLAY SYSTEM, PHYSICAL STRENGTH INDEX OUTPUT DEVICE, AND PHYSICAL STRENGTH INDEX DISPLAY METHOD
JP2017126305	INFORMATION PROVIDING DEVICE, SYSTEM, AND PROGRAM
JP2017138950	EXERCISE SUPPORT METHOD, EXERCISE SUPPORT SYSTEM, AND TERMINAL APPARATUS
JP2017152003	BEHAVIOR RECORDING DEVICE, BEHAVIOR RECORDING METHOD, AND BEHAVIOR RECORDING PROGRAM
JP2017162214	PROXIMITY COMMUNICATION DEVICE, PROXIMITY COMMUNICATION METHOD, AND PROXIMITY COMMUNICATION PROGRAM
JP2016046810	DIGITAL NUMBER CALL SYSTEM
JP2016071863	ADAPTIVE INTERRUPTIONS PERSONALIZED FOR USER
JP2016148940	SETTLEMENT SERVER, COUNTER EFFICIENCY IMPROVEMENT SYSTEM, COUNTER EFFICIENCY IMPROVEMENT METHOD, AND PROGRAM

JP2016158768	PORTABLE APPARATUS
JP2016163166	COMMUNICATION TERMINAL, INTERVIEW SYSTEM, DISPLAY METHOD, AND PROGRAM
JP2016184306	PROTECTION SUPPORT SYSTEM, PROTECTION SUPPORT SERVER, AND PROTECTION TERMINAL
JP2016192118	INFORMATION PROCESSING SYSTEM, INFORMATION PROCESSING APPARATUS, AND INFORMATION PROCESSING PROGRAM AND INFORMATION PROCESSING METHOD
JP2021019819	EXERCISE SUPPORT SYSTEM AND PROGRAM
JP2021033441	SYSTEM, METHOD, AND PROGRAM FOR SUPPORTING REHABILITATION
JP2021033442	SYSTEM, METHOD, AND PROGRAM FOR SUPPORTING REHABILITATION
JP2021043565	INFORMATION PROCESSING SYSTEM AND PROGRAM
JP2021043745	MEDICAL SYSTEM
JP2021056912	INFORMATION PROCESSING SYSTEM AND PROGRAM
JP2021060740	DEVICE, SYSTEM AND METHOD FOR SUPPORTING ACTIONS FOR HEALTH MAINTENANCE/ENHANCEMENT AND COMPUTER PROGRAM
JP2021060767	REHABILITATION SERVICE ASSISTANCE DEVICE, REHABILITATION SERVICE ASSISTANCE METHOD, AND PROGRAM
JP2021060768	REHABILITATION SERVICE ASSISTANCE DEVICE, REHABILITATION SERVICE ASSISTANCE METHOD, AND PROGRAM
JP2021060769	REHABILITATION PLANNING DEVICE, REHABILITATION PLANNING METHOD, AND PROGRAM
JP2021071641	INFORMATION PROCESSING DEVICE, INFORMATION PROCESSING SYSTEM, INFORMATION PROCESSING METHOD, AND PROGRAM
JP2021071890	INFORMATION PROCESSING DEVICE, SUPPORT METHOD, AND PROGRAM
JP2021086304	ENVIRONMENT MANAGEMENT SYSTEM, ENVIRONMENT MANAGEMENT METHOD AND PROGRAM
JP2021089677	BLOOD PRESSURE ANALYSIS DEVICE, BLOOD PRESSURE ANALYSIS METHOD, AND BLOOD PRESSURE ANALYSIS PROGRAM
JP2021094299	PHYSICAL FUNCTION TRAINING DEVICE, PHYSICAL FUNCTION TRAINING METHOD, PROGRAM, AND RECORDING MEDIUM
JP2021096668	MENSTRUATION-RELATED INFORMATION NOTIFICATION SYSTEM FOR LOW-DOSE PILL RECIPIENT
JP2021103434	DIETARY LIFE ESTIMATION DEVICE
JP2021107798	INFORMATION PROCESSING DEVICE, INFORMATION PROCESSING METHOD, INFORMATION PROCESSING PROGRAM, INFORMATION PROCESSING SYSTEM AND TERMINAL PROGRAM
JP2020009164	INFORMATION PROCESSING SERVER AND PROGRAM
JP2020009429	METHOD AND COMPUTER SYSTEM FOR REALIZING SERVICE FOR SHARING EXAMPLES FOR TREATING PERI-IMPLANTITIS
JP2020016943	CREATIVITY EVALUATION DEVICE, METHOD AND PROGRAM
