

# The Review of Physical Chemistry of Japan

Vol. 49, 1979

## CONTENTS

### No. 1

|  |    |
|--|----|
| Masaru Hongo : Initial Density Dependence of Gas Viscosity .....   | 1  |
| Masaru Hongo : Viscosity of Propylene under Pressures .....  | 11 |
| Kiyoshi Shimizu and Noriaki Tsuchihashi : Pressure Effect on Conductance<br>of Aqueous Solutions of Potassium Halides .....                        | 16 |
| Toshihiro Nakayama : Pressure Effect on the EDA Complexes in Solution .....  | 25 |
| Yoshimasa Takezaki, Koichi Watanabe, Yoshiyuki Tanaka and Akira<br>Nagashima : Some Evaluated Thermophysical Properties of Gaseous<br>Ethyne ..... | 39 |
| Tsutomu Asano: On the Volume Increase During Cyclization .....   | 56 |

### No. 2

|  |     |
|--|-----|
| Hironobu Kubota, Sadahiro Tsuda, Masahiro Murata, Takeshi Yamamoto,<br>Yoshiyuki Tanaka and Tadashi Makita : Specific Volume and Viscosity<br>of Methanol-Water Mixtures under High Pressure .....   | 59  |
| Hiroshi Kashiwagi, Tomiaki Fukunaga, Yoshiyuki Tanaka, Hironobu<br>Kubota and Tadashi Makita : Dielectric Constant and Density of<br>Cyclohexane-Benzene Mixtures under High Pressure .....  | 70  |
| Katsumi Maeda, Masaru Nakahara, Kimihiko Hara and Jiro Osugi :<br>Optically Determined Mesomorphic Transitions in Cholesteryl Stearate<br>at High Pressure .....   | 85  |
| Yoshihiro Taniguchi and Keizo Suzuki : Pressure Effect on Micellar<br>Formation of Sodium Dodecyl Sulfate in Saturated Aqueous Solution of<br>Naphthalene .....  | 91  |
| Hisayuki Inoue : The Reaction of Nitrile with $\alpha$ -Hydrogens at High<br>Pressure III. Pressure Effects on the Rates of the Iminoether Formation<br>and Proton/Deuteron Transfer Reactions of Substituted Phenylaceto-<br>nitriles in Methanol ..... | 95  |
| Tsutomu Asano: A Method to Estimate the Intrinsic Term in Activation and<br>Reaction Volumes.....  | 109 |
| Masaru Hongo: Initial Density Dependence of Viscosity of Nonpolar-Polar<br>Gaseous Mixtures .....  | 120 |
