Préface

En Octobre 1979, un colloque franco-japonais d'analyse harmonique sur les groupes de Lie s'est tenu à l'Université L.Pasteur de strasbourg. Ce volume rassemble les redactions d'une partie des exposés (essentiellement ceux des mathématiciens japonais). Ce colloque, organisé dans le cadre de la coopération franco-japonaise a bénéficié du soutien des autorités françaises et japonaises; nous les en remercions vivement.
